ATTACKS SEN. LODGE

Worse Than Kaiser, Says
Sen. Caraway—Also Raps
Coolidge at Lewiston

LEWISTON, Me., March 13.—Natural resources have been bartered away and the national security endangered by the sale of the last drop of the nation's reserve fuel, Senator Caraway of Arkansas told the democratic state convention at Lewiston yesterday.

He declared that the poor old kaiser had been much abused and abused, but that in a campaign for the one most deserving of a passing, the Massachusetts senator would win first place. Senator Lodge, he said, was not a political moralist, but a politician and recited how when a suggestion was made in the senate that Secretary Denby resign, after the Temperance League, Lodge raised his hands and yelled: "This is Lynch law; you are lynching Denby."

"And then that night," said the senator, "he went down to the White House and tried to lynch Daugherty by urging the president to ask for his resignation."

Senator Caraway said that the rank and file of the republican party were honest as were those of the democratic party, but that the time had come when they must choose between the ideals of the republican party and the organization in control of it. If they chose the ideals they must leave the party.

He played President Coolidge for his attitude in the oil scandal and declared that he should have got rid of Denby and Daugherty in short order. He charged that at the Lewiston convention Coolidge selected Bascom Slomp to be his private secretary. Slomp was selling post offices in Virginia to the highest bidder and declared that he had in his possession letters written by Slomp to a man in a town where a republican in which he (Slomp) said he didn't care how he did it, that it was to go to the one who would pay the most money.

In his own state of Arkansas he said the post offices were being sold by the republican state committee for from \$50 to \$200 each.

The expected fight in the convention over the Ku Klux Klan did not materialize. Those who favored the plank apparently said all they had to say at the Tuesday night gathering, so were contented with a plank reported by the committee which declared against government by an oath-bound secret organization; against the use of public funds for religious schools; for the separation of state and church and for liberty in religious worship.

The platform adopted declared for the enforcement of law instead of for the repeal of the state prohibitory law.

Seek Evidence on
Liquor Cases
Continued

Attorney's inquiry into the attorney general's administration.

Miss Stinson, divorced wife of Jesse W. Smith of Washington Court House, O., candidate and "bumper friend" of Mr. Daugherty, was brought here by Senator Wheeler, democratic Montana, "prosecutor" of the inquiry, after a secret trip to Cleveland to question her, and the opening of her story was packed with amazing insinuation, inferences and charges. She said she came to defend her former husband, "who gave his life for Henry Daugherty."

Snobbing whenever her narrative brought before her the memory of her former husband's suicide six years ago, in Daugherty's apartments here, she gave the committee a breath-taking tale of relations between the two men, Smith's wealth, when he came to Washington in 1921 to be with the attorney general, she said amounted to approximately \$150,000, but had increased at the time of his death to \$250,000.

She testified that her former husband had called on her for aid in a number of transactions and had told her of other "deals" from all of which she insisted, he and Daugherty were to profit. The attorney general's name, she said, was not specifically mentioned, but she asserted that whenever

Smith had said "we" he meant Daugherty and himself, and she frequently used "they" in reference to the same two men.

\$100,000 Clean-up on Pictures
Smith at one time, she testified, told her that "we" expected about \$100,000 in profits if exhibition of motion pictures of the Carpenter-Dempsey fight could be arranged, and on another oc-

HUGH L. (COLORADO) PATTON
United States Marshal at Cheyenne

casions, she said, her former husband entrusted to her for sale 25 shares of White Motors stock, telling her "they" had obtained it without cost. Smith, she added, also had come into possession of a number of shares of the Pure Oil Co. of Ohio. She was on the point of speaking about "a mysterious green house on K street," when she was relieved from further testimony until today.

Several clashes between Senator Wheeler and Paul Rowland, chief of Mr. Daugherty's personal counsel, marked the opening session. An attempt by Mr. Rowland to intervene in the examination of Miss Stinson brought Senator Wheeler to the end of the committee table with a declaration that he did not intend to be "bullied" in an effort to prevent a pro-

ALBERT D. WALTON
United States District Attorney in Wyoming

pared statement on behalf of the attorney general also brought a sharp exchange. The committee voted twice, 3 to 2, to reject requests of the Daugherty counsel to have the statement received before finally accepting it into the day's record.

The statement declared that Mr. Daugherty "resents and condemns the indiscriminate broadcasting of unsubstantiated rumors, whispered criticisms and false and scandalous statements, for which no one is responsible" and welcomed the opportunity "to expose falsehood and scandal and to establish truth." He demanded that if any development should warrant "the formulation of an express charge against him" that he be permitted at once to answer.

DEATHS

RILEY—John F. Riley, a former well known resident of this city, but for the past 14 years located in Peabody, died suddenly yesterday at his home, 3 Berry street, after a few hours' illness, aged 35 years and 3 months. Mr. Riley was apparently in good health and was suddenly stricken with an attack from which he failed to rally. His family has the sympathy of a wide circle of friends. He leaves his wife, Bertha Riley; two sons, William G. and Elmer F., one daughter, Mildred; his mother, Mrs. Bridget Riley and three sisters, the Misses Sule and Elizabeth Riley of this city. The body was removed to this city by Undertakers James W. McKenna Sons, and will be taken to the home of his mother, 1109 Lawrence street.

TAYLOR—Mrs. Alice E. Taylor died yesterday at the home of Mrs. Elliot H. French in West Tewksbury, aged 74 years, 11 months and 3 days. Mrs. Taylor was the widow of Charles E. Taylor and had been a resident of Lowell for a long period. She leaves two nieces, Mrs. James Stuart Murphy and Mrs. Lillian Hard Hill. The body was removed to the chapel of Funeral Director John A. Weinbeck, 42 Middlesex street.

McNAMARA—Michael McNamara, a well known resident of this city and a member of St. Patrick's parish, died today at the home of his son, James E. McNamara, 32 Franklin street. He is survived by one son, James E., one daughter, Mrs. Josephine Trainor and several grandchildren.

KALENY—James Kaleny, a well known member of the Greek community, died yesterday at the Lowell Corporation hospital, aged 35 years. The body was taken to the chapel of Undertakers James F. O'Donnell & Sons.

FUNERAL NOTICES

CONVENTION—Died March 11, Mrs. Alice (McMahon) Convent. Funeral will take place on Friday morning at 9 o'clock from her late home, 281 Fayette street. Solemn high mass of requiem will be sung at the immaculate Conception church at 10 o'clock. Burial will take place in St. Patrick's cemetery. The funeral arrangements are in charge of Undertakers M. H. McDonough Sons.

HOWEN—Died in this city, March 10, William F. Howen. The funeral will take place on Friday morning at 9 o'clock from the chapel of Undertakers James F. O'Donnell & Sons, and a funeral high mass will be sung at St. Patrick's church at 10 o'clock. The burial will be in St. Patrick's cemetery under the direction of Undertakers James F. O'Donnell & Sons.

McNAMARA—The funeral of Michael McNamara will take place Saturday morning from the home of his son, James E. McNamara, 32 Franklin street, at 8 o'clock. High mass of requiem at St. Patrick's church at 9 o'clock. Interment in St. Patrick's cemetery. Funeral arrangements in charge of Peter H. Savage Sons, undertakers.

RILEY—Died in Peabody, March 12, at his home, 3 Berry street, John F. Riley. The funeral will take place Saturday morning at 8 o'clock from the home of his mother, Mrs. Bridget Riley, 1109 Lawrence street, this city, and there will be a funeral high mass at the Sacred Heart church at 9 o'clock. Burial will be in St. Patrick's cemetery. The arrangements are in charge of Funeral Directors James W. McKenna Sons.

SCANLON—Died in Peabody, March 11, at his home, 37 Rockwell street, Mrs. Elizabeth Scanlon. The funeral will take place Friday morning at 8 o'clock from the home, and there will be a funeral high mass at St. Michael's church at 9 o'clock. Burial will be in St. Patrick's cemetery. Friends are requested to place floral tributes. The arrangements are in charge of Funeral Directors James W. McKenna Sons.

SPAGNOLI—Died March 13, Louis Spagnoli at the home of his parents, Louis and Julia Souza Spagnoli, 47 Lincoln street, aged 8 days. Funeral will take place on Friday morning at 11 o'clock from 11 Highland street. Burial will take place in St. Patrick's cemetery. The funeral arrangements are in charge of Undertakers M. H. McDonough Sons.

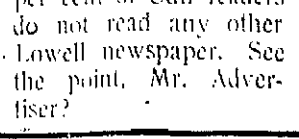

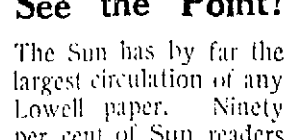

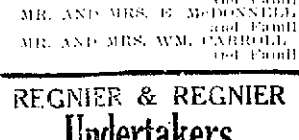

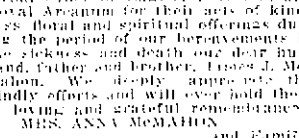

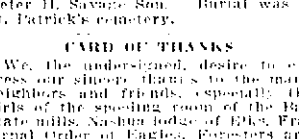

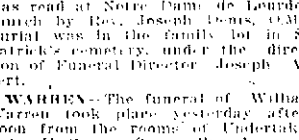

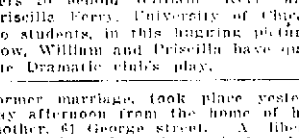

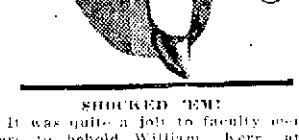

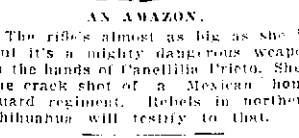

TAYLOR—The funeral of Mrs. Alice E. Taylor will take place from the funeral chapel of John A. Weinbeck, 42 Middlesex street, Saturday, March 15, at 2 o'clock. Friends invited without further notice. Arrangements in charge of Funeral Director John W. Weinbeck.

FUNERALS

PAQUIN—The funeral of Georges Paquin took place this morning at 9 o'clock from his home, 4 Joliette avenue, and was attended by many relatives and friends from this city and from out of town. Among the guests were Arthur and Joseph Gosselin of Montreal, P. Q., and Louis Gosselin of Deschambault, P. Q. A solemn high funeral mass was celebrated at 10 o'clock at St. Joseph's church by Very Rev. Eugene J. Turcotte, O.M.I., assisted by Rev. Augustin Gratia, O.M.I., as deacon and by Rev. J. E. Emery, O.M.I., as sub-deacon. The church choir, under the direction of Rodolphe E. Pepin, the organist, rendered Pietro A. Yon's mass. The solos were sustained by Dr. G. E. Calise, Arthur J. Leveillé, Mrs. Edith, Mrs. Maria Jacques and Mr. Pepin. The bearers were H. Paquin, Arthur Paquin, Anthony Paquin, Alfred Paquin, Alfred Gosselin and Edouard Paradis, Court St. Antoine, C.O.B. was represented by the following delegation: Melisse Gagnon, Emery and Thomas Boucher, Joseph Maguire, Joseph Julien and Armand Deschambault. Burial was in the family lot in St. Joseph's cemetery, where the communal prayers were read by Rev. Athanasius Marion, O.M.I. The funeral arrangements were in charge of Undertakers Amedee Archambault and Sons.

CARPENTIER—The funeral of Mrs. Aurelie (Beauregard) Carpentier took place this morning at 9 o'clock from the home of her daughter, Mrs. Marion Patenaude, 403 Moody street, with a large gathering of sorrowing relatives and friends in attendance. At 9:15 o'clock a solemn high funeral mass was celebrated by Rev. Fr. Alphonsus Nolin, O.M.I., assisted by Rev. J. E. Collette, O.M.I., as deacon and Rev. Guilleme Gosselin, O.M.I., as sub-deacon. The choir, under the direction of R. E. Pepin, who also presided at the organ, rendered Pietro Yon's mass. Solos were sung by Mrs. R. E. Pepin, Mrs. E. J. Calise, Dr. G. E. Calise, and Mr. Arthur Leveillé. The bearers were Wilfred, Leo, Peter, Joseph Henry Carpentier, all grandnephews of the deceased, and Ernest Forrest, St. Anne's sodality, of which the deceased was one of its founders, were represented by Mrs. Charles LeDite, Joseph Robert, Michael Dutilleul, Henry Carpentier, Melisse Gosselin and Joseph Gosselin. A beautiful spiritual bouquet was deposited on the casket of the deceased. Burial took place in St. Joseph's cemetery in the family lot, where Rev. Fr. Athanasius Marion, O.M.I., read the communal prayers. The funeral arrangements were in charge of Undertakers Napoleon Rudean & Son.

BROWN—The funeral of Joseph Brown, died of Mrs. Anna Kendall by a

Miss Eleanor Aylesworth, 16, high school student of Binghamton, N. Y., has disappeared from her home. A nation-wide search is being made for her.

MAN WANTED FOR MURDER ARRESTED

PROVIDENCE, R. I., March 13.—Pietro De Pedro, 23, wanted for murder in Cleveland since August, 1923, was arrested at Providence today when Detective Cavali with a witness from that city, identified the man among the passengers on the Eddon liner Patricia. The Cleveland police had been informed by cable that he was aboard the ship. They had been waiting for the ship at New York, but her course was changed to this port because of lack of fuel. De Pedro had been at 11 o'clock, Providence of Virginia, since his alleged flight from America. He gave his identification as Hartford, Conn., where he is said to have a sister.

SCARF'S POPULAR
Scarfs are quite as popular for evening as for day wear. They are worn inside the evening wrap and knotted about the shoulder when dancing.

SALVATION ARMY
It was impossible for Staff-Captain Fred Osmond of the Salvation Army to visit Lowell last Sunday as planned owing to him being called away to Buffalo, N. Y., to attend a funeral, but he will conduct the services next Sunday, and will be accompanied by Adjutant George Furdum and Capt. Noel of the divisional headquarters. Saturday night the service will be out of the ordinary, as the old veterans of the local corps will have charge. It is interesting to know that some of the local members have been connected with the organization ever since it was organized in Lowell, and are still active in the work, so a good crowd is desired for this service which will commence at 8 o'clock.

CAPTAIN OF WILLIAMS
WILLIAMSTOWN, March 13.—Harris B. Fisher of New Rochelle, N. Y., has been elected captain of the Williams college basketball team for next year. Fisher, a junior, has played two years at center on the team and also has starred in football, baseball and tennis.

GLACE GLOVES

STACK FORETOLD OIL LEASES YEARS BEFORE THEY WERE SIGNED

Josephus Daniels, Former Secretary of Navy, Tells of Efforts Made to Get Control of Oil Reserves During His Administration

For the first time, Josephus Daniels, former secretary of the navy, tells in the following signed article the "inside story" of efforts made to get control of naval oil reserves during his administration. It is a story that links most interestingly with recent developments in the oil lease investigation.

BY JOSEPHUS DANIELS
Secretary of the Navy During Wilson Administration

After congress had set aside naval oil reserves, many persons came to the navy department to inquire about leases.

Letters from all sections of the country asking questions of every kind are received. Private interests wanted to develop the naval oil reserves.

My policy was, and always will be, to keep the oil in the ground where it belongs for naval emergency. I let it

RECOVERED HER STRENGTH QUICKLY

Debility Resulting From Attack of Grip Corrected by Tonic Treatment

"An attack of the grip left me weak and all run down," says Mrs. K. H. Hudson, of No. 133 Market street, Hartford, Conn. "and the least exertion left me exhausted. This was complicated by an attack of rheumatism. I lost strength and had sharp pains in my left arm that would go down to my finger tips. I had a sort of dull, throbbing headache and an all gone feeling in my stomach. I was easily chilled and could not seem to get warm again. My appetite was poor and I was very nervous."

"Through a friend who was a great advocate of Dr. Williams' Pink Pills I was led to try them and after the first box I could see an improvement in my appetite. Then I began to recover my strength right away. The rheumatic pains became less severe and finally went away entirely."

"Soon I had more ambition and could walk out every day without getting out of breath. As the nervousness left me my sleep became sound and refreshing. I think Dr. Williams' Pink Pills are a wonderful blood builder and tonic and I am glad to give this statement recommending them."

Get a box of Dr. Williams' Pink Pills today from the nearest drug store if you are not feeling as well as you should and see what the tonic treatment will do for you. Write to the Dr. Williams' Medicine Co., Schenectady, N. Y., for free booklet, "Building Up the Blood."—Adv.

Home-made, but Has No Equal for Coughs
Make a family supply of really dependable cough medicine. Easy to prepare, and saves about \$2.

If you have a severe cough or chest cold accompanied by soreness, throat tickle, hoarseness, or difficulty breathing, or if your child wakes up during the night with cough and you want quick help, try this reliable old home-made cough remedy. Any drugstore can supply you with 2½ ounces of Pinex. Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes a pint of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief.

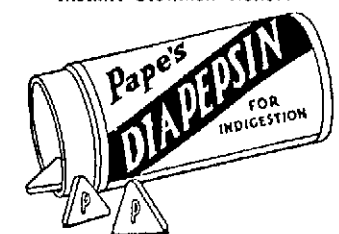

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and brain the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction, or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

INDIGESTION!!! UPSET STOMACH, GAS, GAS, GAS

MEXICAN FEDERALS IN NEW DRIVE

MEXICO CITY, March 13.—War Secretary Serrano and his staff have sailed from Manzanillo to start the campaign against the remaining rebellious elements in the isthmus of Tehuantepec in co-operation with movements by General Almazan and General Topete. The secretary left after the sailing of four transports carrying 8000 federal troops and a number of airplanes. It is confirmed at the treasury department that Puerto Mexico is to be made a free port when the republic is considered completely pacified.

BAR CONVERSATION ABOUT GRIPPE

PARIS, March 13.—The practice of Coucism, but with a sort of reverse English, is beginning to spread among the Parisian population. In one of the numerous cabarets in Montmartre a sign has been posted prominently, reading: "All conversation about the gripe is strictly forbidden."

ABANDON CLAIMS TO KING TUT DISCOVERIES

LONDON, March 13.—Howard Carter and the executors of Lord Carnarvon's estate have given the Egyptian government a written undertaking, says the Daily Mail's Cairo correspondent, abandoning any claim now or in the future to anything found in the tomb of Tu-Ankh-Amen.

SUMMARY OF EARLY MORNING A. P. NEWS

Establishment of banking credit in favor of Bank of France of not less than \$100,000,000, is announced by American banking group, headed by J. P. Morgan & Co.

Rub the Spine

If you believe the spine is the seat of most of your physical ills, and more people are thinking so every day, just give it a gentle massage every night with Joint-Ease and watch the helpful results. Many people are getting it daily from direct's Drug Store, Fred Howard, Jones the Druggist, Fairburn's Bldg., and other good pharmacists.

The name is Joint-Ease and it's the one big discovery for stiff, swollen, inflamed joints—and a tube for only 50 cents.—Adv.

Ask the Ash Man

He Knows

If you want to find out which causes the biggest waste of money—burning anthracite coal or burning Lowell Coke—ask the ashman.

The ashman knows that he carries more and heavier barrels of ashes away from the house that burns anthracite coal than he does from the house that burns

Lowell Coke

As you walk along your street the day the ashman is expected, take note of the homes where there is only one ash can in front—you can make up your mind that in that home they have less work, less worry, less ashes, more heat, and it costs them less to heat it than it does at the other homes where there are several ash cans.

And don't forget when you buy Lowell Coke, you get sixty bushels to the ton.

IMPOSSIBLE TO CUT 1923 TAXES BEFORE MAR. 15

WASHINGTON, March 13.—Plans for reduction in income taxes payable this year are again centered in the revenue bill, house republican leaders having rejected President Coolidge's proposal that the provision be taken from the measure and enacted in a separate resolution before first installments are due Saturday. The bill, as passed by the house, now is in the senate finance committee which continued its discussion of various provisions today with Secretary Mellon.

Compliance with the president's request was impossible. Representative Longworth, the republican leader, told him yesterday, explaining the parliamentary as too involved to permit speedy consideration of such a resolution. Mr. Longworth indicated later, however, that if action on the revenue bill should be delayed or if it should fail of enactment, the proposed separate resolution then would be passed. Most of the small taxpayers already have made their first payments, he added, and, therefore, separate action now would be of little benefit.

Democrats in both the senate and house criticized the president for his request and Representative Lull, Tennessee, chairman of the democratic national committee in a statement declared "the utterly belated tax message of the president is in harmony with his past record of delay when confronted either by an important problem or by an emergency situation."

SHOE SHOP SHUT DOWN

BROCKTON, March 13.—Lack of orders was today given by H. L. Pinkham, vice president and treasurer of the W. L. Douglas Co., as the reason for announcing the complete shutdown of the firm's No. 3 factory.

MAGNESIA BEST FOR YOUR INDIGESTION

Warns Against Doping Stomach With Artificial Digestants

Most people who suffer, either occasionally or chronically from gas, flatulence and indigestion, have now discontinued disagreeable diets, patent foods and the use of harmful drugs, stomach tonics, medicines and artificial digestants, and instead, following the advice so often given in these columns, take a teaspoonful or two tablets of Blaud's Magnesia in a little water after meals with the result that their stomachs no longer trouble them, they are able to eat as they please and they enjoy much better health. Those who use Blaud's Magnesia never dread the approach of meal time because they know this wonderful anti-cold and food corrective, which can be obtained from any good drug store, will instantly neutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and without the slightest pain or discomfort. Try this plan yourself, but be certain to get pure Blaud's Magnesia especially prepared for stomach use.—Adv.

RHEUMATISM PAINS QUICKLY ENDED BY RED PEPPER HEAT

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion, and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.—Adv.

NOBODY LIKELY TO GO TO PRISON IN BIG OIL SCANDAL

BY CHARLES P. STEWART,
N.E.A. Service Writer

WASHINGTON, March 12.—Is anybody apt to go to prison on account of the oil scandal? Doherty, for instance? Or Sinclair? Nobody in Washington thinks so. Why? It's just possible he may be prosecuted, but not probable. Still less so that he'll do time.

There'll be civil suits. The government will try to get back Elk Hills. Teapot Dome and land the Standard Oil company of California holds. Doherty has lost his job. Daugherty doubtless will lose his. Other jobs may be lost. There'll be a political effect, maybe a third party, maybe a chance for the house representatives to elect the next president.

But jail for anybody? Not a bit likely.

The oil investigators have taken most of a week going through the Washington telegrams sent to E. B. McLean, millionaire newspaper man, at Palm Beach last winter.

Why so much interest in McLean's telegrams? Well, when the oil inquiry started, ex-Secretary of the Interior Fall, naturally objecting to have it known that he borrowed \$100,000 from Doherty before handing him Elk Hills, got McLean to pretend he'd made the loan, which had to be accounted for somehow, because Fall had used the money to buy a ranch and questions were being asked.

When the deceit leaked out, McLean was afraid it would be made very unpleasant for him on the witness stand before the investigators. So he did his best not to be called. Hints of messages were sent to him, telling him what the prospects were.

The investigators reckon that a man who was willing to try to help Fall out, as McLean tried, must know a lot about the whole case. They're trying to learn from his telegrams just what he did know. They want to know, too.

Senator Hefflin got an idea that two of McLean's telegrams were from President Coolidge. Investigation proved that he was right. The president explained, however, that one of them was about the appointment of a commissioner of the District of Columbia; the other thanked McLean for complimenting a speech he had made. A big splurge has been made because they were from the president, but they don't appear to have much to do with oil.

Some of the oil investigators don't set along very well together. Senators Leamond and Sumner are accused of trying to hush the inquiry up.

Then somebody started the story that Senator Walsh had been corresponding with Doherty. Walsh promptly read the correspondence. It seems he called Doherty's attention to a letter from a man who wanted to

interest some capitalist in Montana oil. Doherty said he would be interested if Walsh would go in, too. Walsh said he couldn't; he was a senator and it wouldn't be right—wouldn't look well, anyway.

It all happened before Doherty's and Fall's names were linked.

Doherty says he won't even lose Elk Hills. He declares the inquiry is "all politics." He admits it's been made to look bad for him. But when the matter gets into court, he expresses all confidence that he'll come out all right. He adds that the government did better on his lease than on a lot of others it's made.

AWAIT FURTHER WORD OF SANTIAGO'S FATE

NEW YORK, March 12.—Ward Line officials today awaited arrival of the Norwegian steamer *Cissy* at Baltimore for details of the loss of their freighter, the *Santiago*, which yesterday was reported sunk 50 miles south of Cape Hatteras, with 24 members of her crew.

No further word of the *Santiago's* fate has been received since the *Cissy's* captain sent a wireless message to the Ward Line offices announcing that he had picked up in a lifeboat 11 men of the vessel's crew of 25. The *Cissy's* captain reported that he had seen no other boats in the vicinity.

CHARGE NOTICE FROM EXPERIMENT STATION

Massachusetts Agricultural college experiment station has notified Middlesex county farmers that in the future, where agricultural activities are primarily commercial in their nature or which rank as service to the individual rather than for the public good, is seems logical to make a reasonable charge for analyses of soils, fertilizers, etc., and also examinations of diseased farm animals. The experiment station had adopted this policy because it believes that only analysis work is performed for the general public good should be done without charge as in the past.

Driscoll farmers, some of whom have trained their sons at Massachusetts "Aggie," have received blue notices from Director Sidney B. Haskett today, announcing the new methods of procedure at the experiment station.

JEWES WILL CELEBRATE FEAST OF PURIM

Lowell Jewish-speaking citizens are to celebrate the feast of Purim in homes and synagogues, March 19 and 20, with the usual programs provided for the annual ceremonies. In many respects, Purim of all the Jewish festivals on the calendar is the least religious in character. The story is told in the Book of Esther. Some Jewish writers have said that when the prophetic and sacred writings of the Jews are forgotten, if ever they are, the Book of Esther will be remembered and the feast of Purim maintained.

Many Jewish communities plan Purim dances and other social events, for solemnity is not to rule the Purim observance programs, except when the first formal rite at the reading of the Book of Esther in the synagogue.

Rabbi Elias Wolfson of the Jewish synagogue (Oshai Sfar) at 143 Howard street, and Jewish synagogue (Sons of Montefiore), 132 Howard street, will conduct the annual services. Services will also be conducted in the usual way and formal ceremony of faith in the Jewish synagogue (Khalos Jacob), at 8 McIntyre street.

In the light of the interpretation,

the festival of Purim is significant. Home, religious school, social clubs, etc., are preparing to observe the feast in accordance with this tradition, in case it happens that no special service be held in the synagogue. In that event, the Sabbath preceding Purim there will be special prayer, and only portions of the Book of Esther will be read.

Local Jewish citizens will for the most part celebrate the Purim feast on Wednesday evening, March 19. For those who adhere to the older traditions, there will be special services of solemnity Thursday morning, March 20.

MEETING POSTPONED

Middlesex County Extension service leaders, who had been prepared to hold an all-day rally in Dracut Congregational church, today, decided to postpone the scheduled meeting until a later date, because of bad travelling conditions that would prevent many county farmers and their wives from attending. No date has been named for the proposed meeting, but announcement will be made in a few days.

SCARFS USEFUL
Scarfs this season are usually adaptable so that they may be worn with a street frock to give warmth and protection and as a part of the frock when inside.

OPERATION RESTORES HOPELESS CRIPPLE

BOSTON, March 12.—After being looked upon as a hopeless cripple, Maltheu Meyers, a patient at the Long Island hospital, is recovering, and will be restored to a measure of usefulness in industry by a feat of orthopedic surgery recently performed upon him by Dr. George K. Carpenter, attached to the staff of the Long Island institution, according to Dr. David J. Johnson, head of the institutions department of the city.

Meyers was suffering from a fractured arm and a fractured leg of long standing and was helpless, being unable to walk or even feed himself. Dr. Carpenter is said to have bored a large hole through the ulna of the broken forearm and to have inserted the end of the humerus or upper bone through it in such a way as to give considerable up and down motion to the arm, and a great deal of freedom so far as twisting motion is concerned.

Into the large bone of Meyers' dislocated leg a V-shaped section cut from his shin bone was inserted. The femur or thigh bone had been broken in the middle, in the same accident, some years ago, in which the man sustained in-

jury to the arm. He was unable to stand or bear any weight on it, but as a result of the operation, it is said he will have full use of it again.

\$100,000,000 CREDIT FOR BANK OF FRANCE

NEW YORK, March 12.—Fortified by the \$100,000,000 credit established here for the Bank of France, the French franc mounted 15 points to 135 cents at the opening of today's foreign exchange market and then scored another 15 points to 144 cents. The rise, following earlier gains in London, was attributed by a rash of short covering.

PARIS, March 12.—The statement of the Bank of France, issued today, showed a total of notes in circulation of 35,325,500,000 francs, a decrease of 324,132,000. This compares with an increase of 221,235,000 francs during the preceding week.

Captain and crew of freighter *Santiago* believed to be lost after ship founders off Cape Hatteras in Tuesday's storm.

SHIP CIRCLES STIRRED BY SEIZURE OF STEAMER

NEW YORK, March 12.—Steamship circles today were stirred by the news of the seizure by customs officials of the Royal Mail line's crack steamer *Orduna*, late yesterday under orders of the treasury department which alleged violation of the customs law, the federal narcotics act and the prohibition law. Operators asserted that in their opinion action of the government in seizing a British ship had raised serious issues.

Oil Scandal Produces Another Presidential Possibility

Copyright, Harris & Ewing

JOSEPH DANIELS

BY N. E. A. SERVICE
RALEIGH, N. C., March 12.—The oil scandal has produced another possibility of a presidential campaign.

For months, Joseph Daniels, former secretary of the navy, has been the subject of much speculation as the possible successor to Woodrow Wilson.

His friends point to his eight years' record in Washington as proof of his fitness.

Won Recognition
He was the only one of Woodrow Wilson's cabinet to come through the oil scandal without a stain.

He became secretary of the navy in 1913, and was frequently ridiculed. What was his record? He had never practiced law, and his experience in politics had been confined to membership of a number of chambers of commerce, national committees and to the direction of publicity in Wilson's 1912 campaign.

But Daniels was secretary of the navy during the World war, and the navy under his leadership covered much with glory. Criticism and libel did not worry him. He had a fleet of destroyers ready to rush to the North sea when war was declared.

And when Daniels emerged from the cabinet he was recognized as an efficient administrator, praised by critics and commended by investigators.

No much for his war record. But the Teapot scandal reveals a new possibility. While he was secretary of the navy he refused to let anybody take the navy's oil.

Even after he was out of office he tried to prevent the transfer of lenses. Two years ago he wrote a letter to Senator La Follette in which he told his personal secretary of the navy he refused to let anybody take the navy's oil.

Opposed Leases
"In my judgment," he told La Follette, "not one acre of the naval reserve should be leased and congress should get a face of him against the present exploitations."

Daniels was born in Washington, N. C., May 18, 1852. At 18 he was editor of the Wilson (N. C.) Advertiser. In 1880 he was made editor of the Raleigh State Chronicle, and in 1894 he consolidated that newspaper with the News and Observer, of which he has been editor ever since.

He was the most accessible man in the cabinet to newspaper men. Always smiling, always ready with an answer to every question. His nature and his appearance made him a ready subject for lampooning. A little, gray man, with crinkly lines in his face and eyes, black string ties and plain gray clothes. No pretensions of dignified air about him.

Defied Court
Daniels is fearless. He showed it when he took the grog out of the navy.

He had criticized Judge Purnell for appointing receivers for the Atlantic and North Carolina railroad. He was adjudged guilty of contempt and fined \$2000. He refused to pay the fine and was arrested. Later he was released from the charges by Circuit Judge Pritchard.

His last day as secretary of the navy Daniels was asked what he was going to do.

"Pack up and take the train for Raleigh," he replied. "In the morning breakfast with Mrs. Daniels and then back to the newspaper office."

"But with your experience, your services ought to be in demand at a big price. You ought to get a hundred thousand-dollar job."

"Maybe," said Daniels, "but I've held up a good many fat contracts from making millions out of our Uncle Sam. These men don't want me, and the folks I know and like best haven't got any hundred-thousand-dollar jobs."

JUMPER SWEATERS
Hand-knitted jumpers and sweaters are in very popular this season and the new wools take into consideration all the latest shades.

NO ALTERNATIVE
Between the long light sleeve and the open armhole that requires no sleeve there is practically no alternative.

Radiographs

RADIO ATTRACTION THIS EVENING

One of the feature attractions "on the air" tonight will be a broadcast of the Moscow Bat troupe's presentation of Baliff's "Chave-Souris" from the state of His Majesty's Theatre, Montreal, Canada, through station CKAC. TELEPHONES ARE STILL OUT OF ORDER

Two hundred and fifty telephone lines in the Lowell district serving 1000 subscribers, put out of commission by Tuesday's storm, are still out of order today, according to Manager C. J. Leathers, but it is expected that all will again be in operation by Saturday at the latest. The telephone repair crews have been working steadily since the cessation of the storm, yesterday and will continue until every subscriber in the district has telephone service again.

BELMONT'S DANCE TONIGHT

Tonight in Highland club hall, a dancing party will be held under the auspices of the Belmonts, and will feature the Belmonts, and will feature the Belmonts, and will feature the Belmonts.

Rheumatism LEAVES YOU FOREVER

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenburh, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenburh has been tried and tested for years and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenburh, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenburh decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. A. W. Davis and Co. can supply you.

"AT 75—NEW LEASE OF LIFE BY INTERNAL BATHS"

Mr. E. Shain of Santa Cruz, Cal., writes to the Tyrrell Hygienic Institute of New York, as follows:
"My wife and I will be 75 years young next birthday, and considering that the 'J. B. L. Cascade' has given us a new lease of life, for we were going down hill fast, but the Cascade has given us such health as we have not enjoyed in years."

The 'J. B. L. Cascade' cleanses the lower intestine its entire length and keeps it always free of poisonous matter.

Thousands testify that Constipation, Indigestion, Stomach Troubles, Biliousness, Headaches and all the many serious troubles which they cause are absolutely relieved and prevented by this Nature Treatment.

We will gladly explain to you the simple operation of the 'J. B. L. Cascade,' why it is so certain in its results, and will give you free of cost, an interesting little book containing the results of the experiences of Dr. Chas. A. Tyrrell of New York, who was a specialist on intestinal complaints for 25 years in that city. Get a free booklet at 61 N. W. 14th St., Green's Drug Store.

Mr. Barholder's Country Club orchestra, with Guy Dunbar, late of R. F. Keith's circuit, and Harry Bannan, formerly with Murphy's dance carnival orchestra at Hampton beach.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating the into natural action, clearing the blood and gently purifying the entire system. They do that which dangerous cathartics do without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two a night for a week and note the effect. 10c and 30c. Adv.

Tasty Zion Fig Bars

The jam used in these bars is made from high grade imported figs with just enough sugar added to give the jam the right sweetness. The dough is light in texture and baked to a golden brown. Anniversary Sale Price, lb. 10 1/2c

84 YEARS AGO

THE TALBOT DYEWOOD AND CHEMICAL COMPANY

38-44 Middle St.

WAS ESTABLISHED

38-44 Middle St.

It was not our intention to do a Retail Business, but as people persuaded the owners to sell them a few pounds of Chemicals, taking same out of the wholesale stock, the news spread and finally it became necessary to open up a retail counter. Business has so increased that we have had to enlarge our retail store, to meet the ever growing demand for our products.

We Cordially Invite You to Attend The

OPENING SALE OF OUR ENLARGED STORE

FRIDAY AND SATURDAY

"THE CHEMICAL STORE"

GETTING READY

Republican women are sharpening their tongues for the coming campaign. Photo shows group at National Women's Republican club, New York City, where trained speakers instruct rookies. On speakers' platform, left to right are: Mrs. Arthur L. Livermore, Mrs. Nettie Shuler, Mrs. Harriet Taylor Upton and Mrs. Rosalie Loew Whitney.

AMUSEMENT NOTES

REALTO THEATRE
"Trifling Women." Rex Ingram's own dramatic photoplay which opens at the Realto theatre today, is a story within a story. In order to point a moral to his pleasure-loving and frivolous daughter, who tempts a devoted lover, her author-father reads to her the manuscript of his new novel, the story of Zerkia, the cynical singer. He recounts the woman's terrible fascination, which leads her to conspiracy against her father and her lover. He tells Zerkia's hold on an old baron, whose son Ivan, too, shares her favors; of the young man's departure to war, of the baron's death at Zerkia's instigation; of Ivan's return and his discovery that she has married a wealthy marquis for his money; and finally of the ill-fate of Ivan and Zerkia, costing them their lives in the tower's tower.

A perfect cast has been assembled by Mr. Ingram to meet the role of the photoplay. Among them are a quartet who appeared in "The Prisoner of Zenda": Lewis Stone, Barbara La Marr, Ramon Novarro, and Edward Connelly. Flawless acting is contributed by Mr. Stone in the role of the wronged marquis; by the beautiful Barbara La Marr, one of the most brilliant of the newer screen celebrities; as Zerkia, by Mr. Novarro, whose portrayal of young Ivan is certain to establish him as a famous leading man; and by Edward Connelly, the veteran character actor, whose impersonation of Ivan's father, the Baron De Marquis, is thoroughly masterly. Other players on the bill include:

TESTING TRAFFIC FOR ROAD BUILDING

Now highways are getting expert attention of traffic experts. For example, this one is undergoing a test by the engineers of the University of Maryland and the U. S. Bureau of Public Roads. It is between Baltimore and Washington. A platform is set into the road, resting on two concrete walls and connected to a recording apparatus by a hose of water. As an auto passes over it, the weight of both front and rear axles are recorded. Thus the engineers keep track of the amount and degree of traffic on the road.

breaks up a thrilling fight by ringing the fire alarm. For her trouble she is horse-whipped and then her lover rescues her, and of course the culmination is marriage and future happiness. The story has all of the pleasing elements of a high class photoplay. Don't miss seeing it.

MERRIMACK SQUARE
The dramatic world of the screen in a story of the bright lights.
"That in a few words, sums up "Broadway Gold." Elaine Hammerstein is able supported by such stars as Kathryn Williams, Elliot Dexter, Richard Wayne and Harold Goodwin. Miss Hammerstein plays the leading role of a young chorus girl thrown into the swift-moving and dangerous life of Broadway in her struggle for fame and fortune. In short, the production is a glittering romance of the great White Way.

Other attractions include: Fred Thompson in "North of Nevada," a comedy, "Up in the Air," the latest Boston Post prize reel, "The Story of Trade-A-Milk," and the most recent International News Weekly.

CYCLIC VS. AYER
The fast Ayer Town team will play the CYCLIC basketball quintet tomorrow night in the Lyceum gym on Suffolk street. This should be one of the best games of the season owing to the classy playing of both teams and the keen rivalry between Thursday night the CYCLIC went to Ayer and lost by three points, 31 to 28. According to the Ayer people, it was the best game played there this season because of the fast team work and the clean sportsmanship. The lineup for the Ayer team will be: Downey, Pihlman, Westworth, Fowler and Waldron. The lineup for the CYCLIC team will be: Connor, Hodge, McGuinness, Aske, Randall, O'Brien and Keefe.

SEEKING DENIS SULLIVAN
Information concerning the present whereabouts of Denis Sullivan, who formerly maintained a hair-dressing salon, presumably in this city, is sought through the postmaster by John R. Sullivan of 15 E. George street, Low Valley, Iowa. Sullivan, formerly a hair-dressing salon in this city, will gladly be received by the postmaster who will in turn forward it to said John R. Sullivan in Yorkville, England.

CALLED "WITTIEST MAN IN AMERICA"

Neal O'Hara, who comes to Lowell on March 21 under the auspices of Lowell post, American Legion, has been called "the witliest man in America." His lecturing is being received with greater popular acclaim than his newspaper articles. James P. Conway, chairman of the Legion committee, which is in charge of the affair, is a personal friend of Mr. O'Hara, having roomed with him for four years at Harvard. Tickets for the O'Hara lecture are on sale at Dickerman & McDermott's, bookers, and grocery.

KILLING OF HEATON KING HUSSEIN CALIPH OF ALL THE MOSLEMS

Said to Have Been Involved in Other Attacks Similar to That on Gates
LONDON, March 12.—The proclamation of King Hussein of the Hejaz, as caliph of all the Moslems took place on Tuesday, at Shush, Trans Jordan and is described by the Daily Express correspondent as impressive.
A great Palestinian delegation composed of Mufit, Cadis, Viennas, shells and other notable took part, all the Arab parties of Palestine combining in order to demonstrate to the world their unity. Seria also was represented.
Abdul Medjid, whom the Turks recently deposed as caliph, telegraphed his congratulations to Hussein in the name of the whole Turkish royal family.

CANNOT TELL ALL IT DID FOR ME, HE SAYS

Bad Stomach, Kidneys and Liver Put in Good Shape—Feels Stronger, Credit Due Drego

Mr. Ezra A. Billings of Wingham, near Lowell, Mass., says:
"My kidneys were the source of a lot of pain and trouble. I couldn't move without terrible pains shooting across the small of my back. I couldn't sleep for having to get up so many times during the night. My complexion was sallow. My blood seemed weak and thin. I looked rundown and worn out. And felt just like I looked. My liver was sluggish. And the poison of constipation backed up through my system, sapping it of its strength and poising the way for suffering. I had dizzy spells, when I would not and have to grab on to something to keep from falling. My nerves were in such a bad state that I couldn't stand any noise. I could not sit still a minute without jerking around. All the medicines that I tried failed to do me a bit of good. Then I started taking Drego. Soon I noticed an improvement in my condition. This wonderful remedy put me in good shape. I feel fine, sleep soundly, getting up in the morning ready for anything the day might hold. My system, freed from constipation, is clean, healthy and strong. I have no more of those terrible dizzy spells. And I don't know what I have done, they are in such good condition."

"I want everyone to know how Drego has helped me in the hopes that other men and women suffering as I did will benefit by my wonderful experience with this medicine."

Drego is made from the pure, unadulterated juices of 12 remarkable plants, roots, barks and leaves. Scientifically blended by the David H. Fulton Co., Laboratories of Baltimore, they act directly on the stomach, liver, kidneys, bowels and blood, and tend to relieve constipation, headaches, rheumatism, catarrh, bilious, dizzy spells, heart fluttering, gas on stomach, and other troubles.

Drego is being specially introduced by Green's Drug Store and sold by druggists everywhere—Adv.

INQUIRY TO DETERMINE NAMES OF ACCUSED MEN

WASHINGTON, March 12.—Inquiry to determine officially the names of the two representatives mentioned in a Chicago grand jury report and the nature of the charges against them, is to be started immediately by a special house committee.

The committee was appointed late yesterday under a resolution by Rep. Garrett, the democratic leader, which reversed the vote of the house Tuesday to have the investigation of the matter for ten present in the hands of the department of justice.

Seville is 10,000 square miles in area.

WOMAN WEAK DIZZY, FAINT

Found Relief in Taking Lydia E. Pinkham's Vegetable Compound. Always Recommends It.

Bridgeport, Connecticut.—"I was completely run-down, had headaches, dizzy, faint feelings and other troubles women often have. As I had taken Lydia E. Pinkham's Vegetable Compound before, my husband said to take it again. I have now taken Lydia E. Pinkham's Blood Purifier, Pills, and six boxes of Lydia E. Pinkham's Vegetable Compound Tablets. I am feeling very good now and shall continue taking them for a while. I have been telling my cousin about the medicine and she wants to take it, too. I always recommend it."—Mrs. HENRY C. SMITH, R. F. D. No. 3, Box 6, Bridgeport, Conn.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved these symptoms by removing the cause of them. Mrs. Smith's experience is but one of many.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 121,000 replies were received, and 98 per cent. reported they were benefited by its use. For sale by druggists everywhere.

AULD LANG SYNE

Should auld acquaintance be forgot,
And never brought to min?
Should auld acquaintance be forgot
And days o' auld lang syne?

For auld lang syne, my dear,
For auld lang syne,
We'll take a cup o' kindness yet,
For auld lang syne.

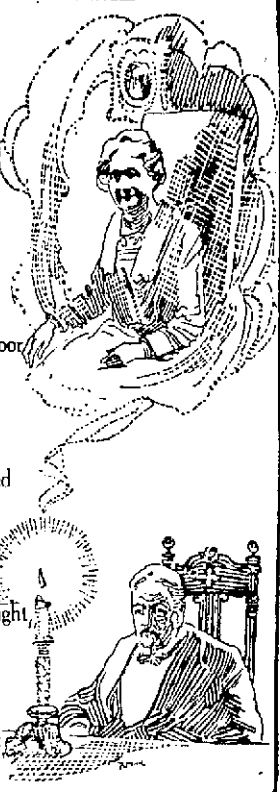

We twa hae run about the braes
And pu'd the gowans fine;
But we've wander'd many a weary foot,
Sin' auld lang syne.

We twa hae paddl'd i' the burn
From morning sun till dine;
But seas between us braid hae roar'd
Sin' auld lang syne.

And here's a hand, my trusty fere,
And gie's a hand o' thine,
And we'll tak a right gude willie-waught
For auld lang syne.

And surely ye'll be your pint-stoup
And surely I'll be mine;
And we'll tak a cup o' kindness yet,
For auld lang syne.

—Robert Burns.

Are You a Tired Out Housewife?

Many people do not realize that the most exhausting of all work is housework and the care of children. Many a woman who should be in the prime of life finds her strength gone, her nerves unstrung and is weak, worn out and run down with pale, thin, watery blood from the strain of housework.

In such cases, what you need is something to put more iron into your blood. Nuxated Iron contains iron like the iron in spinach, lentils and apples, and like the iron in your blood. You will be astonished at how much better you feel often in even a few days.

Try taking Nuxated Iron for two weeks, and you will see color come back to your lips and cheeks, you will not be so easily upset by trifles, and best of all, you will find that you have new strength and energy and endurance for your daily tasks. At all good druggists.

OUT OUR WAY

MAJOR CHEEVERS HAS A LOT
TO LEARN ABOUT THE
PERSONNEL OF TROOP L.

FOREIGN WAR VETERANS
SEEK NEW QUARTERS

Members of Walker-Rogers Post No. 582, V. of F. W., are endeavoring to secure better quarters for meeting purposes. Memorial hall has been under consideration. When quarters are secured no regular meetings can be held. A stated interval without interruption, furnishings will be installed, with rack for rifles, desks, closets, color cabinets, etc. The latter are now being prepared for placement when the new post quarters are opened.

Junior Vice Commander John Shea reports the purchase of coffee mugs for veterans' party rally night festival.

The membership committee reports one new member enrolled. Enlistments have been coming in regularly, small numbers at a time. The campaign committee is doing a lot of work speaking new members in this vicinity. Commander Caddell is anxious to make the Lowell post a leader in V. of F. W. activities in Massachusetts. Postal cards have been distributed to members, asking them to send in the names of eligible men for membership in the Lowell organization.

The V. of F. W. national legislative committee has formally presented its suggestions covering a complete program of relief for disabled World War veterans, and the problem is now being taken up for solution, by the solons at Washington.

Ladies' auxiliary of Walker-Rogers post, reports large sales of tickets for their annual "Leap Year" party and dance, to be held in Highland hall, March 17.

Commander John H. Dunn of the state department, V. of F. W., has urged Lowell members to take an active part in the approaching new membership campaign. He wants to double the present state membership, if possible, and Walker-Rogers post members have promised to do their part.

WILLIAM A. MITCHELL
GOES TO TEXAS

William A. Mitchell, former agent of the Massachusetts cotton mill, has gone to Houston, Texas, to assist in the supervision of the erection of a new textile plant there, of which he later will be part owner and general manager.

A little more than a year ago Mr. Mitchell left the Massachusetts mill and went to China, where it was believed American interests would erect a big mill, but upon an adverse report he returned to this country and since then has been in Lowell most of the time.

As announced in this paper yesterday, the Mitchell residence in Mansur street has been purchased by Ames Stevens.

LAMBERT WINS BOY
SCOUT MERIT BADGE

Winning his 21st Boy Scout merit badge, John H. Lambert, Jr., the son of Dr. John H. Lambert of Wampanoet street, has attained the rating of eagle scout and the distinction of being the only Lowell youth to reach that far in scoutdom. He has been a scout for six years and within a few days attains his 18th birthday. This birthday will carry him from the ranks of the Boy Scouts but he leaves a record worthy of emulation.

Edwin J. Mellon, scout executive here, is believed to be the only other local resident ever to attain the rank of eagle scout and he won his laurels elsewhere.

LOWELL EAGLES
VISIT LAWRENCE

A delegation of more than 60 members of Lowell Aerie of Eagles last night attended a banquet being conducted by Lawrence Aerie in the Winter Garden in the downtown city. The Lowell delegation left this city early in the evening in a special car and were the guests of Lawrence Aerie for several hours. Worthy President Thomas F. Quinn was in charge of the Lowell party.

DETACHABLE COLLARS

The faucet dishwasher which consists of a bath of tubine and a spraying nozzle and soap container is one of the most practical helps in dish washing that has yet been devised.

A dose at bedtime of
DR. CALDWELL'S
SYRUP PEPSIN
Made them feel jolly again

Good Health In Happy Old Age

THE chief concern of elderly people is their health, and that is best assured by regular daily bowel movement. There is no truth, however, in the notion that because you are old you need a "strong physic." In fact, just because you are old a mild laxative is better for you. The trouble with purges and cathartics and physics is that they shock the system and weaken it, and make the muscles of digestion flabby. Dr. G. H. Brown, V. S., of Frederic, Wis., nearly wrecked his stomach with purgatives. Dr. Caldwell's Syrup Pepsin restored his health, as it did Mrs. J. S. Etheridge's, of Milledgeville, Ga.

Does Not Gripe

You can be sure of satisfactory evacuations every day if you will take a spoonful of Syrup Pepsin at night when you retire. You will not need to take it very long as a few doses will soon encourage the bowels to act for themselves. The popularity of this wonderful remedy has become so great that it is now the

largest-selling liquid laxative in the world. Because of its mildness and freedom from griping it is especially ideal for the extremes of ages, for children and for elderly people.

Effective at Small Cost

Get a bottle of Dr. Caldwell's Syrup Pepsin at any drug store. The formula is on the package, and the cost less than a cent a dose. Take it when you feel heavy, sleep poorly, have headache or night cramps, for these are also symptoms of constipation. Give it to the children when they are restless, feverish or have a cold. Syrup Pepsin will keep you and the family free from constipation, a condition that lowers the vitality 25 per cent and raises the blood pressure 28 per cent. Freedom from constipation lessens the pain of kidney trouble, neuritis and rheumatism.

"Syrup Pepsin," 517 Washington St., Monticello, Illinois.

I need a good laxative and would like to know what you say about Dr. Caldwell's Syrup Pepsin by actual test. Send me a free trial bottle. Address to

WHY NOT ANNEXATION

And now an adverse report is made on the annexation bill of Rep. Achin, on what grounds we know not. Is the legislature opposed to the expansion of cities outside Boston? Possibly the people of Lowell can give these alleged solons a demonstration of public sentiment on the matter by a popular vote on the question. It may be that the committee on cities is as firmly bound to the status quo as are some of the country towns that have chafed but little since revolutionary days. Lowell needs room for expansion. So does Lawrence and other cities similarly situated. The cities as constructed before the days of the auto and the airplane are too congested. They must expand or be reconstructed. Why not utilize part of the vacant land outside their borders in the adjoining townships in the expansion process? Is it because the legislature says they mustn't?

There is no law to prevent a discussion of the question of annexation between citizens of Lowell and residents of the adjoining towns. Neither is there any law to prevent submission of the issue to the voters, although some members of the legislature might feel disposed to place such a barrier in the path of municipal progress.

TO DREDGE THE CONCORD

That news from the state house to the effect that \$2000 is to be appropriated for dredging the lower Concord river, will please a great many Lowell residents who have found the Concord a source of annoyance in her weather. This report has been made by the Ways and Means committee on the petition of Rep. Brennan. It is hoped the bill will pass and that the work will be done when the water is low next summer. Although the amount named may hardly be sufficient, it will get the work well started and will probably insure its completion as a necessary step for the protection of the public health.

THE TEXTILE OUTLOOK

Although the textile industries of Fall River suffer probably more from southern competition than those of most other mill cities in New England, and although the factories there have been running only a little over 25 per cent of their capacity for the past several months, many of the operatives from the larger city that must be reassigned to the mill workers of other New England cities.

It is estimated that a number of the mills of Fall River are changing their managers so as to turn out finer fabrics than they have been manufacturing. It is also true that some of them are putting in automatic looms which constitute a feature of good southern mills.

It is estimated that an operator in the mills of Fall River can produce more than twice as much as in the mills of other cities. Where the looms are to be turned out, the automatic looms will not serve the purpose. The encouraging thing in the situation is that the mill men of Fall River are not talking of moving south and are not whining over restrictions as to hours of labor, but are simply fortifying against their competitors and preparing to hold their place near the head of the procession. That is the way to fight competition from any source, and it is the policy that will command respect and approval from the public in general, and particularly from the mill workers. It is generally conceded that by advancing to finer fabrics the New England mills can defy competition from the south or the west; and that the textile manufacturers are determined to adopt this method is quite encouraging. Another note of interest to textile workers hereabouts is that the depression now felt by the textile industry of New England, has reached the southern mills also, and that as a result their competition is not likely to be as formidable for some months as it has been in the past. However, the south is too far from New England for such a reason, and with better working conditions and prompt payment, it is possible that the south will be able to compete with the New England level. That will put an end to this honey of southern competition.

SENATOR MOSES BEATEN
Soon after President Coolidge was elected to the White House, Senator Moses of New Hampshire was so enthusiastic in support of his candidacy that he promised to get a solid congressional delegation from New England. Something happened, however, which caused Mr. Moses to change his mind and even to wish to go to the convention as an unpledged delegate from his own state. New Hampshire has held its election of delegates to the Cleveland convention and they are solidly pledged to Coolidge, but Moses is not likely to be as formidable for some months as it has been in the past. However, the south is too far from New England for such a reason, and with better working conditions and prompt payment, it is possible that the south will be able to compete with the New England level. That will put an end to this honey of southern competition.

TUBERCULOSIS
Tuberculosis costs the United States \$200 million dollars a year, according to the Anti-Tuberculosis League. It arrives at this figure by estimating that each year of the average person's life is worth \$100 in the form of national wealth. Thus a person who dies five years prematurely means a loss of \$500 to national wealth.

NEW ENGLAND'S PART
Presumably a good many visitors to the Boston Automobile show this week, and Lowell is always well represented there, will carry away the impression that the automobile industry belongs definitely to the middle west. It is true, of course, that the immense production of motor vehicles centers about the mid-west, but it is also true that New England is a most important factor in this great industry as the leader of all in value of manufactured products.

PRICES STRONG
Frank R. View is authority for the statement that wholesale prices continue strong, which indicates that the purchasers and sellers alike have confidence in the business outlook. At the present time, commodity prices are almost exactly the same as last October. They are, however, 60 per cent above the prices that prevailed before the war, and it is doubtful if the present level will again be reached, at least for a great many years.

SENATOR LORRIS RESIGNS
Senator Lorriss resigns from the committee which is investigating the scandal, probably feeling that his position as inquirer might eventually injure his political standing with the republican party. It is to be hoped that Senator Ladd, who has taken his place, will show the courage necessary for the performance of such a responsible duty.

In hearing the present snow storm the men of the street department had the hardest battle of the winter. They did good work in keeping the streets and sidewalks in passable condition. The motor snowplows again proved their worth in driving back the downy layer of wet snow.

No safety campaign will accomplish much unless it reaches every home in the city with an appeal for greater caution in the prevention of accidents.

Spring will be with us as a week hence, and then, too, will come better weather and better business.

There are but few parts of the completed automobile into which New England craftsmanship does not enter. There are the factories in this part of the country that produce high quality examples of the necessary mechanical attributes. Wheels, springs, axles, cloth, the fenders, leather, hardware, lighting and starting equipment, radiators, spark plugs, pistons, valves, window shades and ometers, and a number of other important and necessary accessories and parts are contributed by plants here in New England.

It is a wonder that the motor vehicle industry has many good reasons for looking with admiration upon New England? As President J. H. McMillan, of the Boston Automobile Dealers' association, says in a commendatory interview:—

"New England is not only recognized as one of the best retail centers in the country, but it can furnish many essential things of the highest quality that go into the make-

SEEN AND HEARD

A man who uses his head will never get over it in debt.

Only thing in the way as much as a dream is a man who is as tight as a drum.

Chinese general implied 1100 soldiers to celebrate his wedding. The soldiers hope he never gets a divorce.

A Thought
It is in vain to gather virtues without humility; for the spirit of God delighteth to dwell in the hearts of the humble.—Barnes.

Santa Made Good
Mother, Santa Claus kissed me last night. "Don't be silly, dear," he said. "I did, mother; he kissed me and said, 'Go to sleep, like a good little girl, while I get your mother's things out of her chest and make her sure enough, the things were gone.'—Brooklyn Eagle.

Taking No Chances
"There's a gentleman to see you, ma'am," said the new maid. "You haven't left him yet, have you?" asked the mistress. "No, yes, no, ma'am. He's waiting outside on the steps, all right. I took good care to shut the door, too, before I came to tell you."

Money Isn't Everything
"Money can buy all the luxury and comfort there is in traveling, but it can't buy appreciation of things seen," once remarked Mr. Gilbert Stuart, the famous American artist. "For instance," he went on, "a millionaire spent a month in Italy. 'What is it?' he asked his wife on his return. 'Why, like a host of course,' he answered contentedly. 'Didn't you never study geography?'"

Silver Lining
"Hiram, don't you feel disgraced to think your son has to spend 10 days in jail for his reckless driving?" asked his mother. "Not a bit," replied Hiram. "I'm only glad to get out of the jail and go to bed and not have to stay awake wondering if the young fool is out somewhere trying to buck a train of the track or trying to teach his car to climb a telephone pole or hurtle all the ditches in the county. And for 10 days and 10 nights, now I won't be afraid to answer the phone. I wish it was there for a year."—Cincinnati Enquirer.

For Comfort's Sake
A minister in a small Scottish town noted the reaction of one particular member of his flock in his attendance at the Kirk. Meeting him one day, he thought it his duty to commend him for his good example and commend his appreciation. "I am delighted," he said, "to see one of my parishioners take such an interest in the Kirk, and I wish to thank you personally for being so regular in your pew. I trust you are enjoying spiritual comfort from my ministrations." "It's not that," replied the surprised devotee. "I'm the father of a big family, and there's a side a severe on the Sabbath morning that I had to get out of the house. When I get into my pew, I feel like to fold my arms, shut my eyes, and think about—nothing!"

Difficult Question
Miss Fortie was a stickler for discipline and she had a great deal to say to the pupils of her class attend regularly and punctually. "Henry," she said sternly to one of her little charges, "you must be here on time every day." "I have a good excuse from your father, saying why you were not here yesterday?" "No, Miss Fortie," was the reply. "Then you will be here on time every day." "I had to go to the dentist with a toothache," replied the child. "Well, that's too bad," said the teacher, in tones that were hardly sympathetic. "Then it will still hurt, I don't know," said the child. "You don't know, Henry, are you trying to do some more? How is it with you now?" "Please, Miss Fortie," came the answer in shaky tones. "The dentist kept it!"

March
The rustle of rain as it stilled the end of it sinks to the sources of springs. The whine of the wind where the mad-dance goes on. And the like of showers with wings. The whisper that comes from the silence of the night when we wake. The risen on the march from the eastward march. And the stir on the half-frozen lake. The fishermen of the coming of life. To the earth that has summered so long. The falling of winter with cheerless feet. The return of the birds and their song. By that thing and this—by the south and the north's kiss. And the stirring that follows, we know. That March-time is here and is here—alike cheer and envious blow. While the tulips and crocuses blow. We have thought of old March as the knave of the place. He is pictured as frolic and cross. But I've found him the time when the winter-winds cease. And nobody knows what he does. And as often as not he provides a lot. Of days that are sunny and sweet. So away with our fear when old March-time is near. Tie a friend, not a foe, that we greet. —Strickland Gillilan in Farin Life.

MISCELLANEOUS SHOWER
A miscellaneous shower was tendered Miss Celina Lalline, a well known school teacher and member of this city by members of the Avernus class of the Catholic church school Tuesday evening. The shower was held at the home of Miss Lalline, which was presided over by Mrs. Norman R. Farmon, president. About 25 young women attended the affair despite the blizzard which was raging and Miss Lalline was the recipient of many gifts. A buffet supper was served by Miss Lalline, assisted by Mrs. Julia Eldridge, Mrs. Ruth Phinney, Mrs. Blanche Roper, Miss Emma Bowen and Miss Carrie Stewart.

THE MAN ABOUT TOWN

Lowell Normal school students, under the direction of Miss Ruth Bailey, have gone in strong for athletics, and for the first time in the history of the institution, an athletic team will engage in competition with an outside school when the varsity basketball team goes to Pittsburgh next Friday to play Pittsburgh Normal. Students at the Lowell school this year are enthusiastically interested in sports and have provided some spirited contests in their gymnasium this season. Miss Bailey, the physical instructor, is a former basketball star and all-around athlete and looks forward to seeing her girls come through victorious against Pittsburgh Friday.

Several thousand persons stood in amazement at the fire in the old Creamery plant in Hampshire street Monday night when Fireman William J. Graham of Ladder 1 braved the flames of the burning structure to cut electric wires on more than one occasion he seemed to be enveloped in the flames and the most timid of the spectators were heard to gasp when a portion of the building near the ladder caved in. Yet Graham stuck to it and completed his heroic task. Pity that there is no provision in the department calling for public commendations, such as the custom now existing in the police department.

Over in Centralville, a group of 150 young men have formed an organization to be incorporated as the Centralville Fast End club. Judging by the way the rooms in Bridge street have been renovated and the increasing interest in the many activities of the club, this section of the city is bound to be heard from socially in the future. The membership list contains the names of several prominent figures in all walks of life, legislative, municipal, professional and business.

President John Holt has the unanimous backing of the entire membership in making the organization a power in the community. Just at present the officers are engaged in making plans for the installation of a complete and up-to-date radio set which will be one of the best, not only in Lowell, but in the state. "Watch us grow," they tell me, "is the motto of the club. We will wait!"

I have heard many complimentary remarks, by the way, concerning the two police officers, John Ganley and John Kelley, who have charge of law and order across the bridge during the day time. They are always on the job, according to reports, and get along nicely with the citizens.

Both are congenial and obliging and a credit to the police department.

While it lasted, Tuesday's snow storm was the worst of the year. The flakes came down fast and thick, making walking very bad for pedestrians and increasing hazards for the chauffeur. Surprising, that there were not any serious accidents, as the downfall was hindering through it all, however, the optimist smiled to himself and found consolation in the thought that spring is only nine days away.

There wasn't much chance for gawds around the police station yesterday. Practically every officer I saw was busy thinking about the examination in the high school yesterday afternoon. About 20 patrolmen took the test, I understand.

They had to catch up another hole in Centralville last week. The men were there with the implements—horse, wagon, red flags, iron picks, shovels, priors, brooms and a quantity of the usual covering for the regular patching process schedule. Whenever you see a red flag on Central bridge—well, you see 'em pretty often as the "holes" are reported to the state department—don't be alarmed. Centralville citizens don't see red flags any more, at least they don't scare bridge-crossers now.

The vice dean of the Pennsylvania college agricultural school does a lot of advice to youth about to enter the occupations of farming. "Your wife will love you better if you shave twice a week, Wednesday and Saturdays," the teacher told his pupils, who average about 20 years of age.

The dean forgets that a few years back we had a war in which the flower of American manhood was taught to shave every morning, regardless of how adverse conditions might be. Perhaps he will be kind enough to explain how the bi-weekly shave is going to cut much of a caper with the huxton lass who has a brother or two at home that still remembers his wartime lesson. It's not a remarkable farmer that cuts only two crops of whiskers a week. Does the dean really believe that Beuben will get as much of a going over when the radio is going "ting tangle tangle" while entrenched behind two days' crop of beard as he would if he felt seriously fired to step up to the stage door if the radio could only in some way bring the reality nearer home?

DR. HOWARD ALWAYS RECOMMENDED
OXIDAZE
FOR COUGHS, COLDS
Bronchial Asthma
Years of study and observation convinced him it would safely, quickly and surely stop a bad cough and give instant relief in Bronchial Asthma, Croup and Whooping Cough.

Here is absolute proof from scores. Waterbury, Ct.—No asthma thanks to Oxidaze. Salem, W. Va.—We find it all you claim. Frederick, Md.—Am well pleased with results. Greenville, S. C.—Here I get relief from everything. Somerset, Mass.—It gives full satisfaction. Detroit, Mich.—It has benefited me greatly. Kansas City, Mo.—I speak in highest praise of it. Benton, Ark.—I not nearly instant relief. Lowell, Mass.—Fascinating, nothing I've found. Cincinnati, O.—It is a wonderful medicine. Smiths River, N. Y.—Delighted with Oxidaze. Rockledge, Mass.—Cough gone, gained eight lbs. Signed letters on Oxidaze. Order today.

Money back if it fails. All druggists, including Green's drug store and Apertina.

Help Your Doctor
That prescriptions are a specialty with us is substantiated by the fact that we have a corps of four Registered Pharmacists.

This and our large volume of business permits frequent renewal of drug stocks, ensuring freshness and effective medication.

Tom Sims Says

Chewing gum costs America \$50,000,000 annually, which is a lot of money to stick under tables and chairs.

Leap year makes many leap to conclusions.

Every barber thinks every man's head needs washing.

Mayor of an Arkansas town had his pay cut to \$25 a year, but his wife still gets to boast he is mayor.

Germany has developed a new poison gas. Every nation is seeking new poison gas. But the most poisonous gas is propaganda.

When system and good luck meet system wins.

France and England are beginning to agree that they shouldn't disagree.

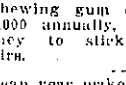

A senator leads a hard life these days. He never knows if a detective is protecting him or shadowing him.

You can hardly tell whether a friendly stranger is selling something or running for office.

Working too much will get you the same as loafing too much. Germans don't care about how important you are.

A scientist has a formula for synthetic gasoline. His way works, but those being used by filling stations don't.

Your Health

Dr. C.C. Robinson
HEREDITY AND HEALTH
The influence of heredity upon a person's nervous and mental makeup is often very marked, but in many cases such traits or characteristic habits do not show.

We come into the world, each one a being of limited capacity, but in other respects free to become what circumstances of education and environment makes us.

We are responsible to the extent of our powers of capability. To us, in have and to do these things which place their stamp on us for good or ill, according to our personal growth and activity.

Brain, heart and hand depend more upon the healthy functional activity of these organisms, than upon some far off influence called heredity.

One can do more to develop and gain physical perfection by well directed diet and exercise than by rather half-heartedly claiming heredity shapes our ends.

The growth of mental and physical activity in all tissues of the body, even to that of the most insignificant seeming gland, depends not so much on heredity as our own will and desire to get and place the bodily functions under perfect control.

Healthy life for work and true happiness is the paramount issue.

On the point where his grade by careful attention to the hygiene of health and bodily condition. Using the equation of health and paying every possible attention to the laws of best mental and physical development will account for a most striking contrast to what has usually been fatally pessimistic views on this subject.

Modern intelligence agrees that health will shape and develop the individual more than heredity.

—E.S. WINT, neurologist

FORMER DRY SLEUTH TO BE RELEASED

Edward Bogan, former dry sleuth, farred well before the governor's council yesterday. It being voted to recommend his release from state prison where he is serving a term for killing an 18-year-old youth. Counselor Curran has been voted against the commutation of sentence, which makes Bogan eligible for release. Walter H. Sullivan, chief of the federal dry sleuths of this section, was active in securing Bogan's release in a petition for the release of Bogan.

BERTON BRALEY'S DAILY POEM

MILL FODDER
(More than a million children between 8 and 16 are employed in American industry.)
A million weary children who labor all the day,
A million weary children with scanty chance to pay,
In fields and mines and factories throughout this wealthy land
The labor of these little folks is ever in demand,
Oh, we're "enlightened people" and all that—huh still
A million children labor in mine and field and mill.

Long, long before the schoolbell rings their toiling has begun,
And when the "gong" is home from school and study hours are done
And it is time for joyous sport in God's good open air,
A million weary children can take no pleasure there,
They're bent above their daily task "acquiring craft and skill,"
A million weary children in field and mine and mill.

On backs too frail for burdens the load of toil is laid,
And hands that should be light and free are fettered to a trade;
Lips meant for carefree whistling are set in weary lines,
And there's an everlasting ache in tired childish spines,
And all-too-tired eyes of youth are watching stamp and drill,
A million weary children in shop and mine and mill!

Our trade may grow and prosper, expanding on and on,
But while a million children are stunted, pale and wan,
While business waxes fatter on laborers like these,
No decent human conscience can wholly be at ease.
It is a monstrous evil, excuse it how we will—
A million weary children in mine and field and mill!

(Copyright 1924, The Lowell Sun.)

WHERE CANADIAN LAWS ARE MADE

This is an excellent view of the Canadian Federal house of commons, Ottawa, Canada. The legislators now are in session.

1 per cent for 20 years. The maximum amounts of the policies, under this scheme, would total \$1400 for veterans who served full time in the United States, and \$1000 for those who spent the maximum time overseas.

Cost of the bonus under the bill's plan was estimated at approximately \$2,000,000,000 with \$50,000,000 the maximum expenditure in any one year. Dependents of veterans who have died since the war will be able to receive payments on the basis of \$1 a day for home, and \$1.25 a day for overseas service. These payments would be made in 10 annual installments on the measure before nightfall, and he said would seek to bring it before the house for a vote Monday.

The insurance policies provided for in the bill are based on \$1 for each day of home service and \$1.25 for overseas service, plus 25 per cent of this total and interest compounded at 4 per cent back into their cost.

PUT FINISHING TOUCHES ON BONUS BILL

REMARKABLE OFFER

You remember at this time last year, we gave the public a chance to save money by purchasing a 22-inch boiler for \$130 when the price later on was \$150.

Our price today is \$130 and will hold until August 1st only, for future delivery, but—

Here is our offer for the two weeks of March 3rd to March 16th for cash with order.

SAFETY WEEK CAMPAIGN

Small Attendance at Opening
Rally Held Last Night in
Liberty Hall

Uncertain weather and rather deplorable traveling conditions were doubtless responsible last night for a very slim attendance of Lowell citizens previously summoned to appear at a rally conducted under the auspices of the Lowell Safety Week committee in Liberty Hall, Memorial Auditorium.

Twenty-two persons, including two public-spirited women, participated in a general discussion of safety first and safe roads programs of modern delineation. All agreed that Lowell should take the forward step and actively prove its desire to spread the cause of life-saving, yet so far as immediate organization of a local program is concerned, it was plainly in evidence last evening that until a larger number of both well-wishers and active supporters of the safe roads movement can be gathered together in conference, little real progress toward an elaborate observance of "Safety Week" in May, as proposed, can be made.

Lewis E. MacBrayne, general manager of the Massachusetts Safety Council, with which is affiliated the Safe Roads Federation, local safety councils and co-operating women's organizations, with headquarters at No. 5 Beacon street, Boston, presided at last night's meeting, eager to explain the latest programs of leading sponsors of the safer roads movement, but plainly disappointed at the apparent lack of support as exhibited by last night's small attendance of Lowell citizens.

Secretary-Manager George F. Wells, of the chamber of commerce, who has given a great deal of his time and energy to enlist representative Lowell citizens and various social, civic, business and charitable organizations in the program for real co-operation in the plans formulated for a safety week campaign in Lowell, opened the meeting.

He explained the vital purposes of the call and reviewed the efforts that have been made to arouse public interest in a substantial campaign that would put Lowell on a plane with other large New England cities and towns. Extraordinary good work has been done outside of Lowell in preserving human life by not only regulating traffic, but keeping the public better informed of the dangerous hazards that are to be met with today on all traffic highways where automobiles are operated.

Among the few but earnest believers in a vigorous safe roads campaign in Lowell, provided such a campaign shall first receive solid support from representatives of every walk of life, and who were present last evening to participate in the rally, were Chief Edward F. Saunders, of the Lowell fire department; Chief Thomas R. Atkinson, of the police department; Major Walter R. Joyce, of the Lowell Boys' Club; Councilors Maurice Lambert and John W. Daly, and Manager C. J. Leathers of the N. E. T. & T. Co.

The speaker list contained the names of Ralph A. Hight of Somerville, who has driven an automobile for several automobiles, more than 600,000 miles during the last 20 years and without a breath of an accident, which appears to be a record.

By a curious whim of fate, another anticipated speaker lost out on his intended trip from Boston to Lowell and he was compelled to send regrets via Mr. MacBrayne.

It appears that Gen. Alfred P. Foote essayed to pilot his motor car late yesterday afternoon through Boston town in the March storm aftermath, but met with disaster when he collided with another street vehicle, damaging his car so badly that it had to be towed back to the Hub, thus canceling the general's Lowell trip for the time being. He is to come to Lowell and address the next meeting of the Lowell Safety Week committee, however, if another meeting is held.

Mr. Foote is state commissioner of public safety and had an interesting message to deliver in Lowell last evening.

Mr. MacBrayne, opening the public meeting in Liberty hall, confessed that he had hoped to see more Lowell citizens present, but realized that weather conditions were quite abominable and such reasons for absences were quite acceptable.

The safety council manager described the lecture courses that are now being given under council auspices in various cities, such as Boston, Franklin, Salem and Milton. A motor vehicle drivers' course is also being extended to many chauffeurs and would-be chauffeurs under the joint auspices of the Safe Roads Federation and the Boston V.M.C.A.

The council representative declared that he sincerely hoped last night's meeting was not an indication that the local safety week's committee plans will not be carried out. He advised, nevertheless, that no formal plans for a city-wide campaign be attempted until complete co-operation of all interested citizens can be definitely secured.

Secretary-Manager Wells, who spoke briefly after Mr. MacBrayne had presented startling statistics covering both fatal and serious-injury accidents on Massachusetts highway in past months, approved of the MacBrayne suggestion—that no formal action for the coming proposed "Safety Week" campaign be instituted until a meeting has been held with larger attendance, in order that the views of those not present last evening may be secured and weighed in the formative analysis.

Mr. Hight told the story of the birth of the automobile, compared today's motor vehicle with the curious models of 20 years ago and traced their past development, of their progress, ingenious machinery and power equipments. Speaking of the early days in automobile history, Mr. Hight continued:

"Accidents twenty years ago were practically unknown because the cars could not be driven fast. The roads were also poor, and the nervousness of the auto put the fear of them into both children and adults. The cars of that period were so complicated that the operator could do nothing else but keep his attention upon the car and the road. Today the thousands of motor cars upon our highways are a part of our daily life.

The driver of today is too confident. He seems to feel that his responsibility ends when he passes the gate examiner. The law says, for example, that at an intersection the car on the right has the right of way. How many times have you seen cars racing to beat the other fellow to this point of intersection?"

"How many times have you blown your horn at the crossing without lowering your speed, expecting that the other fellow would stop? How many of us, right here tonight, in approaching a railroad crossing, take a chance because the motor cars in front of us have gotten by all right?"

"I have driven motor cars nearly 600,000 miles in the past 20 years. I have seen a large number of accidents and have traced many of them to their source. I honestly believe that the greater number were avoidable."

Major Joyce, of the Boys' Club, asked to present his ideas on "Safety Week" prospects, said he had always been in favor of a well-organized campaign in Lowell, was supporting it to the best of his ability and knew that the Lowell Rotary club was also strongly backing the movement.

A member of Rotary, he said he would do all he could to secure a good working organization to promote safe roads in Lowell and vicinity, and he believed in making this statement that he was voicing the sentiment of individual Rotarians, although he did not want to appear as officially representing Rotary last evening in the capacity of message-bearer to that effect.

Mr. Joyce said he was deeply interested in the campaign to bring the Safety Week program in Lowell, because of his love for little children. He today in charge of joyous club quarters where sometimes as many as 1,200 boys rally in happy, vigorous, clean play, and his heart beats for them, he added, when they go forth after playroom hours to scamper to their homes through the city thoroughfares often crowded with automobiles moving in every direction.

Police Chief Atkinson said he approved wholeheartedly of Safety Week plans, but believed that solid support must be given to the present movement before it can possibly succeed.

The chief and Mr. MacBrayne had a good-natured tilt over the Lowell automobile accident averages taken from yearly safety council summaries where human beings have been killed or injured. The safe roads committee has placed Lowell in seventh place in 1923 as a city where auto casualties have increased. In 1922, Lowell had the honor of leading all cities with a lowest casualty record.

Chief Atkinson disputed the statement that Lowell's casualties had increased last year, and Mr. MacBrayne explained that the summaries were possibly not up-to-date.

Dr. Harry B. Plunkett, Manager C. J. Leathers and Arnold Ryan spoke briefly.

It was decided not to set a definite date last night for another meeting in the interests of a Safety Week in Lowell in May, until the sentiment of various representatives of leading Lowell welfare and other organizations can definitely be secured. Further activities will be held in abeyance for the present until the newly organized Lowell Safety Week committee announces its plans.

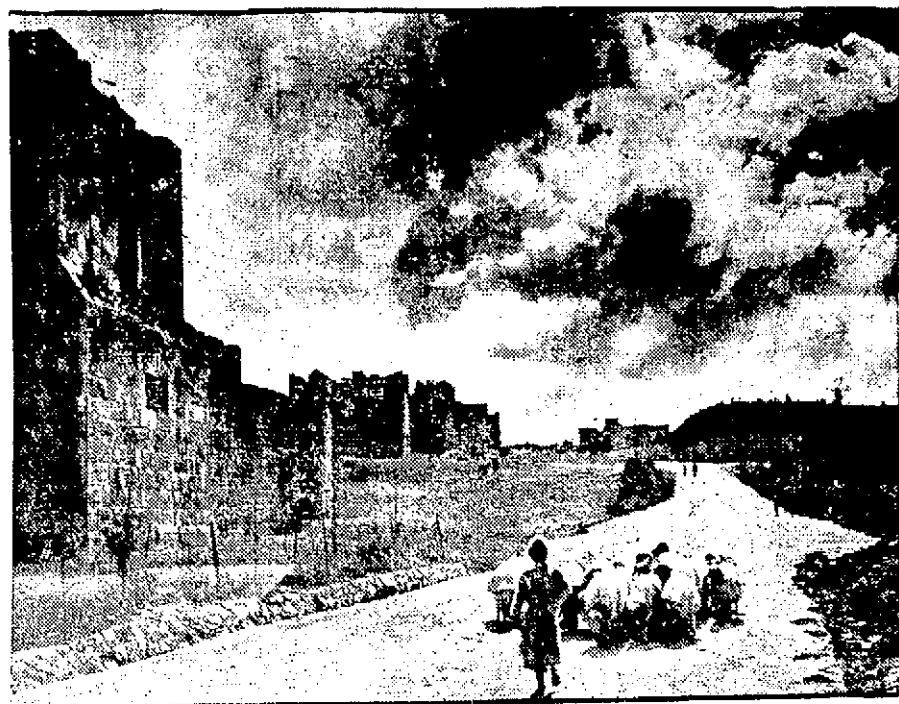

Alkali in Shampoos
Bad For Washing Hair

Many soaps and prepared shampoos contain too much free alkali, which is very injurious as it dries the scalp and makes the hair brittle.

The best to use is a mild, permanent all-shampoo, for this is pure and entirely caseless. It is inexpensive and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Two or three teaspoonfuls of all that is required to supply moisture your hair with water and rub it in. It makes an abundance of rich, creamy lather, which cleanses thoroughly and chases out dandruff. The hair dries quickly and evenly, and is soft, free looking, bright, fluffy and easy to manage. Resists a loss of moisture and takes out every particle of dust, dirt and dandruff. Adv.

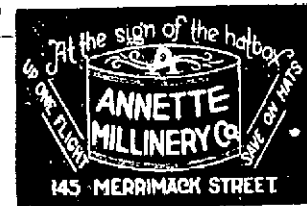

LENT IN THE HOLY LAND

North Wall of Jerusalem and the road some archaeologists declare Jesus traversed on his way to crucifixion. The little hill to the right is said by these historians to be the actual scene of Christ's death, as they point out that it was here that public executions were held in the days of Pilate.

OPPOSITE POLLARD'S

"You Can Do It Better With Gas"

Gas Light Weathers All Kinds of Storms

In winter and summer, spring and fall, regardless of weather conditions, gas is always ready for instant use.

The winds may blow, storms may rage, it may be freezing temperature, or it may be sultry summer weather, but no matter what the conditions are, you can always depend upon the supply of gas.

In the store, the X-radio light makes the interior cheerful and comfortable. Its equal diffusion is indeed restful to the eyes, which are most always overworked in these days of twentieth century progress.

In the factory, the same condition holds good where employees are confined for many hours a day.

In the home, the housewife, more than anyone else, appreciates the soft glow of a reflex light in the kitchen.

Gas may rightfully be called the Ever-Ready source of light and heat.

And we are ever ready for a storm of orders.

Lowell Gas Light Co.

Hope of New York Giants to Win Fourth Consecutive Pennant Depends on Bushers

LEFT TO RIGHT, UPPER: ERNEST MAUN, HOMER BALDWIN, EARL WEBB, LOWER: JOE BRADSHAW, DAVE THOMPSON.

BY N.E. SERVICE
SARASOTA, Fla., March 13.—The hope of the New York Giants to win a fourth consecutive pennant in the National League centers around the star pitcher, Manager McGraw has bought from the others. They are now showing their stuff before the critical eye of the famous manager.

McGraw has started an intensive campaign which he hopes will develop two of his star "bushers" into regulars. Usually a major league manager is content if his crop of rookie pitchers produces one reliable member of his staff.

The Nut Cracker

by Joe Williams

A girl psychic in New York exposing all the criminals and maybe will soon find out who imported the first Swedish wrestler.

At Reich, arriving in Buenos Aires, boasts that Fipro will not find him easy. . . . What he means of course is easy to catch.

Glen Killinger having been released by New York, Jersey City, and Atlanta has decided to give up baseball, being impetuous, like all collectors.

At Lombard College, in Illinois, tennis is compulsory. . . . May be that explains why people play it.

The crawl may be a fine thing for swimmers to use as the experts insist, but it didn't seem to get the Phillips anywhere last season.

Headline reveals: "Thou Silent on Writing Ban." . . . Thank Allah for that.

Three thousand golfers in America have made a hole in one, but lucky you don't have to listen to all of them tell about it at once.

Count Salm will represent Austria in the Olympic tennis events, if this will be of any interest to his creditors.

Alexander Alekhine, a Russian, is

ing his own in the majors. McGraw is hoping for two of the recruits to come through.

Much interest at present is being taken in Ernest Maun, a husky right-hander who was the sensation of the Western League last year.

Pitching for Wichita, Kas., that team finishing third in the race, Maun led the league with 26 victories and 11 defeats.

Howard Baldwin, who starred last season with the Newark club of the International League, is another bright prospect.

Working for a near tallender, New-

ark finished seventh with an average of .373, only six points out of last place.

Baldwin was one of the most effective pitchers in the league. He won 21 and lost 15 games. Baldwin is a right-hander.

Joe Bradshaw, with Toledo, a bad tallender in the American Association, nearly broke even in the matter of victories and defeats. Roger Bresnahan, former owner of the Toledo club, now with the Giants as coach, predicts big things for Bradshaw.

Of the many other recent pitchers working out, Earl Webb and Dave Thompson are well liked by McGraw.

Playing chess himself on the coast, it may be just a coincidence, but this happens to be the way we like to attend chess battles.

A war has broken out in the ranks of amateur billiards, thus proving that wars are not at all particular where they break out.

Information has been received at the local army recruiting station to the effect that Company D, First Engineers, one of the crack army units, is to be reorganized May 1st at Camp

two commissioned and 11 non-commissioned. Under the reorganization plan, enlisted officers will be selected from men now on duty at Fort Dupont, Delaware, and 73 recruits will be needed from the first corps area to fill the ranks of the unit. The company will remain at Fort Dupont for winter duties.

The engineers, says Sergt. Kimball, local recruiting officer, offer many opportunities for enlisted men to get special ratings and I shall be glad to receive inquiries concerning qualifications for enlistment in this company from Lowell boys.

CANCEL SQUASH CHAMPIONSHIP
NEW YORK, March 13.—Lack of interest has forced cancellation of the national open squash tennis championship scheduled to start next Saturday, it was announced today. It was understood professionals were dissatisfied with the purses offered.

Mr. Everest, in the Himalayas, is 29,000 feet high.

Billy Evans SAYS

"He's yellow."
No expression is more abused in the sport world.

In all competitive sports the fellow who seems to wilt under fire is branded as yellow.

In a great many cases, the shoe fits the individual, but often athletes so branded do not deserve the appellation.

No greater disgrace could possibly befall any athlete than to be labeled yellow, a quitter. He soon becomes a marked man, more or less shunned by the rest of his profession.

Physical failure is readily forgiven, but lack of courage never is. Recently it was announced that Al Reich would shortly meet Lulu Fiero in a bout to be staged in South America. Reich is one of the best of the prize ring.

Reich is a marvel of physical development. Measuring over 6 feet, weighing about 220, he is fast and clever and makes a punch in either hand. He looks the part of the champion, every inch.

Some years back Reich gave a great performance in a boxing match. He was bested in the crop of heavyweights flourishing at that time. Reich never arrived.

In the gymnasium a wonder, Reich seemed to lose all his stuff the moment his opponent began to punish him.

It wasn't long before the critics who had predicted big things for Reich in the future withdrew their complimentary notices and said Reich should have been a diver instead of a fighter, so gracefully did he reach the floor.

Lack of courage, inability to absorb punishment, and Reich back out doubt Reich from reaching the championship class. Certainly he has every other requisite.

There are, however, some athletes generally regarded as yellow who any time but deserve such a reputation.

In the last game much of the success of the man in the ring depends on the way he is handled by manager and seconds.

In baseball the diplomacy of the manager is constantly being put to the test in the handling of the different type athletes making up his club.

Often poor handling of some star athlete causes him to be branded as yellow when, as a matter of fact, the question of courage had nothing to do with his failure to deliver.

The sensitive, high-strung athlete is often the type to be branded as yellow simply because he failed to deliver under a manager who knew only one method, the constant driving of his men.

Rough tactics and tobacco language never get results with the sensitive athlete. Such a system simply breaks his spirit. It causes him to be branded as yellow when he often has plenty of courage.

In a score of years in professional sport I have seen so many cases of this sort that I have a decided objection to the word yellow. With some people the fellow who falls in a pinch is always yellow. That's unfair.

In a majority of cases athletes branded as yellow, failures, become stars when placed under the direction of a manager who knew types, and handled his men accordingly, saving the sensitive and driving the thick skinned.

HYDRO DEVELOPMENT OF GRAND FALLS

FREDERICTON, N. B., March 12.—The New Brunswick government will undertake hydro development of Grand Falls, on the St. John river, as a public ownership proposition. Provincial Premier Veniot announced today. The Grand Falls, near the Maine border, was formerly under lease to the International Paper Co., but the lease recently was cancelled.

It is intended to develop from 60,000 to 80,000 horse power. Premier Veniot said.

"The Thinking Fellow Calls a YELLOW"

"IN WALKED JIMMIE"

Clever Characterizations of Play by Edwin M. Whitney of Boston

Members of the Teachers' organization were pleasantly entertained at the monthly meeting of the organization in Colonial hall yesterday afternoon when a rendition of the play, "In Walked Jimmie," by Edwin M. Whitney of Boston, who took all 18 roles of the play and presented each characterization.

The play was described by Mr. Whitney as an unusual one and of exceptional interest to educators as it contains a considerable amount of applied psychology. In giving the play Mr. Whitney's voice inflections as he took the lines of the various characters, his characterizations and his acting were pleasing to the audience.

The story of the play concerns a business man, head of the "Cinderella Soft Shoe Rubber Company," who considers himself a failure and who is about to fall and lose his company via the bankrupted route. Deep in the depths of despair, worried over the future of his crippled daughter, and staring the poorhouse in the face, he takes from the drawer of his desk a revolver and prepares to shoot himself.

Just as his finger stiffens to pull the trigger of the revolver, in walks Jimmie, with about \$10 in his name and several thousands of unquenchable optimism as his only other asset. Jimmie, disdains the sight of the revolver and takes it away from the depressed business man. After talking a while, the business man explains his troubles to Jimmie, who immediately volunteers his assistance.

As business manager of the concern, Jimmie meets the creditors and by his optimism and his ability to forestall demands for money by bluffing, he succeeds in pulling the company off the rocks and getting it back into line as a successful concern.

A short business meeting preceded the play and was presided over by Miss Mary E. Tobin, president. The formalities of electing officers for the coming year was gone through with and the present officers, headed by Miss Tobin, were re-elected.

ALIENS ADMITTED AT RATE OF 4 A MINUTE

NEW YORK, March 13.—Aliens were admitted to citizenship at the rate of four a minute yesterday in the county courthouse under the pressure of two applications which must be disposed of before Sunday, or be delayed until next year, because the federal appropriation expires Saturday. Officials are in Washington seeking funds from congress.

STORM WARNING

WASHINGTON, March 13.—The weather bureau today issued this storm warning: "Advisory 10 a. m. southeast storm warnings displayed from Day St. Louis, Miss., to Cedar Key, Fla., distance center at 8 a. m. today over northwest portion of the Gulf of Mexico and moving eastward."

IRISH OLYMPICS

NEW YORK, March 13.—Teams of Australian and New Zealand athletes of Irish descent will compete in the Olympic Games, the Irish Olympics, which will be revived in August, according to word received today.

PEARL BRACELET

The most popular bracelet at the present time is the one of many strands of pearls wound several times about the wrist.

The Armenians marked their secession from the Greek church by adopting it as their symbol. This corresponds to July 9, 1923.

LOCAL LAWYER HONORED

Arthur L. Eno Appointed Special Commissioner for the Dominion of Canada

Arthur L. Eno, a prominent attorney of this city, has received distinct honor from the Dominion government of the Dominion of Canada in the form of an appointment as special commissioner for the Dominion of the United States.

The commission, which is dated March 4, 1924, is issued in the name of King George V. and signed by Lieutenant Governor Sir J. C. Pender and provides the special attorney with power to receive in the United States, affidavits for use in any court in the province of Quebec, or any

ARTHUR L. ENO

deed or document to be carried into execution in the province.

The commission reads as follows: George V. by the grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the seas, King, Defender of the Faith, Emperor of India.

To Mr. Arthur L. Eno of Lowell, Mass., U.S.A., attorney and counsel-at-law. Greeting:

Know ye that, reposing trust and confidence in your loyalty, industry, and ability, we of our especial grace, certain knowledge and mere motion, have nominated, constituted, and appointed and by these presents do nominate, constitute and appoint you, the said Arthur L. Eno, under the authority of Article 24 of the code of civil procedure of the Province of Quebec, a commissioner to receive, in the United States, affidavits for use in any court of the province or necessary for any deed or document to be carried into execution or to have its civil effect in the province. To have, hold, exercise and enjoy said office of commissioner and to receive affidavits with all and every the powers, authority, privileges, emoluments and advantages to the said office of right and by law appertaining during our royal pleasure.

In testimony whereof, we have caused these our letters to be made patent and the great seal of our said Province of Quebec to be hereunto affixed. Witness our right trust and well-beloved, the Honourable Narcisse Paradon, Lieutenant Governor of our said Province of Quebec, at our government house, in our city of Quebec, in our said province, this 14th day of March in the year of our Lord, one thousand nine hundred and twenty-four and in the fourteenth year of our reign.

Mr. Eno, the new commissioner, qualified for his new office yesterday. He is the former secretary of the Antislavery commission and a prominent member of the C.M.A., the York club and other fraternal and social organizations. His home is in Andover street.

The civil year in the British dominions (exclusive of Scotland) commenced with March 5 until 1923, and from 1752 the civil year has commenced with Jan. 1.

ARMY MUSICIAN IN HONOLULU

Sergeant Timothy J. Kimball, local recruiting officer, has received a letter from John J. Murphy, a Lowell boy now serving in the army musician at Schofield barracks, Honolulu, Hawaii. Mr. Murphy remarks upon the large number of Lowell men enlisting for service in the Hawaiian Islands. His letter is an excellent illustration of the pleasure of the "out there" and Sergeant Kimball says he is particularly willing to turn up a few more Lowell boys with Mr. Murphy in the Hawaiian Islands.

JACQUES CAPSULES for DIZZINESS

Dizziness results from an accumulation of waste products of digestion. Physical welfare depends on ridding the system of these poisons quickly. One or two Jacques' Capsules, with a swallow of water, are highly effective. Aid digestion, carry off waste, break up gas and tone up the entire digestive system. Only 60 cents for 12 days' supply. At all druggists or from JACQUES CAPSULE CO., PLATTSBURG, N. Y.

Closing out the balance of our Winter Garments at less than cost—including Fur Coats.

REDMAN FLAYS G. O. P. COTTON RECEIPTS IN

FURTHER DECLINE

Says Maine Suffering From "Statism" Because of Long Rule of Republicans

LEWISTON, Me., March 12.—Maine was described as suffering from "statism" a stock still condition due to long continued rule of the republican party in an address delivered by Fenton J. Redman of Ellsworth at temporary chairman of the democratic state convention here today. He said the industrial development of the state was retarded by the "statism" of a comprehensive water power policy. The state itself, he urged, should not engage in the business of waterpower development but should adopt a policy of encouraging such development by private initiative and enterprise.

The republican party in the nation, he asserted, "can never escape the responsibility for executing the unsoundable oil leases or for the scandals that have arisen in the departments at Washington it is hard to visualize the state into which the present administration has fallen when the president of the United States is obliged to go outside his own department of justice and obtain independent counsel to prosecute the oil cases, and at the same time, remains at the head of that department a chairman who was not interested with such prosecution. The president can, however, trust, and has entrusted the attorney general to be a member of the cabinet delegation to nominate the president at the republican national convention.

LOWELL MAN SENTENCED IN LIQUOR CASE

In superior court at East Cambridge before Judge Mahoney yesterday, Joseph Wagner, of Church street, this city, was sentenced to three months in the house of correction when he was found guilty of illegally keeping liquor. In district court here, he appeared a sentence of the same duration and a fine of \$150. A charge of operating an automobile without a license, for which he was fined \$20 here, was placed on file.

Justice Mahoney of the superior court also called on an old charge of illegal keeping, and was continued until next term.

EXILED CALIPH TO LIVE IN SWITZERLAND

BERNE, March 12.—Mehmed, the Swiss government has not made a definite decision regarding Abdul Medjid, the exiled caliph. It is considered certain he will be allowed to live in Switzerland on condition that he refrains from political or religious propaganda. A reputation of anything like his appeal to Moslems for an Islamic congress for instance, would be objectionable to the government.

PAYS "DEBT OF GRATITUDE" TO U. S.

LANCASTER, O., March 12.—A vow made by Wesley Jordan, 75, a farmer, who died recently, that he would pay his "debt of gratitude" to the government for liberty and happiness under the Stars and Stripes, will be fulfilled. Jordan's will provides that his property be converted into cash, and all over his burial expenses he turned over to the treasurer of the United States.

The estate is valued at \$16,000.

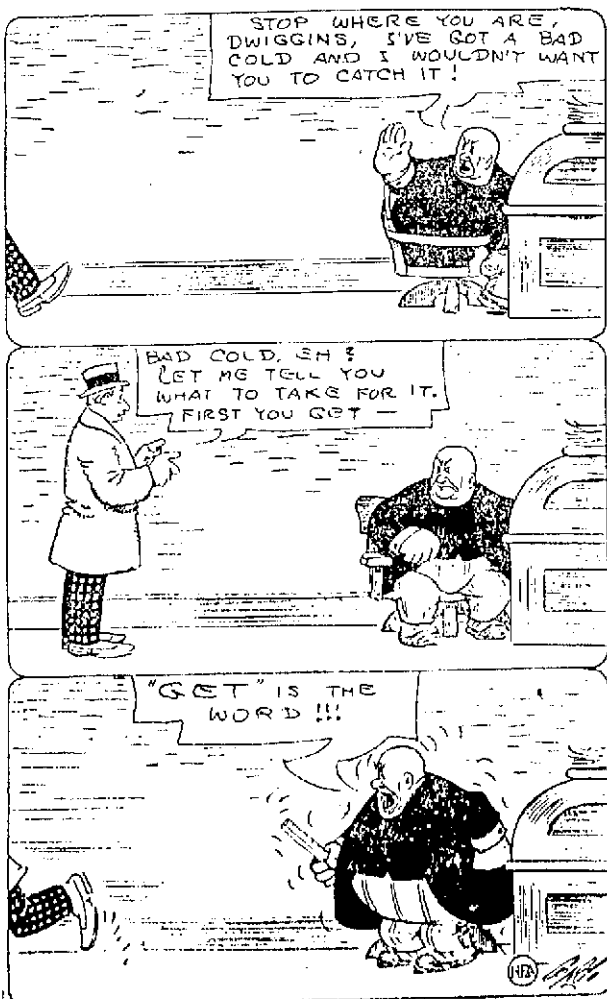

INQUIRY ORDERED

WASHINGTON, March 12.—Inquiry by a select committee of five into the administration of the bureau of internal revenue was ordered today by the senate.

HONDURAS WITHOUT GOVERNMENT

WASHINGTON, March 12.—The death of former President Gutierrez and the consequent increased activities of revolutionary factions have left Honduras for the time being without any government whatever. Members of the diplomatic corps succeeded in bringing about a 71-hour armistice which began at 5 p. m. last Monday between the revolutionary leaders.

EVERETT TRUE

PROFITS OF AMERICAN SUGAR REFINING CO.

NEW YORK, March 12.—The American Sugar Refining Co. received profits of \$8,508,163 in the form of investment income and interest in 1923, of which \$4,542,187 represented income from investments largely in sugar producing companies, the annual report showed today. This amount, with \$2,955,975 interest earned, was sufficient, the report said, to cover a loss and to provide for depreciation, bond interest and preferred dividends and leave a balance of \$465,107 for surplus. Sales of various investments gave a profit of \$1,342,651, which has been set aside to strengthen the company's refining facilities in New York harbor.

Earl D. Cabot, president, emphasized that 1923 was unprofitable for many sugar refiners. The price of raw sugar changed 115 times, he said, the extreme fluctuation causing a loss of \$1,895,070 on 1,165,000 tons of raw sugar refined by the company. In 1922, the company refined 1,640,000 tons at a profit of \$10,053,802.

Sales of the company totaled \$260,000,000. Nearly 30,000,000 pounds of package sugar alone were sold.

"The great objective of the democratic party in our land today should be to lift the political atmosphere of America to a higher and more enlightened plane. America turned down and ruthlessly cast aside idealism, only to awaken so recently to the deep realization how much we need it in our public life."

"By adhering to our foreign policy of isolation, we are remaining supine, while the world is preparing for suicide. President Coolidge is a sincere man and possessed of a splendid New England conscience, but the march of world events will leave the president and the republican isolationists as far behind as the secessionists under states' rights."

BAKER TO CONTINUE FIGHT FOR LEAGUE

CLEVELAND, O., March 12.—Newton D. Baker, former secretary of war, intends to carry his fight for the League of Nations to the democratic national convention.

Speaking before the Women's City club last night, Mr. Baker said he would go to the convention and "plead with everybody who will listen to put a straight-out declaration in the platform for the United States to enter the league."

"I hope some of you go to the convention of the other party and make the same fight," Mr. Baker said.

ST. ALBANS, Vt., March 12.—A third name was added to the death list when Paul Lamoche, an infant, died today in the hospital at St. Albans, from a fracture of skull. His parents, who are from Upton, Mass., brought the child here without realizing the seriousness of its condition and its name was not on the list of injured.

JUST ONE OF THOSE STUNTS PHOTOGRAPHERS DO

This picture doesn't prove a blooming thing except that the camera man wanted a picture of Hugh McQuillan, of the New York Giants, trading headpieces with one of the Florida natives. We ought to build some sort of legend around the incident, telling how the native is a great follower of big league ball players and yearned for the sensation that comes with wearing a star's cap, but we aren't going to do it. We are one of those truthful sort of reporters, anyway.

GIVE "CALIFORNIA FIG SYRUP"

Dependable Laxative for Sick Baby or Child — Harmless!

Hurry, Mother! Even a bilious, constipated, feverish child loves the pleasant taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup. —Adv.

COMMON SENSE

When a merchant advertises his wares in a newspaper, he does not appeal to the paper, but to its readers. He solicits the patronage of those readers whether he agrees with the policy of the paper or not. To refrain from advertising in a paper of wide circulation simply because he does not agree with the editor on all public questions, is not using common sense. It is a form of business suicide. It has sent many short-sighted business men into bankruptcy. A dealer might as well put a sign over his store notifying all who do not think as he does that he does not want their patronage. Readers of newspaper advertisements know when and where their patronage is welcome.

A four-panel comic strip featuring two boys, one in a striped shirt and the other in a plaid shirt, walking through a wooded area. The boy in the striped shirt is holding his head in pain.

Panel 1: The boy in the striped shirt says, "ALEK CAN'T GO TO SCHOOL TODAY - HE'S HOME SICK IN BED WITH TH' EARACHE". The boy in the plaid shirt asks, "EARACHE?"

Panel 2: The boy in the striped shirt explains, "GEE - I FEEL SORRY FOR HIM - I HAD TH' EARACHE WUNST AN' I KNOW HOW IT HURTS". The boy in the plaid shirt responds, "SHUCKS! EARACHE AIN'T SO BAD!"

Panel 3: The boy in the striped shirt insists, "IT AIN'T AIN'T WELL! I'D RATHER HAVE TH' TOOTHACHE!". The boy in the plaid shirt replies, "I WOULDN'T - I'D RATHER HAVE TH' EARACHE THAN TOOTHACHE -"

Panel 4: The boy in the striped shirt concludes, "'CAUSE THEN TH' DOCTOR CAN'T PULL MY EARS OUT, ANYHOW!!". The boy in the plaid shirt is not speaking in this panel.

The comic is signed "BLOOMING" and "DIB" in the bottom right corner of the fourth panel.

TWO PERISH IN FIRE WITH THE LEGISLATORS

Mrs. Keefe Burned to Death
and Her Son Andrew Suffocated in Malden Home

MALDEN, March 12.—Mrs. Nellie M. Keefe was burned to death and her son, Andrew L. Keefe, was suffocated in a fire which started in the cellar of their home here today and badly damaged the house. Mrs. Keefe was trapped on a staircase, while trying to reach the front door and her son was overcome in a bedroom.

HOPE ADDRESS WILL BE HEARD AROUND WORLD

NEW YORK, March 12.—Nine powerful radio stations in Great Britain, each using a different wave length, will begin broadcasting at 6 o'clock tonight, eastern standard time, an address by William Brewster, which is hoped, will be heard around the world. Arrangements have been made with the British Broadcasting Corporation, to make the address, if they are able to hear the address, it will mean that radio has covered the world.

Fight to Annul Oil Leases Continued

SENATOR SINCLAIR, who negotiated the Teapot Dome lease on behalf of the Mammoth Oil Co., has refused to make known the defense they will make to the government's plea for a temporary injunction stopping all production of oil from the leases until the government can determine whether the suits for annulment of the lease would be fought to the end.

Passage of Concord River Bill Predicted—Fight on Annexation Bill

Consideration of Bills for New Courthouse May Be Taken Up Tomorrow

STATE HOUSE, Boston, March 12.—The early passage of the bill introduced by Rep. Owen Brennan of Lowell for the investigation of the Concord river sewage and manufacturing waste nuisance is predicted. The bill, reported favorably by the ways and means and public health committees, carries an appropriation of \$2000 for an investigation and calls for recommendations as to the means of ending the nuisance. The Lowell legislators are lined up solidly in favor of the bill and little difficulty is expected.

SENATOR SINCLAIR, who negotiated the Teapot Dome lease on behalf of the Mammoth Oil Co., has refused to make known the defense they will make to the government's plea for a temporary injunction stopping all production of oil from the leases until the government can determine whether the suits for annulment of the lease would be fought to the end.

DID NOT HOLD MEETING HALT SINCLAIR MEN

Extension, Service Bureau Meeting Called Off Because of Bad Roads

Attention, school boys! Interesting announcements come to Lowell today through Dr. Paul Aggle, a Lowell native, who is a member of the Middlesex county extension bureau service and deeply interested in tilling the soil and producing food products in a modern way.

DEFEAT FOR MACDONALD LABOR GOVERNMENT

LONDON, March 12.—(By the Associated Press.)—The MacDonald labor government received a setback in the House of Commons today, when the proposal of J. R. Clynes, deputy leader of the House, to suspend the eleven o'clock adjournment rule for discussion of the army estimates, was defeated, 231 to 207.

POLICE ON TRIPS FOR PRISONERS

Police Sergeant Philip Dwyer is in New York with extradition papers for Berthold Block, wanted on a larceny charge in connection with the Thurtell City Trust activities here. Mrs. Constance Crosskey is the complainant. In the case of Block, the police are in custody there, wanted here for alleged non-support.

CONFISCATION OF STEAMER DEMANDED

NEW YORK, March 12.—Government confiscation of the Royal Mail Steam Packet Co.'s passenger ship Orinda was demanded today in a libel suit filed in federal court by the United States district attorney's staff as a result of a narcotics and liquor raid on the vessel yesterday.

SENATOR SINCLAIR, who negotiated the Teapot Dome lease on behalf of the Mammoth Oil Co., has refused to make known the defense they will make to the government's plea for a temporary injunction stopping all production of oil from the leases until the government can determine whether the suits for annulment of the lease would be fought to the end.

GERMAN REICHSTAG DISSOLVED

BERLIN, March 12.—(By the Associated Press.)—President Ebert dissolved the Reichstag today. His action is in consequence of the determination of the socialists to insist on revision of the special emergency ordinances promulgated by the government, notably tax regulations.

TODAY'S DOCKET IN THE DISTRICT COURT

Charles L. Wadsworth paid a \$50 fine in district court this morning for driving a motor car after his license had been revoked. Police Officer Patrick Conroy told Judge Condit that Wadsworth was driving a car yesterday at such a high rate of speed that he half-drove and half-dropped it.

Receivers for Tea Pot Dome Named START DRIVE HERE TO AID GERMAN CHILDREN Daugherty's Brother to Be Questioned

U. S. MARINES USED TO CLEAR TEA POT DOME OF TRESPASSERS

Order for Marine Expedition to Oil Reserve After it Had Been Leased to Sinclair Issued by Roosevelt at Request of Fall

WASHINGTON, March 13.—Turning the president said that unless James G. Darden of the Mutual Oil Co. withdrew from the lease on the Teapot Dome, the Marines would be used to clear the reserve of trespassers. Major General Lejeune, commander of the Marine Corps, was the first to be named in this line of inquiry. He said that the order for the action was issued by Theodore Roosevelt, then acting secretary of the navy, who also was called to testify.

TURKISH NATIONAL ASSEMBLY TO WESTERNIZE THE COUNTRY

Lawmakers Consider Plan to Abolish Turkish Alphabet for Latin Letters—Move to Discard Ancient Fetz for Derby—Turkish Women Urge Abolition of Harem

CONSTANTINOPLE, March 13. (By the Associated Press).—Now that the caliphate has been abolished, the Turkish national assembly is turning its attention to other reforms, with a view to westernizing Turkey. The law makers have under consideration a plan to abolish the Turkish alphabet for Latin letters, and another to discard the ancient fetz for the derby. Turkish women are petitioning the assembly to adopt a new code of laws respecting their rights. These would include abolition of polygamy and the harem, suppression of the courts, limitation of divorce, and the attainment of majority at 17, instead of 15. Other provisions demanded are that both parties be required to present health certificates before marriage, and that divorce cases be decided according to the American standards and only before judicial tribunals.

HOLD DOUBLE FUNERAL

Victim of Mysterious Auto Accident and His Sister Buried Today

Services for Brother and Sister at the Immaculate Conception Church

A solemn high funeral mass in the Immaculate Conception church at 10 o'clock this morning, attended by large delegations of sorrowing relatives and friends from this city, Mayfield and Lawrence, brought to an end the pathetic stories of Timothy T. O'Keefe or 117 Hoyt avenue, who died last Monday night as the result of injuries sustained in a mysterious automobile accident at Rogers and Nesmith streets, and his sister, Mrs. Bridget O'Keefe, who died the same evening at her home, 323 Lawrence street.

The double funeral services in the church were conducted by Very Rev. Lawrence J. F. Tiche, O.M.I., celebrant; Rev. Owen P. McQuaid, O.M.I., deacon, and Rev. Stephen G. Murray, O.M.I., sub-deacon, while the choir, under the direction of Charles P. Smith, with Mrs. Hugh Walker at the organ, rendered Chopin's funeral mass, the solemn being sustained by Mrs. Walker, who sang "Domine Jesu Christe" at the offertory, and Raymond Kelly, who sang "O Mortem Passiones" at the elevation. The solo in "De Profundis" was sustained by Mr. Smith.

WAS GIVING THE HENS AN AIRING

Somebody's hen coop was robbed last night of two hens. The robbery hasn't been reported yet, but the police have the coop and hens in custody at the Market street station house. Officer Lee found Walter Konehanek out for a walk at 1:20 o'clock this morning with two hens tucked under his coat for company.

Konehanek pleaded guilty to larceny when arraigned before Judge Enright in district court this morning. He said he doesn't know where the hen coop is located where he collected his feathered friends. The case was continued today on the chance that the hen owner may show up some time today at the station house and give evidence sufficient to warrant the additional charge of breaking and entering in the night time.

COUNCIL WILL TACKLE TO INVESTIGATE OFFICE OF STATE AUDITOR BUDGET TONIGHT

The city council will meet tonight to begin its deliberations on the 1924 budget and will have with it the city auditor and budget and audit commission. Although the meeting is especially called for budget consideration, other business may come up, including some discussion of the salary ordinance now held in abeyance through notice of reconsideration filed at the last meeting by Councilor Corcoran. It may be, however, that this reconsideration will not be taken up until the next regular meeting, which will come next Tuesday night, the 15th.

CALL MORTIMER AS WITNESS

Grand jury Proceedings in Case of Congressmen Mentioned in Chicago Report

Sessions Open in Washington—Central Figure in Veterans' Bureau Case Called

WASHINGTON, March 13.—Grand jury proceedings were begun here today in the case of the two members of congress referred to in a recent Chicago grand jury report as having improperly accepted money.

Assistant Attorney General Davis, Willibrand, and Seymour, appeared, aided by J. W. H. Crim, special assistant in charge of the case, in presentation of the evidence.

One of the witnesses called was Eliza H. Mortimer, who was a central figure in the veterans' bureau investigation here some months ago and who also appeared before the Chicago grand jury.

Mrs. Willibrand, one of the assistants, continued to Page 14

\$786,441.68 IN UNPAID TAXES FOR 1923

There remain outstanding today in unpaid 1923 taxes, including real, personal and poll, \$786,441.68 out of a total levy of more than four millions. Taxes still unpaid are drawing interest for the city at the rate of 5 percent and will continue to do so until the tax sale some time in June.

So far this month taxes have been received to the amount of \$29,527.55, considered fairly good for this time of year, and it is believed that by April 1 the outstanding total will not be much in excess of \$700,000.

PRESIDENTIAL PRIMARY NOMINATION PAPERS

The board of election commissioners again calls attention to the fact that March 21 at 5 p. m. is the last day and hour for filing presidential primary nomination papers with the commission at its offices at city hall. Between that day and the 26th certification of signatures must be made and all papers forwarded to the office of the secretary of the commonwealth.

To date only eight candidates have taken out papers at the local office, seven democrats and one republican.

SEEK EVIDENCE ON LIQUOR CASES

Senators Move to Establish New Lines of Inquiry in Daugherty Investigation

Divorced Wife of Harry Daugherty's Chum, Who Killed Himself, on Stand

Edward B. McLean and Mal Daugherty, Brother of Attorney General to Be Called

WASHINGTON, March 13. Mrs. Royce Stinson, divorced wife of Harry M. Daugherty's chum, Jesse Smith, who committed suicide a year ago, again was the star witness today on the Daugherty investigation committee.

Mrs. Stinson waited patiently for questioning to begin while the hearing was delayed in getting underway. The jam of senators, congressmen and other spectators was so great the committee men had difficulty in getting into the room.

In the preliminaries it developed that the books of the Midland National bank of which the attorney general's brother is president, could not be brought to Washington. An examiner will be sent to make a report.

Mr. Daugherty's counsel asked that subpoenas will be issued for Mal Daugherty, John Price, former attorney general of Ohio; James W. Holcomb and Henry T. Blinn of Cleveland; Samuel Underhill, Mrs. L. A. Hayes and E. H. Mure of Cleveland.

Senator Wheeler said the subpoenas probably would be issued but the incident was delayed in getting underway. Senator Wheeler reiterated that Mr. Howard, the attorney general's counsel would not ruin the investigation.

Senator Ashurst declared that "the defense might as well leave now" that it was not "running the committee" and said he had not forgotten an "insult delivered last night here" by the defense.

The senator added that Mr. Howard was "not going to run any bluff here."

Senator Wheeler went back to the Carpenter Trustee fight this. Miss Stinson said the proposition was the transportation of the films was a legal violation and if the films could be transported without presentation "they were to make a record."

"Whether that was ever consummated, I do not know," Mr. Smith told her that Mr. Daugherty would see there was no prosecution.

"That was the deal," she said. Senators not only sought to draw out details of her story of yesterday, in which she included some astonishing insinuations about Smith and Daugherty but made an effort also to establish new lines of inquiry involving liquor cases and other matters that were pending in the justice department.

As a result of other testimony, Senator Wheeler of Montana, the committee prosecutor, announced he would call Edward B. McLean, publisher of the Washington Post and Mal Daugherty of Ohio, the attorney general's brother.

Among other things, committee men want to know whether there was any attempt on the part of friends of the attorney general as has been suggested in information reaching the committee to give Miss Stinson's appearance on the witness stand.

Before the committee met today, Attorney General Daugherty issued another statement declaring the investigation could be fully and finally disposed of in a week or 10 days, if only "unimportant inquiries" were made. He also wrote Chairman Brookhart protesting against issuance of committee subpoenas for GASTON, D. Means and Thomas B. Felder, on the

SUBPOENAS FOR G. O. P. LEADERS

To Be Questioned in Connection With Story Told by Leonard Wood, Jr.

Charged Attempted Oil Deal at Republican National Convention in 1920

WASHINGTON, March 13.—(By the Associated Press).—Subpoenas also went out today for Harry M. Daugherty, Chicago campaign headquarters and for Tiffin Wilbur, deputy secretary of state of Ohio.

Daugherty, McKenzies and Gilmore are to be questioned in connection with the story of Leonard Wood, Jr., about an attempted oil deal at the republican national convention in 1920. Norman J. Gould of New York, and Charles H. Garfield of Columbus, Ohio, also were subpoenaed.

Gould and Garfield also will be questioned regarding the Wood story.

CARDINAL O'CONNELL IS BIDDEN GODSPEED

NAPLES, March 13. Cardinal O'Connell of Boston, who has been on a visit of several weeks to Rome and the Holy Land, sailed for New York today on the liner Franconia. He was bidden godspeed by many friends. He was accompanied by Monsignor Michael J. Spillane, and Monsignor Richard Haberlin of Boston.

NEW YORK, March 13.—(By the Associated Press).—Cardinal T. L. Hinton, former bishop of New York, today said he had declined an offer to become involved in the Newark International League baseball club, which now is in financial difficulties under the ownership of a Newark syndicate.

"I am out of baseball for good," he said.

WASHINGTON, March 13.—(By the Associated Press).—Appointment of Senator Ladd of North Dakota, a member of the La Follette group, as chairman of the committee to study the League of Nations, was confirmed today by the senate, without discussion, or a record vote.

The letter was laid before the committee, but some members were disposed to insist upon hearing Means and Felder. They are under indictment in connection with the Glass-Parker stock marketing case, and their testimony is desired in connection with transactions of Jesse Smith.

Bank Bookkeeper Subpoenaed
WASHINGTON, March 13.—(By the Associated Press).—Marshall Stanley of North Dakota, of the southern district of Ohio, today subpoenaed the head bookkeeper of the Midland National bank, and a deposit ledger of the institution since Nov. 1, 1920, together with other records for the senate committee investigating the administration of Attorney General Daugherty.

M. S. Daugherty, president of the bank and brother of the attorney general, left for New York.

Amazook Testimony
WASHINGTON, March 13.—(By the Associated Press).—The Daugherty investigation, for the moment at least, has collapsed the oil scandal in the way of sensational testimony with Royce Stinson of Columbus, O., still on the stand today, after setting a dizzy pace late yesterday in the opinion of the special senate committee.

(Continued to Page Three)

INJUNCTION HALTS WORK ON TEA POT DOME OIL RESERVE

Judge Kennedy Grants Temporary Restraining Order—Names Receivers for Property Pending Final Outcome of Litigation

CHEYENNE, Wyo., March 13. (By the Associated Press).—Federal Judge Kennedy today granted a temporary injunction halting further development work by the Mammoth oil Co. on the Teapot Dome oil reserve. Judge Kennedy named Rear Admiral Joseph Strauss of the United States navy and A. E. Watts, vice president of the Sinclair Consolidated Oil Corporation, as joint receivers for the Teapot Dome property pending the final outcome of the litigation.

When J. Roberts, opening the case for the government, asked that Judge Kennedy issue an order granting an injunction restraining the defendants from any further drilling operations on the Teapot Dome reserve.

The order would also appoint a receiver to take charge of operations on the Teapot Dome and direct him to continue operations only so far as he should deem necessary.

Appointment of Rear Admiral Joseph Strauss of the United States navy as receiver of the Teapot Dome oil properties was requested of Federal Judge Kennedy by Owen J. Roberts, special United States counsel today.

Affidavits Filed
CHEYENNE, Wyo., March 13. (By the Associated Press).—Affidavits signed by acting Secretary of the Navy, Josephus Daniels, and by the interior department, setting forth an injunction halting development work and a receivership are necessary to protect the interests of all parties concerned pending litigation over the Teapot Dome oil lease, were filed with the federal court here today.

The affidavits set forth that the daily production of oil from the Teapot Dome reserve is 3875 barrels. The affidavits were filed by Atlee Pomeroy and Owen J. Roberts, government counsel in support of the government's bill in equity seeking annulment of the lease and asking a temporary injunction and receivership.

The procedure to be followed by the defense remained a puzzle as the hour set for the preliminary hearing approached. Attorneys representing the defense were not present.

GERMAN CHILD RELIEF DRIVE HERE GETS UNDERWAY

Hon. Perry D. Thompson Presides at Meeting in Liberty Hall—Speakers Tell of Crying Need for Relief From America—Local Quota \$20,000

The opening gun was fired at a meeting this noon in Liberty hall by the Lowell committee for relief of starving German children. Prof. Henry J. Cadbury of Harvard university, who was for some time in charge of the American Friends society work in Germany, Leslie W. Sprague, New England director of the Allen Fund, and former Mayor Perry D. Thompson, chairman of the local committee, addressed the meeting.

In opening the meeting, Mr. Thompson spoke briefly on the crying need for relief of the German children. He pointed out the fact that it was their fathers against whom our boys fought in the recent war. He lauded Gen. Allen, who commanded the American troops in the Army of Occupation, for having the courage to start the drive for relief in this country. "I have never believed," he said, "that this country should pay the bills of other countries engaged in the war, but the heads in this country favor this drive and ask the support of the American people in it."

Professor Cadbury was introduced by the chairman and gave as the outline of his address three questions: "Is the need really there? Is there any other way of meeting the need? What will the result be?" Answering the first question, he said, "The need is there. It is the death rate of children under four years of age, it is clearly seen that the death rate will continue to increase."

NEW HAVEN LOCOMOTIVES TO BE GIVEN INDIVIDUALITY

Giants of the Singing Rails and High Irons to Carry Names of Faithful Throttle Petters in Gold Leaf Under Cab Windows

This is the way New Haven train-rod locomotive assignments may read in the near future: "Take out the H. B. Hall and send 25 extras from the Mansfield transfer to Lowell via the N. Y. N. H. & H. R. R. Never mind the Fred Wright; that one needs a new smokestack."

If you would wish us to provide a solution to the above, here it is: One of the picturesque features of existing railroading is being revived by the New York, New Haven & Hart-

STACK FORETOLD OIL LEASES YEARS BEFORE THEY WERE SIGNED

Josephus Daniels, Former Secretary of Navy, Tells of Efforts Made to Get Control of Oil Reserves During His Administration

For the first time, Josephus Daniels, former secretary of the navy, tells in the following signed article the "inside story" of efforts made to get control of naval oil reserves during his administration. It is a story that links most interestingly with recent developments in the oil lease investigation.

BY JOSEPHUS DANIELS
Secretary of the Navy During Wilson Administration

After congress had set aside naval oil reserves, many persons came to the navy department to inquire about leases.

Letters from all sections of the country asking questions of every kind are received. Private interests wanted to develop the naval oil reserves.

My policy was, and always will be, to keep the oil in the ground where it belongs for naval emergency. I let it

be known that I would not consider leasing. My secretary gave persons who came to see me that message and generally succeeded in convincing them that we meant what we said.

So I do not know personally who might have come representing one interest or another.

There is one instance I do recall that links itself with names mentioned in the present oil leasing scandals and, in the light of recent evidence, is quite interesting.

It was after the election, and the Wilson administration had but a few months more in office.

George Creel, who ran the bureau of Public Information during the war, came into the office one day.

He told me he had friends in Colorado who were interested in leasing Teapot Dome and wanted to talk with me about it.

I told him there was not a chance on earth.

"George," I told him, "what's the use of having a naval reserve if you exploit it? I have spent years trying to preserve the naval oil reserves."

Creel then said: "Well, that's all right, but I wish you'd see them anyhow. They're good democrats and friends of mine."

"All right, bring 'em in," I said. And Creel left. He returned with Leo Stack of Denver, who testified recently in the investigation.

Stack put his cards flatly on the table. He explained that he wanted to lease the Teapot Dome reserve.

I told him that he was wasting time; that I was for conservation of the reserve.

"Do you think that oil is going to stay in the ground?" Stack asked, as nearly as I can recall his words.

"Of course it will," I answered. "I've seen to it that it will; some day it is going to be the salvation of the navy."

"Well, let me tell you," Stack added candidly, "it isn't going to stay in the ground."

I believe I asked him what he meant, but at any rate he went on in some such words as these:

"It can't stay in the ground because a new administration is coming and it will be taken out by them. Now, I'm a democrat, and my friends are democrats. Isn't it better to let the democrats and your friends have it than to wait until the other fellows do?"

"There is no such thing as politics in naval reserves and oil," I told him. "It is possible that there are certain politicians bad enough to do a thing of that sort, but those in power would not dare. They couldn't expect to get away with it. Besides it is my observation that the persons of the opposition are just as desirous of serving their navy, and are honest."

And I believed it. I have known a great many politicians in many parties, and did not believe Stack had proper foundation for his words.

He seemed inclined to scoff at this view, and I knew what he was saying. I said to him: "You are not to use taking that attitude for, said he, the 'oil would be taken out' by others and I might as well realize that."

"And," he concluded, as nearly as I can recall, "I stand ready to pay more for it. It will be done any way and the government might as well get as much out of it as it can. I know what I'm talking about. You had best let your friends and democrats have it."

I merely smiled then. But as things loomed now, it seems that he might have known what he was talking about. (Copyright, 1924, The Lowell Sun)

RECOVERED HER STRENGTH QUICKLY

Debility Resulting From Attack of Grip Corrected by Tonic Treatment

"An attack of the grip left me weak and all run down," says Mrs. K. R. Hudson, of No. 123 Market street, Hartford, Conn., "and the least exertion left me exhausted. This was complicated by an attack of rheumatism. I lost strength and had sharp pains in my left arm that would go down to my finger tips. I had a sort of dull, throbbing headache and an all gone feeling in my stomach. I was easily chilled and could not seem to get warm again. My appetite was poor and I was very nervous."

"Through a friend who was a great advocate of Dr. Williams' Pink Pills I was led to try them and after the first box I could see an improvement in my appetite. Then I began to recover my strength right away. The rheumatic pains became less severe and finally went away entirely."

"Soon I had more ambition and could walk out every day without getting out of breath. As the nervousness left me my sleep became sound and refreshing. I think Dr. Williams' Pink Pills are a wonderful blood builder and tonic and I am glad to give this statement recommending them."

Get a box of Dr. Williams' Pink Pills today from the nearest drug store if you are not feeling as well as you should and see what the tonic treatment will do for you. Write the Dr. Williams Medicine Co., Schenectady, N. Y., for free booklet, "Building Up the Blood."—Adv.

Home-made, but Has No Equal for Coughs

Makes a family supply of really dependable cough medicine. Easily prepared, and saves about \$2.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness, or difficulty breathing, or if your child wakes up during the night with cough and you want quick help, try this reliable old home-made cough remedy. Any drugstore can supply you with 2½ ounces of Pinex. Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes a pint of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction, or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

INDIGESTION!!! UPSET STOMACH, GAS, GAS, GAS

The moment you chew a few "Pape's Diapepsin" tablets your stomach feels fine. Correlate your digestion for a few cents. Pleasant! Harmless! Any drug store.—Adv.

THIS WOULD EXPEDITE MATTERS CONSIDERABLY

STORM INTERFERES

The Tuesday evening Lenten service at St. Andrew's church, North Billerica, was omitted because of the storm. The opening sermon in the Lenten course, by Rev. Owen A. McGrath, C.S.P., will be preached tomorrow evening. His subject will be "The Call to Repentance."

Representative Burton, republican, Ohio, heads house committee authorized to investigate charges against two representatives preferred in report of Chicago grand jury.

MEXICAN FEDERALISTS IN NEW DRIVE

MEXICO CITY, March 13.—War Secretary Serrano and his staff have sailed from Manzanillo to start the campaign against the remaining rebellious elements in the isthmus of Tehuantepec in co-operation with movements by General Almazan and General Topete. The secretary left after the sailing of four transports carrying 8000 federal troops and a number of airplanes. It is confirmed at the treasury department that Puerto Mexico is to be made a free port when the republic is considered completely pacified.

BAR CONVERSATION ABOUT GRIPPE

PARIS, March 13.—The practice of Coqueism, but with a sort of reverse English, is beginning to spread among the Parisian population. In one of the numerous cabarets in Montmartre a sign has been posted prominently, reading: "All conversation about the gripe is strictly forbidden."

ABANDON CLAIMS TO KING TUT DISCOVERIES

LONDON, March 13.—Howard Carter and the executors of Lord Carnarvon's estate have given the Egyptian government a written undertaking, says the Daily Mail's Cairo correspondent, abandoning any claim now or in the future to anything found in the tomb of Tu-Ankh-Amen.

SUMMARY OF EARLY MORNING A. P. NEWS

Establishment of banking credit in favor of Bank of France of not less than \$100,000,000, is announced by American banking group, headed by J. P. Morgan & Co.

British royal mail liner Orduna is seized by federal officers at direction of Secretary Mellon after liquor and narcotics, valued at \$10,000, are found on vessel and eight of crew arrested.

Albert H. Harris, a vice president of the New York Central railroad, will succeed the late A. H. Smith as president of the road, New York World says.

Rub the Spine

If you believe the spine is the seat of most of your physical ills, and more people are thinking so every day, just give it a gentle massage every night with Joint-Ease and watch the helpful results. Many people are getting it daily from Green's Drug Store. Fred Howard, Dows the Druggist, Fairburn's Bldg., and other good pharmacists.

The name is Joint-Ease and it's the one big discovery for stiff, swollen, inflamed joints and a tube for only 60 cents.—Adv.

Don't Neglect a Cold

Mothers, don't let colds get under way; at the first cough or sniffle rub Musterole on the throat and chest.

Musterole is a pure, white ointment, made from oil of mustard. It draws out congestion, relieves soreness, does all the work of the good old-fashioned mustard plaster in a gentler way, without the blister.

Keep a jar handy for all emergencies; it may prevent pneumonia in your home.

To Mothers: Musterole is also made in a milder form for babies and small children. Ask for Children's Musterole. 25 and 60c in jars and tubes; hospital size, \$2.

MUSTEROLE

Better than a mustard plaster.—Adv.

MEXICAN FEDERALISTS IN NEW DRIVE

MEXICO CITY, March 13.—War Secretary Serrano and his staff have sailed from Manzanillo to start the campaign against the remaining rebellious elements in the isthmus of Tehuantepec in co-operation with movements by General Almazan and General Topete. The secretary left after the sailing of four transports carrying 8000 federal troops and a number of airplanes. It is confirmed at the treasury department that Puerto Mexico is to be made a free port when the republic is considered completely pacified.

BAR CONVERSATION ABOUT GRIPPE

PARIS, March 13.—The practice of Coqueism, but with a sort of reverse English, is beginning to spread among the Parisian population. In one of the numerous cabarets in Montmartre a sign has been posted prominently, reading: "All conversation about the gripe is strictly forbidden."

ABANDON CLAIMS TO KING TUT DISCOVERIES

LONDON, March 13.—Howard Carter and the executors of Lord Carnarvon's estate have given the Egyptian government a written undertaking, says the Daily Mail's Cairo correspondent, abandoning any claim now or in the future to anything found in the tomb of Tu-Ankh-Amen.

SUMMARY OF EARLY MORNING A. P. NEWS

Establishment of banking credit in favor of Bank of France of not less than \$100,000,000, is announced by American banking group, headed by J. P. Morgan & Co.

British royal mail liner Orduna is seized by federal officers at direction of Secretary Mellon after liquor and narcotics, valued at \$10,000, are found on vessel and eight of crew arrested.

Albert H. Harris, a vice president of the New York Central railroad, will succeed the late A. H. Smith as president of the road, New York World says.

Rub the Spine

If you believe the spine is the seat of most of your physical ills, and more people are thinking so every day, just give it a gentle massage every night with Joint-Ease and watch the helpful results. Many people are getting it daily from Green's Drug Store. Fred Howard, Dows the Druggist, Fairburn's Bldg., and other good pharmacists.

The name is Joint-Ease and it's the one big discovery for stiff, swollen, inflamed joints and a tube for only 60 cents.—Adv.

Don't Neglect a Cold

Mothers, don't let colds get under way; at the first cough or sniffle rub Musterole on the throat and chest.

Musterole is a pure, white ointment, made from oil of mustard. It draws out congestion, relieves soreness, does all the work of the good old-fashioned mustard plaster in a gentler way, without the blister.

Keep a jar handy for all emergencies; it may prevent pneumonia in your home.

To Mothers: Musterole is also made in a milder form for babies and small children. Ask for Children's Musterole. 25 and 60c in jars and tubes; hospital size, \$2.

MUSTEROLE

Better than a mustard plaster.—Adv.

IMPOSSIBLE TO CUT 1923 TAXES BEFORE MAR. 15

WASHINGTON, March 13.—Plans for reduction in income taxes payable this year are again centered in the revenue bill, house republican leaders having rejected President Coolidge's proposal that the provision be taken from the measure and enacted in a separate resolution before first installments are due, Saturday. The bill, as passed by the house, now is in the senate finance committee which continued its discussion of various provisions today with Secretary Mellon.

Compliance with the president's request was impossible, Representative Longworth, the republican leader, told him yesterday, explaining the parliamentary as too involved to permit speedy consideration of such a resolution. Mr. Longworth indicated later, however, that if action on the revenue bill should be delayed or if it should fail of enactment, the proposed separate resolution then would be passed.

Most of the small taxpayers already have made their first payments, he added, and, therefore, separate action now would be of little benefit.

Democrats in both the senate and house criticized the president for his request and Representative Hull, Tennessee, chairman of the democratic national committee in a statement declared "the utterly belated tax measure of the president is in harmony with his past record of delay when confronted either by an important problem or by an emergency situation."

SHOE SHOP SHUT DOWN

BROCKTON, March 13.—Lack of orders was today given by H. L. Thirkham, vice president and treasurer of the W. L. Douglas Co., as the reason for announcing the complete shutdown of the firm's No. 3 factory.

MAGNESIA BEST FOR YOUR INDIGESTION

Warns Against Doping Stomach With Artificial Digestants

Most people who suffer, either occasionally or chronically from gas, sourness and indigestion, have now discontinued disagreeable diets, patent foods and the use of harmful drugs, stomach tonics, medicines and artificial digestants, and instead, following the advice so often given in these columns, take a teaspoonful or two of tablets of Bisurated Magnesia in a little water after meals with the result that their stomachs no longer trouble them, they are able to eat as they please and they enjoy much better health. Those who use Bisurated Magnesia never dread the approach of meal time because they know this wonderful anti-acid and food corrective, which can be obtained from any good drug store, will instantly neutralize the stomach acid, sweeten the stomach, prevent food fermentation, and without the slightest cost point or discomfort. Try this plan yourself, but be certain to get pure Bisurated Magnesia especially prepared for stomach use.—Adv.

RHEUMATISM PAINS QUICKLY ENDED BY RED PEPPER HEAT

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion and the old rheumatism torture in knots.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar, backache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.—Adv.

NOBODY LIKELY TO GO TO PRISON IN BIG OIL SCANDAL

BY CHARLES P. STEWART,
N.E.A. Service Writer

WASHINGTON, March 13.—Is anybody apt to go to prison on account of the oil scandal? Nobody, for instance? Or Sinclair? Nobody in Washington thinks so. It's just possible he may be prosecuted. But not probable. Still less so that he'll do time.

There'll be civil suits. The government will try to get back Elk Hills, Teapot Dome and land the Standard Oil company of California holds. Doherty has lost his job. Doubtless doubtless will lose his. Other jobs may be lost. There'll be a political effect, maybe a third party, maybe a chance for the house of representatives to elect the next president.

But jail for anybody? Not a bit likely. The oil investigators have taken most of a week going through the Washington telegrams sent to E. B. McLean, millionaire newspaper man, at Palm Beach last winter.

Why so much interest in McLean's telegrams? Well, when the oil inquiry started, ex-Secretary of the Interior Fall, naturally objecting to have it known that he borrowed \$100,000 from Doherty just before handing him Elk Hills, got McLean to pretend he had made the loan, which had to be accounted for somehow, because Fall had used the money to buy a ranch and questions were being asked.

When the deceit leaked out McLean was afraid it would be made very unpleasant for him on the witness stand before the investigators. So he did his best not to be called. Hundreds of messages were sent to him, telling him what the prospects were.

The investigators reckon that a man who was willing to try to help Fall out, as McLean tried, must know a lot about the whole case. They're trying to learn from his telegrams just what he did know. They want to know, too.

Senator Heflin got an idea that two of McLean's telegrams were from President Coolidge. Investigation proved that he was right. The president explained, however, that one of them was about the appointment of a commissioner of the District of Columbia; the other thanked McLean for complimenting a speech he had made. A big surprise has been made because they were from the president, but they don't appear to have much to do with oil.

Some of the oil investigators don't get along very well together. Senators Leavitt and Smart are accused of trying to hush the inquiry up.

Then somebody started the story that Senator Walsh had been corresponding with Doherty. Walsh promptly read the correspondence. It seems he called Doherty's attention to a letter from a man who wanted to

interest some capitalist in Montana oil. Doherty said he would be interested if Walsh would go in, too. Walsh said he couldn't; he was a senator and it wouldn't be right—wouldn't look well, anyway.

It all happened before Doherty's and Fall's names were linked. Doherty says he won't even lose Elk Hills. He declares the inquiry is "all politics." He admits it's been made to look bad for him. But when the matter gets into court, he expects all confidence that he'll come out all right. He adds that the government did better on his lease than on a lot of others it's made.

AWAIT FURTHER WORD OF SANTIAGO'S FATE

NEW YORK, March 13.—Ward Line officials today awaited arrival of the Norwegian steamer Cissy at Baltimore for details of the loss of their freighter, the Santiago, which yesterday was reported sunk 50 miles south of Cape Hatteras, with 24 members of her crew.

No further word of the Santiago's fate has been received since the Cissy's captain sent a wireless message to the Ward Line offices announcing that he had picked up in a lifeboat 11 men of the vessel's crew of 35. The Cissy's captain reported that he had seen no other boats in the vicinity.

CHARGE NOTICE FROM EXPERIMENT STATION

Massachusetts Agricultural college experiment station has notified Middlesex county farmers that in the future, where agricultural activities are primarily commercial in their nature or which rank as service to the individual rather than for the public good, is seems logical to make a reasonable charge for analyses of soils, fertilizers, etc., and also examinations of diseased farm animals. The experiment station had adopted this policy because it believes that only analysis work is performed for the general public good should be done without charge as in the past.

Dreant farmers, some of whom have trained their sons at Massachusetts "Aggie," have received blue notices from Director Sidney B. Haskett today, announcing the new methods of procedure at the experiment station.

Jews Will Celebrate Feast of Purim

Lowell Jewish-speaking citizens are to celebrate the Feast of Purim in homes and synagogues, March 19 and 20, with the usual programs provided for the annual ceremonials. In many respects, Purim of all the Jewish festivals on the calendar is the least religious in character. The story is told in the Book of Esther. Some Jewish writers have said that when the prophetic and sacred writings of the Jews are forgotten, if ever they are, the Book of Esther will be remembered and the feast of Purim maintained.

Many Jewish communities plan Purim dances and other social events, for solemnity is not to rule the Purim observance programs. Except when the first formal rite at the reading of the Book of Esther in the synagogue.

Rabbi Elias Wolfson of the Jewish synagogue (Oshet Sturd) at 145 Howard street, and Jewish synagogue (Sons of Montefiore), 133 Howard street, will conduct the annual services. Services will also be conducted in the usual way and formal ceremony of faith in the Jewish synagogue (Khalos Jacobs), at 5 McIntyre street.

In the light of the interpretation,

the festival of Purim is significant. Home, religious school, social clubs, etc., are preparing to observe the feast in accordance with this tradition, in case it happens that no special service be held in the synagogue. In that event, the Sabbath preceding Purim there will be special prayer, and only portions of the Book of Esther will be read.

Local Jewish citizens will for the most part celebrate the Purim feast on Wednesday evening, March 19. For those who adhere to the older traditions, there will be special services of solemnity Thursday morning, March 20.

MEETING POSTPONED

Middlesex County Extension service leaders, who had been prepared to hold an all-day rally in Dreant Congregational church, today, decided to postpone the scheduled meeting until a later date, because of bad traveling conditions that would prevent many county farmers and their wives from attending. No date has been named for the proposed meeting, but announcement will be made in a few days.

SCARFS USEFUL

Scarfs this season are usually adaptable so that they may be worn with a street frock to give warmth and protection and as a part of the frock when inside.

OPERATION RESTORES HOPELESS CRIPPLE

BOSTON, March 13.—After being looked upon as a hopeless cripple, Matthew Meyers, a patient at the Long Island hospital, is recovering, and will be restored to a measure of usefulness in industry by a feat of orthopedic surgery recently performed upon him by Dr. George K. Carpenter, attached to the staff of the Long Island institution, according to Dr. David J. Johnson, head of the institutions department of the city.

Meyers was suffering from a fractured arm and a fractured leg of long standing and was helpless, being unable to walk or even feed himself. Dr. Carpenter is said to have bored a large hole through the ulna of the broken forearm and to have inserted the end of the humerus or upper bone through it in such a way as to give considerable up and down motion to the arm and a great deal of freedom so far as twisting motion is concerned.

Into the large bone of Meyer's diseased leg a Y-shaped section cut from his shin bone was inserted. The femur or thigh bone had been broken in the middle, in the same accident, some years ago, in which the man sustained in-

jury to the arm. He was unable to stand or bear any weight on it, but as a result of the operation, it is said he will have full use of it again.

\$100,000,000 CREDIT FOR BANK OF FRANCE

NEW YORK, March 13.—Fortified by the \$100,000,000 credit established here for the Bank of France, the French franc mounted 15 points to 135 cents at the opening of today's foreign exchange market and then scored another 11 points to 145 cents. The rise, following earlier gains in London, was accelerated by a rush of short covering.

PARIS, March 13.—The statement of the Bank of France, issued today, showed a total of notes in circulation of 39,929,306,000 francs, a decrease of 335,132,000. This compares with an increase of 921,525,000 francs during the preceding week.

Captain and crew of freighter Santiago believed to be lost after ship founders off Cape Hatteras in Tuesday's storm.

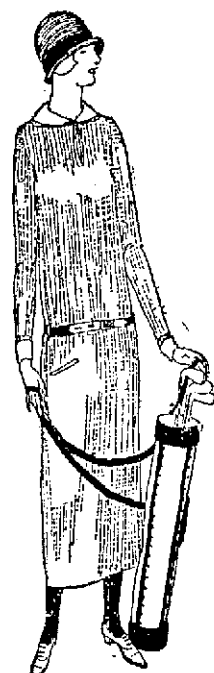

SHIP CIRCLES STIRRED BY SEIZURE OF STEAMER

NEW YORK, March 13.—Steamship circles today were stirred by the news of the seizure by customs officials of the Royal Mail Line's crack steamer Orduna, late yesterday under orders of the treasury department which alleged violation of the customs law, the federal narcotics act and the prohibition law. Operators asserted that in their opinion action of the government in seizing a British ship had raised serious issues.

Oil Scandal Produces Another Presidential Possibility

Copyright Harris & Ewing

JOSEPH DANIELS

BY N. E. A. SHAFER
BALTIMORE, Md., March 12.—Oil scandal has produced another possibility of a new president. Joseph Daniels, secretary of the navy, has been named as a possible successor to President Harding.

For instance, there is Joseph Daniels, now favored by many Democrats as the nominee of their party.

His friends point to his character, proved in Washington as proof of his fitness.

Wan Reorganization

He was the only one of Woodrow Wilson's cabinet to survive, throughout that president's two terms. When

he became secretary of the navy he was frequently ridiculed. What was he but a country newspaper editor, a lawyer who had never practiced?

His experience in politics had been confined to membership of a number of Democratic national committees and to the direction of publicity in Wilson's 1912 campaign.

But Daniels was secretary of the navy during the World war, and the navy, under his leadership, covered itself with glory. Criticism and fire did not worry him. He had a fleet of destroyers ready to rush to the North sea when war was declared. And when Daniels emerged from

the cabinet he was recognized as an efficient administrator, praised by critics and commended by investigators.

So much for his war record. But the Teapot scandal reveals a new Daniels. While he was secretary of the navy he refused to let anybody take the navy's oil.

Even after he was out of office he tried to prevent the transfer of leases. Two years ago he wrote a letter to Senator La Follette in which he told how the navy had been brought against him and how he had fought to preserve the oil reserve intact.

Opposed Leases

"In my judgment," he told La Follette, "should be leased and congress should set a face of flint against the present exploitations."

Daniels was born in Washington, N. C., May 18, 1862. At 18 he was editor of the Wilson N. C. Advance. In 1882 he was made editor of the Raleigh State Chronicle, and in 1891 he consolidated that newspaper with the News and Observer, of which he has been editor ever since.

He was the most accessible man in the cabinet to newspaper men. Always smiling, always ready with an answer to any question.

His nature and his appearance made him a ready subject for lampooning. A little, gray man, with crinkly lines in his face and eye-sockets. Black string ties and plain gray clothes. No pretensions of dandyism about him.

And he nearly always carried an umbrella, even when he went to the White House to cabinet meetings.

Defied Court

Daniels is fearless. He showed it when he took the group out of the navy.

He had criticized Judge Purnell for appointing receivers for the Atlantic and North Carolina railroad. He was adjudged guilty of contempt and fined \$2000. He refused to pay the fine and was arrested. Later he was dismissed from the charges by Circuit Judge Pritchard.

His last day as secretary of the navy Daniels was asked what he was going to do.

"Pack up and take the train for Raleigh," he replied. "In the morning breakfast with Mrs. Daniels and then back to the newspaper office."

"But with you experiences, your services ought to be in demand at a big price. You ought to get a hundred-thousand-dollar job."

"Maybe," said Daniels, "but I've held up a good many fat contracts and prevented certain gentlemen from making millions out of our Uncle Sam. Those men don't want me, and the folks I know and like best haven't got any hundred-thousand-dollar jobs."

JUMPERS, SWEATERS

Hand-knit jumpers and sweaters are to be very popular this season and the new wools take into consideration all the latest shades.

Between the long tight sleeve and the open armhole that requires no sleeve there is practically no alternative.

Radio Photographs

RADIO ATTRACTION THIS EVENING

One of the feature attractions "on the air" tonight will be a broadcast of the Moscow Bat troupe's presentation of Balloff's "Chance-Sounds" from the stage of His Majesty's theatre, Montreal, Canada, through station WJAZ. This broadcast marks the anniversary of the Moscow Bat troupe, celebrated every four years in accordance with the Russian custom, and is the first celebration held since the company left Russia in four the world.

Prior to the curtain for the first act, Balloff will broadcast an address of appreciation to the cities in the United States where the troupe appeared.

WJAZ is a powerful 2000 watt station and is heard consistently in this section of New England. Efforts are being made by the management of the station to have other broadcasts in eastern Canada observe a "silent" period so that the broadcast will be heard in Great Britain as well as in Canada and this country.

6:10-9:30 p. m.—Silent period to allow listeners to listen for British programs.
9:30 p. m.—Second lecture in course in musical appreciation by R. E. S. Olmstead.
10 p. m.—Organ recital by Frederick Johnson, broadcast directly from Jordan hall, Boston, through the Hotel Brunswick studio; Alkeret, Choral in A minor, Chant de May, Scherzo.
10:30 p. m.—Recital by Miss Grace Fowley, lyric soprano, and Mrs. Viola Grant, contralto, in broadcast from the Hotel Brunswick studio.

TELEPHONES ARE STILL OUT OF ORDER
Two hundred and fifty telephone lines in the Lowell district serving 1000 subscribers, put out of commission by Tuesday's storm, are still out of order today, according to Manager C. J. Leathers, but it is expected that all will again be in operation by Saturday at the latest. The telephone repair crews have been working steadily since the cessation of the storm yesterday and will continue until every subscriber in the district has telephone service again.

HELMONTS' DANCE TONIGHT

Tonight in Highland club hall, a dancing party will be held under the auspices of the Helmonds, and will feature the Helmonds' dance orchestra, with Guy Dunbar, late of R. F. Kith's circuit, and Harry Rannou, formerly with Murphy's dance carnival orchestra at Hampton beach.

Rheumatism LEAVES YOU FOREVER

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenbury, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenbury has been tried and tested for years and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenbury, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenbury decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. A. W. Dows and Co. can supply you. —Adv.

"AT 75 — NEW LEASE OF LIFE BY INTERNAL BATHS"

Mr. B. Shain of Santa Cruz, Cal., writes to the Tyrrell Hygienic Institute of New York, as follows: "My wife and I will be 75 years young next birthday and considering that the 'J. B. L. Cascade' has given us a new lease of life, for we now enjoy the best of health. We were going down hill fast, but the Cascade has given us such health as we have not enjoyed in years."

The 'J. B. L. Cascade' cleanses the lower intestine. He entire length and keeps it always free of poisonous matter.

Thousands testify that Constipation, indigestion, Stomach Troubles, Bilelessness, Headaches and all the many serious troubles which they cause are absolutely relieved and prevented by this Nature Treatment.

We will gladly explain to you the simple operation of the 'J. B. L. Cascade' why it is so certain in its results, and will give you free of cost an interesting little book containing the results of the experience of Dr. Chas. A. Tyrrell of New York, who was a specialist on intestinal complaints for 25 years in that city. Get a free booklet at L. K. Liggett's Green's Drug Store.

ture Bachelor's Country Club orchestra, with Guy Dunbar, late of R. F. Kith's circuit, and Harry Rannou, formerly with Murphy's dance carnival orchestra at Hampton beach.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating the into natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 30c. Adv.

84 YEARS AGO

THE TALBOT DYEWOOD AND CHEMICAL COMPANY

38-44 Middle St.

WAS ESTABLISHED

38-44 Middle St.

It was not our intention to do a Retail Business, but as people persuaded the owners to sell them a few pounds of Chemicals, taking same out of the wholesale stock, the news spread and finally it became necessary to open up a retail counter. Business has so increased that we have had to enlarge our retail store, to meet the ever growing demand for our products.

We Cordially Invite You to Attend The

OPENING SALE OF OUR ENLARGED STORE

AULD LANG SYNE

Should auld acquaintance be forgot,
And never brought to min?
Should auld acquaintance be forgot
And days o' auld lang syne?

For auld lang syne, my dear,
For auld lang syne,
We'll take a cup o' kindness yet,
For auld lang syne.

We twa hae run about the braes
And pu'd the gowans fine;
But we've wander'd many a weary foot,
Sin' auld lang syne.

We twa hae paidl't i' the burn
From morning sun till dine;
But seas between us braid hae roar'd
Sin' auld lang syne.

And here's a hand, my trusty fere
And gie's a hand o' thine,
And we'll tak a right gude willie-waught
For auld lang syne.

And surely ye'll be your pint-stoup
And surely I'll be mine;
And we'll tak a cup o' kindness yet,
For auld lang syne.

—Robert Burns.

Are You a Tired Out Housewife?

Many people do not realize that the most exhausting of all work is housework and the care of children. Many a woman who should be in the prime of life finds her strength gone, her nerves unstrung and is weak, worn out and run down with pale, thin, watery blood from the strain of housework.

In such cases, what you need is something to put more iron into your blood. Nuxated Iron contains iron like the iron in spinach, lentils and apples, and like the iron in your blood. You will be astonished at how much better you feel after even a few days.

Try taking Nuxated Iron for two weeks, and you will see color come back to your lips and cheeks, you will not be so easily upset by trifles, and best of all, you will find that you have new strength and energy and endurance for your daily tasks. At all good druggists.

OUT OUR WAY

MAJOR CHEEVERS HAS A LOT
TO LEARN ABOUT THE
PERSONNEL OF TROOP L.

FOREIGN WAR VETERANS
SEEK NEW QUARTERS

Members of Walker-Rogers Post No. 562, V. of F. W., are endeavoring to secure better quarters for meeting purposes. Memorial hall has been under consideration. When quarters are secured so regular meetings can be held at stated intervals without interruption, furnishings will be installed, with rack for rifles, desks, closets, color cabinets, etc. The latter are now being prepared for placement when the new post quarters are opened.

Junior Vice Commander John Shea reports the purchase of coffee mugs for veterans' party rally night festival. The membership committee reports one new member enrolled. Enlistments have been coming in regularly, small numbers at a time. The campaign committee is doing a lot of work seeking new members in this vicinity. Commander Caddell is anxious to make the Lowell post a leader in V. of F. W. activities in Massachusetts. Postal cards have been distributed to members, asking them to send in the names of eligible men for membership in the Lowell organization.

The V. of F. W. national legislative committee has formally presented its suggestions covering a complete program of relief for disabled World War veterans, and the problem is now being taken up for solution, by the soldiers at Washington.

Ladies' auxiliary of Walker-Rogers post, reports large sales of tickets for their annual "Leap Year" party and dance, to be held in Highland hall, March 17.

WILLIAM A. MITCHELL
GOES TO TEXAS

William A. Mitchell, former agent of the Massachusetts cotton mills, has gone to Houston, Texas, to assist in the supervision of the erection of a new textile plant there, of which he later will be part owner and general manager.

A little more than a year ago Mr. Mitchell left the Massachusetts and went to China, where it was believed American interests would erect a big mill, but upon an adverse report he returned to this country and since then has been in Lowell most of the time.

As announced in this paper yesterday, the Mitchell residence in Mansur street has been purchased by Ames Stevens.

LAMBERT WINS BOY
SCOUT MERIT BADGE

Winning his 21st Boy Scout merit badge, John H. Lambert, Jr., the son of Dr. John H. Lambert of Wampanoet street, has attained the rating of eagle scout and the distinction of being the only Lowell youth to reach that far in scoutdom. He has been a scout for six years and within a few days attains his 18th birthday. This birthday will carry him from the ranks of the Boy Scouts but he leaves a record worthy of emulation.

Edwin J. Mollen, scout executive, is believed to be the only other local resident ever to attain the rank of eagle scout and he won his laurels elsewhere.

LOWELL EAGLES
VISIT LAWRENCE

A delegation of more than 50 members of Lowell Aerie of Eagles last night attended a bazaar being conducted by Lawrence Aerie in the Winter Garden in the downriver city. The Lowell delegation left this city early in the evening in a special car and were the guests of Lawrence Aerie for several hours. Worthy President Thomas P. Quinn was in charge of the Lowell party.

DETACHABLE COLLARS
Paints, detachable lingerie collars that give a note of freshness to any suit or gown are featured in all spring and summer styles.

Y. M. H. A. JUNIORS
HOLD MEETING

The bi-monthly meeting of the Y.M.H.A. Juniors was held last night in their clubrooms. Reports of the various committees were read and the following were nominated for officers:

of the club: Edward Freedman and Barney Gerson, president; Remon Greenbaum and Harry Cohen, vice president; George Bloom, recording secretary; Myer Green and Myer Solomon, financial secretary; Hyman Kaplan and David Zall, treasurer.

An entertainment followed the meeting.

A dose at bedtime of
DR. CALDWELL'S
SYRUP PEPSIN
Made them feel jolly again

Good Health In Happy Old Age

THE chief concern of elderly people is their health, and that is best assured by regular daily bowel movement. There is no truth, however, in the notion that because you are old you need a "strong physic." In fact, just because you are old a mild laxative is better for you. The trouble with purges and cathartics and physics is that they shock the system and weaken it, not make the muscles of digestion pliable. Dr. G. H. Brown, V. S., of Frederic, Wis., nearly wrecked his stomach with purgatives. Dr. Caldwell's Syrup Pepsin restored his health, as it did Mrs. J. S. Etheridge's, of Milledgeville, Ga.

Does Not Gripe

You can be sure of satisfactory evacuations every day if you will take a spoonful of Syrup Pepsin at night when you retire. You will not need to take it very long as a few doses will soon encourage the bowels to net for themselves. The popularity of this wonderful family remedy has become so great that it is now the

largest selling liquid laxative in the world. Because of its mildness and freedom from gripping it is especially ideal for the extremes of ages, for children and for elderly people.

Effective at Small Cost

Get a bottle of Dr. Caldwell's Syrup Pepsin at any drug store. The formula is on the package, and the cost less than a cent a dose. Take it when you feel heavy, sleep poorly, have headache or night cramps; for these are also symptoms of constipation. Give it to the children when they are restless, feverish or have a cold. Syrup Pepsin will keep you and the family free from constipation, a condition that lowers the vitality 25 per cent and raises the blood pressure 28 per cent. Freedom from constipation lessens the pain of kidney trouble, neuritis and rheumatism.

*****If You Want to Try It Free Before Buying*****
Syrup Pepsin, 317 Washington St.,

SAFETY WEEK CAMPAIGN

Small Attendance at Opening Rally Held Last Night in Liberty Hall

Uncertain weather and rather deplorable traveling conditions were doubtless responsible last night for a very slim attendance of Lowell citizens previously summoned to appear at a rally conducted under the auspices of the Lowell Safety Week committee in Liberty Hall, Memorial Auditorium.

Twenty-two persons, including two public-spirited women, participated in a general discussion of safety first and safe roads programs of modern delineation. All agreed that Lowell should take the forward step and actively prove its desire to spread the cause of life-saving, yet so far as immediate organization of a local program is concerned, it was plainly in evidence last evening that until a larger number of both well-wishers and active supporters of the safe roads movement can be gathered together in conference, little real progress toward an elaborate observance of "Safety Week" in May, as proposed, can be made.

Lewis E. MacBrayne, general manager of the Massachusetts Safety Council, with which is affiliated the Safe Roads Federation, local safety councils and co-operating women's organizations, with headquarters at No. 4 Beacon street, Boston, presided at last night's meeting, came to explain the latest programs of leading sponsors of the safer roads movement, but plainly disappointed at the apparent lack of support as exhibited by last night's small attendance of Lowell citizens.

Secretary-Manager George F. Wells, of the chamber of commerce, who has given a great deal of his time and energy to enlist representative Lowell citizens and various social, civic, business and charitable organizations in the program for real co-operation in the plans formulated for a safety week campaign in Lowell, opened the meeting.

He explained the vital purposes of the call and reviewed the efforts that have been made to arouse public interest in a substantial campaign that would put Lowell on a plane with other large New England cities and towns. Extraordinary good work has been done outside of Lowell in preserving human life by not only regulating traffic, but keeping the public better informed of the dangerous hazards that are to be met with today on all traffic highways where automobiles are operated.

Among the few but earnest believers in a vigorous safe roads campaign in Lowell, provided such a campaign shall first receive solid support from representatives of every walk of life, and who were present last evening to participate in the rally, were Chief Edward F. Saunders, of the Lowell fire department; Chief Thomas R. Atkinson, of the police department; Major Walter R. Joyce, of the Lowell Boys' Club; Councillors Maurice Lambert and John W. Daly, and Manager C. J. Leathers of the E. T. & T. Co.

The speakers' list contained the name of Ralph A. Hight of Somerville, who has driven an automobile for several automobiles, more than 600,000 miles during the last 20 years and without a breath of an accident, which appears to be a record.

By a curious whim of fate, another ambitious speaker had put on his intended trip from Boston to Lowell and he was compelled to send regrets via Mr. MacBrayne.

It appears that Gen. Alfred P. Foote essayed to pilot his motor car late yesterday afternoon through Boston town in the March storm aftermath, but met with disaster when he collided with another street vehicle, damaging his car so badly that it had to be towed back to the Hub, thus cancelling the general's Lowell trip for the time being. He is to come to Lowell and address the next meeting of the Lowell Safety Week committee, however, if another meeting is held. Gen. Foote is state commissioner of public safety and had an interesting message to deliver in Lowell last evening.

Mr. MacBrayne, opening the public meeting in Liberty hall, confessed that he had hoped to see more Lowell citizens present, but realized that weather conditions were quite abominable and such reasons for absences were quite acceptable. The safety council manager described the lecture courses that are now being given under council auspices in various cities, such as Boston, Franklin, Salem and Milton. A motor vehicle drivers' course is also being extended to many chauffeurs and would-be chauffeurs under the joint auspices of the Safe Roads Federation and the Boston Y.M.C.A.

The council representative declared that he sincerely hoped last night's meeting was not an indication that the local safety week's committee plans will not be carried out. He advised, nevertheless, that no formal plans for a city-wide campaign be attempted until complete co-operation of all interested citizens can be definitely secured.

Secretary-Manager Wells, who spoke briefly after Mr. MacBrayne had presented startling statistics covering both fatal and serious-injury accidents on Massachusetts highway in past months, approved of the MacBrayne suggestion that a formal action for the coming proposed "Safety Week" campaign be instituted until a meeting has been held with larger attendance, in order that the views of those not present last evening may be secured and weighed in the formative analysis.

Mr. Hight told the story of the birth of the automobile, compared today's motor vehicle with the curious models of 20 years ago and traced their expansion in the development of marvellous machinery and power equipment. Speaking of the early days in automobile history, Mr. Hight continued:

"Accidents twenty years ago were practically unknown because the cars could not be driven fast. The roads were also poor, and the increase in the auto put the fear of them into both children and adults. The cars of that period were so complicated that the operator could do nothing else but keep his attention upon the car and the road. Today the thousands in motor cars upon our highways are a part of our daily life.

"The driver of today is too confident. He seems to feel that his responsibility ends when he passes the state examiner. The law says, for example, that at an intersection the car on the right has the right of way. How many times have you seen cars racing to beat the other fellow to this point of intersection?

"How many times have you blown your horn at the crossing without lowering your speed, expecting that the other fellow would stop? How many of us, right here tonight, in approaching a railroad crossing, take a chance because the motor cars in front of us have gotten by all right?"

"I have driven motor cars nearly 600,000 miles in the past 20 years. I have seen a large number of accidents and have traced many of them to their source. I honestly believe that the greater number were avoidable."

Major Joyce, of the Boys' Club, asked to present his ideas on "Safety Week" prospects, said he had always been in favor of a well-organized campaign in Lowell, was supporting it to the best of his ability and knew that the Lowell Rotary Club was also strongly backing the movement. As a member of Rotary, he said he would do all he could to secure a good working organization to promote safe roads in Lowell and vicinity, and he believed in making this statement that he was voting the sentiment of individual motorists, although he did not want to appear as officially representing Rotary last evening in the capacity of message-bearer to that effect.

Mr. Joyce said he was deeply interested in the campaign to boost the Safety Week program in Lowell, because of his love for little children. He is today in charge of Jewish children's quarters where sometimes as many as 1,200 boys rally in to play, sports, clean play, and his heart goes for them, he added, when they go forth after playroom hours to scamper to their homes through the city thoroughfares often crowded with automobiles moving in every direction.

Police Chief Atkinson said he approved wholeheartedly of Safety Week plans, but believed that solid support must be given to the proposed movement before it can possibly succeed.

The chief and Mr. MacBrayne had a good-natured tilt over the Lowell automobile accident averages taken from yearly safety council summaries where human beings have been killed or injured. The safe roads committee has placed Lowell in seventh place in 1923 as a city where auto casualties have increased. In 1922, Lowell had the honor of leading all cities with a lowest casualty record.

Chief Atkinson disputed the statement that Lowell's casualties had increased last year, and Mr. MacBrayne explained that the summaries were possibly not up-to-date.

Dr. Harry E. Plunkett, Manager C. J. Leathers and Arnold Ryan spoke briefly.

It was decided not to set a definite date last night for another meeting in the interests of a Safety Week in Lowell in May, until the sentiment of various representatives of leading Lowell welfare and other organizations can definitely be secured. Further activities will be held in abeyance for the present until the newly-organized Lowell Safety Week committee announces its plans.

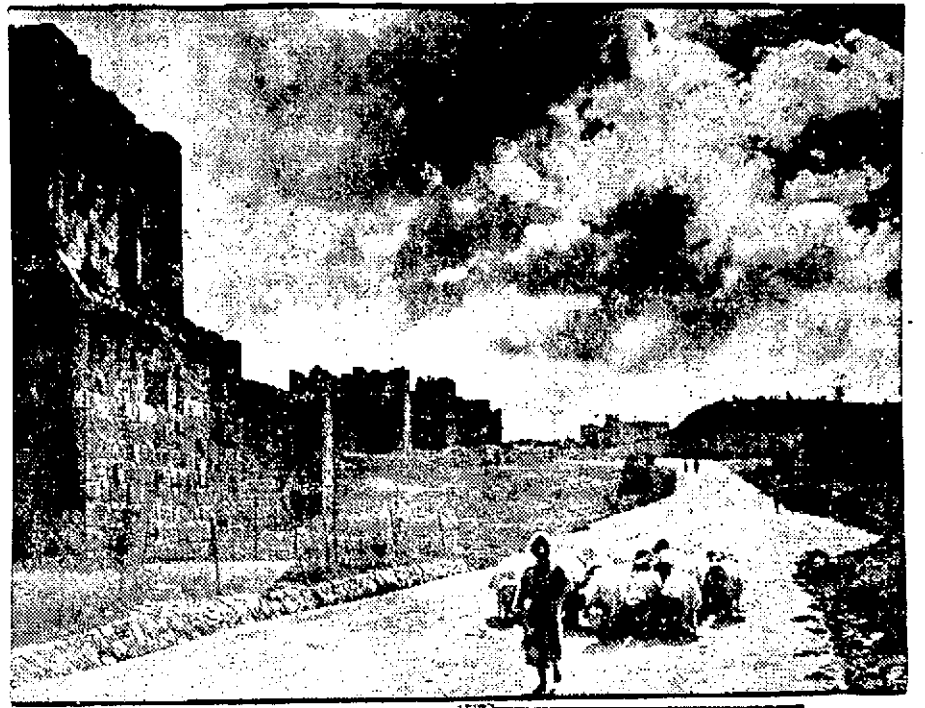

Alkali in Shampoos Bad For Washing Hair

Many soaps and prepared shampoos contain too much free alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best shampoos for this are pure and entirely greaseless. It is inexpensive and beats anything else, all to pieces. You can get this at any drug store, and a few corners will last the whole family for months.

Two or three teaspoonsful is all that is required. Simply moisten your hair with water and rub it in. It makes an abundance of rich, creamy lather, which changes thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to manage. Besides, it lathers and takes out every particle of dust, dirt and dandruff.

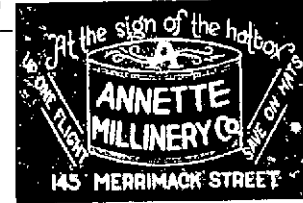

LENT IN THE HOLY LAND

North Wall of Jerusalem and the road some archaeologists declare Jesus traversed on his way to crucifixion. The little hill to the right is said by these historians to be the actual scene of Christ's death, as they point out that it was here that public executions were held in the days of Pilate.

OPPOSITE POLLARD'S

Over McEvoy's Optical Store

The Greatest Millinery Sale Ever Held in Lowell
Will Begin Friday, March 14th at 9 A. M.

Alterations in our Warren, R. I., store cannot be completed in time for the Spring opening. You Can Do It Better With Gas

Gas Light Weathers All Kinds of Storms

In winter and summer, spring and fall, regardless of weather conditions, gas is always ready for instant use.

The winds may blow, storms may rage, it may be freezing temperature, or it may be sultry summer weather, but no matter what the conditions are, you can always depend upon the supply of gas.

In the store, the X-radio light makes the interior cheerful and comfortable. Its equal diffusion is indeed restful to the eyes, which are most always overworked in these days of twentieth century progress.

In the factory, the same condition holds good where employees are confined for many hours a day.

In the home, the housewife, more than anyone else, appreciates the soft glow of a reflex light in the kitchen.

Gas may rightfully be called the Ever-Ready source of light and heat.

And we are ever ready for a storm of orders.

Lowell Gas Light Co.

Cubs May Trade Hollocher for Maranville — Friedman and Sheppard Ready for Bout

TALK OF TRADE OF HOLLOCHER OF CUBS FOR MARANVILLE OF PIRATES

Fears Are Rife That Manager Chance Will Be Unable to Join White Sox Before Opening of Season—Regulars and Yanigans of Phillies Battle to 10-Inning Tie

CHICAGO, March 12.—Fears are rife that Manager Frank Chance, ill in bed at Winter Haven, Fla., that he will be unable to join the team before the opening of the season here next month. Chance's plan to join the team Saturday was set aside yesterday when physicians refused to consent to his departure.

Until Chance reports the team will be in charge of Johnny Evers, with Secretary Harry Grabner acting as adviser.

Talk of trades is current in the Cubs camp on Catalina Island, Calif., with the expected arrival of Barney Dreyfus, of the Pittsburgh Nationals, with Hollocher, Cub shortstop, to be exchanged for Rabbit Maranville.

10-Inning Tie

PHILADELPHIA, March 12.—The regulars and Yanigans of the Phillies yesterday for the second time in less than a week, battled to a 10-inning tie at their training camp in Leesburg, Fla., the score being 10-10. Fritz Henrich, a rookie outfielder, made five hits and received a pass in six trips to the plate. Three of his hits were doubles. The Phillies are scheduled to meet the Brooklyn Dodgers at Clearwater, Fla., today, in their first exhibition game.

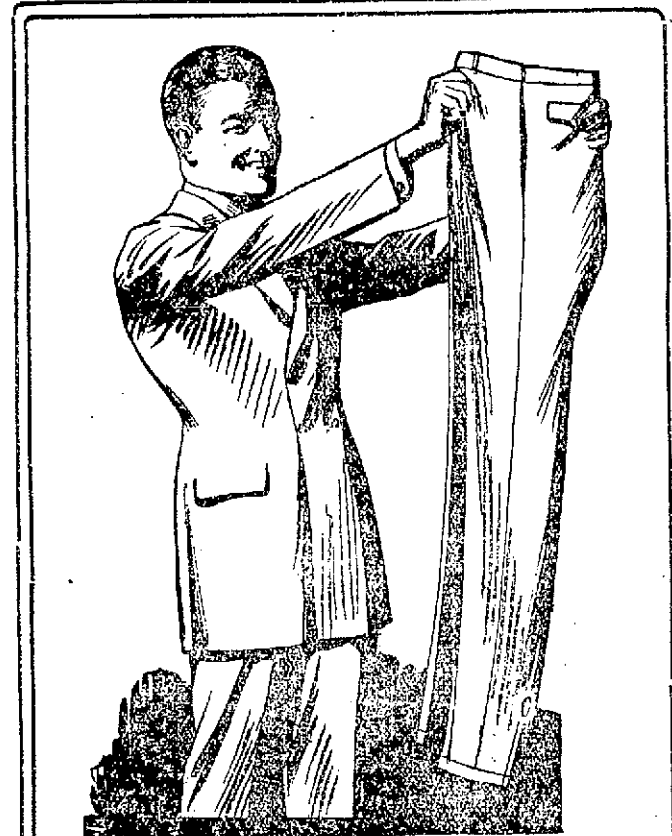

Reports from the Athletics camp at Montgomery, Ala., said the players gradually were rounding into shape. Bad weather has interfered to some extent with their practice. The first game between the regulars and Yanigans is scheduled for tomorrow.

Newel Still Nursing Injuries

NEW YORK, March 12.—All of the world's champion New York Yankees regulars were in training today at New Orleans, except Bob Newel, who is nursing injuries.

The regular roster was completed yesterday with the advent of Pitcher Walter Host. However, Pitcher Bob Shuckey, who is in camp, has not yet signed a contract and Earl Combs, a likely recruit, has been delayed in reporting.

Babe Ruth tried desperately to hit long distances but succeeded only in getting balls over the grandstand. He fouled so many which upset youngsters scouted up, that Manager Miller Huggins began to worry the bambino.

Men's two trouser suits in a sale at only

\$18.95

Blue and grey pencil striped young men's suits that usually sell for twice this price, together with tweeds and conservative worsteds, make this an unusual clothes buying opportunity.

Men's \$35 Overcoats Reduced to **\$11.95**
Men's \$55 Overcoats Reduced to **\$27.95**
Men's \$20 Overcoats Reduced to **\$11.75**

Our children's department, shoe department, hat and furnishing goods department all have joined to make the final wind up of our yellow tag sale the biggest money saving opportunity ever presented to the people of Lowell.

If You Would Attend Lombard; Brush Up on Tennis

LEFT TO RIGHT: ETHEL BOSWORTH, HANNAH MICHAELSON, BESSIE BRUNDAGE.

Good racket wielders at Lombard college have proved decisively that tennis has its place in the curriculum of the American girl student.

Lombard college, located at Galveston, Ill., has a number of enthusiastic players who through the college courts during the available playing hours in the hope that they may be sufficiently perfected to enable

them to rank well in the different tournaments which are held at the college throughout the year.

Belief that tennis may grow to occupy even a greater position of importance in the life of the college girl was expressed by Miss Margaret Steokley, director of women's athletics at Lombard.

By means of tournaments and class

contents interest in tennis has grown at Lombard during the present year.

Miss Steokley said, until special contests must be held during the year to accommodate all the tennis enthusiasts.

The coach at Lombard has proved herself a good tennis player and promises to give the men of the campus strong competition for honors this year.

SPORTS OF ALL SORTS

The Lowell lineup that will back Fred Dean's Providence polo team in the series which opens Friday night is expected to prove a formidable combination. It will mark Bill Duceau's first appearance in a Lowell uniform.

Duceau always liked Lowell and a year ago an attempt was made by the owner of the Lowell team to secure him in trade. It couldn't be done.

When signed up the other night after he was proclaimed the player of the week with Lowell, Duceau said: "Tell the Lowell fans that I am glad to be with them. I always wanted to play on a Lowell team. This is one city that appreciates the game."

While some of the fans have accused him of the razzberries on many occasions, Duceau has been cheering for his former team games are played. He is particularly pleased at the count in the game, which is being played in the city of Lowell.

When signed up the other night after he was proclaimed the player of the week with Lowell, Duceau said: "Tell the Lowell fans that I am glad to be with them. I always wanted to play on a Lowell team. This is one city that appreciates the game."

Hope of New York Giants to Win Fourth Consecutive Pennant Depends on Bushers

LEFT TO RIGHT, UPPER: ERNEST MAUN, HOMER BALDWIN, EARL WEBB. LOWER: JOE BRADSHAW, DAVE THOMPSON.

By N.E.A. Service
SARASOTA, Fla., March 12.—The hope of the New York Giants to win a fourth consecutive pennant in the National League depends on the star pitchers Manager McGraw has bought from the minors. They are now showing their stuff before the critical eye of the famous manager.

McGraw has started an intensive campaign which he hopes will develop two of his star "bushers" into regulars. Suddenly a major league manager is content if the crop of rookie pitchers produces one twirler capable of hold-

ing his own in the majors. McGraw is hoping for two of the recruits to come through.

Much interest at present is being taken in Ernest Maun, a husky right-hander who was the sensation of the Western League last year.

Pitching for Wichita, Kan., that team finished third in the race. Maun led the league with 26 victories and 11 defeats.

Howard Baldwin, who started last season with the Newark club of the International League, is another bright prospect.

Working for a near tailender, New-

York playing chess blindfolded on the coast. It may be just a coincidence, but this happens to be the way we like to attend chess battles.

A war has broken out in the ranks of amateur billiards, thus proving that war is not at all particular where they break out.

Information has been received at the local army recruiting station to the effect that Company D, First Engineers, one of the crack army units, is to be reorganized May 1st at Camp Devens. Under the reorganization plan, 100 men now on duty at Fort Dupont, Delaware, and 71 recruits will be needed from the first corps area to fill the ranks of the unit. The company will remain at Devens until fall, returning to Fort Dupont for winter duties.

The engineers, says Sergt. Kimball, local recruiting officer, offer many opportunities for enlisted men to get special ratings and I shall be glad to receive inquiries concerning qualifications for enlistment in this company from Lowell boys.

CANCEL SQUASH CHAMPIONSHIP
NEW YORK, March 12.—Lack of interest has forced cancellation of the national open squash championship scheduled to start next Saturday, it was announced today. It was understood professionals were dissatisfied with the purse offered.

Mr. Everest, in the Himalayas, is 29,000 feet high.

ark finished seventh with an average of .375, only six points out of last place. Baldwin was one of the most effective pitchers in the league. He won 21 and lost 15 games. Baldwin is a right-hander.

Joe Bradshaw, with Toledo, a bad tailender in the American Association, nearly broke even in the matter of victories and defeats. Lower Bradshaw, former owner of the Toledo club, now with the Giants as coach, predicts big things for Bradshaw.

Of the many other recruit pitchers working out, Earl Webb and Dave Thompson are well liked by McGraw.

There are, however, some athletes generally regarded as yellow who are doing such a reputation.

In the fight game much of the success of the man in the ring depends on the way he is handled by manager and seconds.

In baseball the diplomacy of the manager is constantly being put to the test in the handling of the different types of athletes making up his club.

Often poor handling of some star athlete causes him to be branded as yellow when, as a matter of fact, the question of courage had nothing to do with his failure to deliver.

The sensitive, high-strung athlete is often the type to be branded as yellow simply because he failed to deliver under a manager who knew only one method, the constant driving of his men.

Tough tactics and tobacco language never get results with the sensitive athlete. Such a system simply breaks his spirit. It causes him to be branded as yellow when he often has plenty of courage.

In a score of years in professional sport I have seen so many cases of this sort that I have a decided objection to the word yellow. With some people the fellow who fails in a pinch is always yellow. That's unfair.

In a majority of cases a man branded as yellow, failures, becomes a star when placed under the direction of a manager who knew types and handled his men accordingly, saving the sensitive and driving the thick-skinned.

Before officials from the main office reached the branch bank and rescued Webb, East Cleveland police worked for 20 minutes in an effort to rescue him, after Webb had shouted the numbers of the vault's combination through the steel and concrete walls.

\$10,000 LOSS BY FIRE AT HAMILTON

HAMILTON, March 12.—Fire today destroyed the Hamilton Wenham Grange building on Railroad avenue, causing a loss of \$10,000. The two-story wooden structure was occupied by the South Hamilton branch library and the restaurant of Daniel W. Kimball, on the ground floor and the grange hall above. The fire started from the explosion of a water heater attached to a stove in the library.

Billy Evans SAYS

"He's yellow." No expression is more abused in the sport world.

In all competitive sports the fellow who seems to quit under fire is branded as yellow.

In a great many cases the slow fit the individual, but often athletes are branded as yellow.

No greater disgrace could possibly befall any athlete than to be labeled yellow, a quitter. He soon becomes a marked man, more or less shunned by the rest of his profession.

Physical failure is readily forgiven, but lack of courage, never.

Recently it was announced that Al Reich would shortly meet Luis Figen in a bout to be staged in South America. Reich is one of the mysteries of the prize ring.

Reich is a marvel of physical development. Measuring over 6 feet, weighing about 210 he is fast and clever and packs a punch in either hand. He looks the part of the champion, every inch.

Some years back Reich gave great promise, he was touted as one of the best bets in the crop of heavyweights flourishing at that time. Reich never arrived.

In the gymnasium a wonder, Reich seemed to lose all his stuff the moment his opponent began to punch him.

It wasn't long before the critics who had predicted big things for Reich in fight circles withdrew their complimentary notices and said Reich should have been a diver instead of a fighter.

So gracefully did he reason the floor, lack of courage, inability to absorb punishment and fight to a no doubt.

Reich kept from reaching the championship class. Certainly he has every other requisite.

There are, however, some athletes generally regarded as yellow who are doing such a reputation.

In the fight game much of the success of the man in the ring depends on the way he is handled by manager and seconds.

In baseball the diplomacy of the manager is constantly being put to the test in the handling of the different types of athletes making up his club.

Often poor handling of some star athlete causes him to be branded as yellow when, as a matter of fact, the question of courage had nothing to do with his failure to deliver.

The sensitive, high-strung athlete is often the type to be branded as yellow simply because he failed to deliver under a manager who knew only one method, the constant driving of his men.

The fire started from the explosion of a water heater attached to a stove in the library.

"IN WALKED JIMMIE"

Clever Characterizations of Play by Edwin M. Whitney of Boston

Members of the Teachers' organization were pleasantly entertained at the monthly meeting of the organization in Colonial hall yesterday afternoon when a rendition of the play, "In Walked Jimmie" by Edwin M. Whitney of Boston, who took all 18 roles of the play and presented each characterization.

The play was described by Mr. Whitney as an unusual one and of exceptional interest to educators as it contains a considerable amount of applied psychology. In giving the play Mr. Whitney's voice interpretations as he spoke the lines of the various characters, his characterizations and his acting were pleasing to the audience.

The story of the play concerns a business man, head of the "Club-Hall Shoe Sales Shoe Company," who considers himself a failure and who is about to fail and lose his company via the bankruptcy route. Deep in the depths of despair, worried over the future of his crippled daughter, and staring the poorhouse in the face, he takes from the drawer of his desk a revolver and prepares to shoot himself.

Just as his finger stiffens to pull the trigger of the revolver, in walks Jimmie, with about \$1 to his name and several truckloads of unguishable optimism as his only other assets.

Jimmie dispels the sight of the revolver and takes it away from the depressed business man. After talking a while, the business man explains his troubles to Jimmie, who immediately volunteers his assistance.

As business manager of the concern, Jimmie meets the creditors and by his optimism and his ability to forestall demands for money by bluffing, he succeeds in pulling the company off the rocks and putting it back into line as a successful concern.

A short business meeting preceded the play and was presided over by Miss Mary E. Tobin, president. The formalities of electing officers for the coming year were gone through with and the present officers, headed by Miss Tobin, were re-elected.

Aliens Admitted at Rate of 4 a Minute

NEW YORK, March 12.—Aliens were admitted to citizenship at the rate of four a minute yesterday in the county courthouse under the pressure of applications which must be disposed of before Sunday, or be delayed until next year, because the federal appropriation expires Saturday. Officials are in Washington seeking funds from congress.

STORM WARNING
WASHINGTON, March 12.—The weather bureau today issued this storm warning:

"Advisory 10 a. m., southeast storm warnings displayed from Ray St. Louis, Miss., to Cedar Key, Fla., districts central at 8 a. m., today over northwest portion of the Gulf of Mexico and moving eastward."

IRISH OLYMPICS
NEW YORK, March 12.—Teams of Australian and New Zealand athletes of Irish descent will compete in the Aonach Tailann, the Irish Olympics, which will be revived in August, according to word received today.

PEARL BRACELET
The most popular bracelet at the present time is the one of many strands of pearls wound several times about the wrist.

The Armenians marked their secession from the Greek church by adopting it as their epoch. This corresponds to July 8, 552.

HYDRO DEVELOPMENT OF GRAND FALLS

FREDERICKTON, N. B., March 12.—The New Brunswick government will undertake hydro development of Grand Falls, on the St. John river, as a public ownership proposition. Provincial Premier Veniot announced today. The Grand Falls, near the Maine border, was formerly under lease to the International Paper Co., but the lease recently was cancelled.

It is intended to develop from 60,000 to 80,000 horse power. Premier Veniot said.

"The Thinking Fellow Calls a YELLOW"

Yellow Cab

A Winter Economy

Slush! Ice! Snow! Rain! Soggy under foot. Drizzling overhead.

Why not summon a warm YELLOW CAB and forget that it is winter? One of our reliable, experienced drivers will pick you up at your door and deliver you quickly and safely to your destination.

YELLOW CAB affords the maximum of convenience and comfort when the weather is at its worst.

YELLOW CAB CO. of LOWELL, is strictly a Lowell institution—owned and operated by Lowell men. GETTING YELLOW CABS are operated the YELLOW CAB WAY—known the country over to be the most efficient and economical. Ten cars available at R & M Station Stand—24 Hour Service—DAY AND NIGHT.

Hail them anywhere

Yellow Cab Co.

LOCAL LAWYER HONORED

Arthur L. Eno Appointed Special Commissioner for the Dominion of Canada

Arthur L. Eno, a prominent attorney of this city, has received distinction honor from the lieutenant governor of the Dominion of Canada in the form of an appointment as special commissioner for the Dominion in the United States.

The commission, which is dated March 4, 1924, is issued in the name of King George V. and signed by Lieutenant Governor Narbonne. Eno will provide the local attorney with power to receive in the United States, affidavits for use in any court in the province of Quebec, or any

ARTHUR L. ENO

need or document to be carried into execution in the province.

The commission reads as follows: George V. by the grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the seas, King of the Faith, Emperor of India.

To Mr. Arthur L. Eno of Lowell, Mass., U.S.A., attorney and counsel-at-law. Greeting:

Know ye that, respecting trust and confidence in your loyalty, integrity, and ability, we, of our especial grace, certain knowledge and mere motion, have nominated, constituted and appointed you, to receive, in the Dominion of Canada, affidavits for use in any court of the province or necessary for any deed or document to be carried into execution or to have its civil effect in the province. To have, hold, exercise and enjoy said office of commissioner and to receive affidavits with all and every the powers, authority, privileges, emoluments and advantages to the said office of right and by law appertaining during our royal pleasure.

In testimony whereof, we have caused these, our letters to be made patent and the great seal of our said Province of Quebec to be hereunto affixed. Witness our right trusty and well beloved, the Honorable Narcisse Pérodeau, Lieutenant Governor of our said Province of Quebec, at our government house, in our city of Quebec, in our said province, this 4th day of March in the year of our Lord, one thousand nine hundred and twenty-four and in the fourth year of our reign.

Mr. Eno, the new commissioner, qualified for his new office yesterday. He is the former secretary of the Auditorium commission and a prominent member of the C.M.A., the Y.M.C.A. and other fraternal and social organizations. His home is in Andover street.

The civil year in the British dominions exclusive of Scotland, commenced with March 1 until 1844, and from 1752 the civil year has commenced with Jan. 1.

ARMY MUSICIAN IN HONOLULU

Sergt. Timothy J. Kimball local recruiting officer, has received a letter from John J. Murphy, a Lowell boy now serving as an army musician at Schofield barracks, Honolulu, Hawaii. Mr. Murphy remarks upon the large number of Lowell men enlisting for service, as given in the Lowell papers which he receives regularly, and asks Sergt. Kimball to endeavor to get his unit in the Hawaiian Islands. His letter is exceptionally interesting as it describes the pleasures of life "out there" and Sergt. Kimball says he is perfectly willing to sign up a few musicians for service with Mr. Murphy if they can qualify.

JAQUES' CAPSULES for DIZZINESS

Dizziness results from an accumulation of waste products of digestion. Physical welfare depends on ridding the system of these poisons quickly. One or two Jaques' Capsules, with a swallow of water, are highly effective. Aid digestion, cury off waste, break up gas and tone up the entire digestive system. Only 60 cents for 12 days' supply. At all druggists or from JAQUES CAPSULE CO., PLATTSBURG, N. Y.

STOCK MARKET

NEW YORK, March 12.—Overnight announcement that American bankers had given a credit of not less than \$100,000,000 to the French government gave a strong tone to opening prices in today's stock market. General Electric advanced two points, 104 1/2, to 106 1/2. Union Pacific 13 1/2, and Norfolk & Western 1, while most of the standard industrials improved fractionally. General Electric gained 1 point, and the Electric Light & Power 1/2. A point or so were recorded by U. S. Steel, Republic Steel, American Can and Chicago Stock. New England, Texas, Mexico and Brooklyn-Manhattan Transit preferred, each dropped about 1/2.

Morning trading which had been rather lethargic in character was enlivened by the inauguration of dividends on Southern Railway common, that stock immediately jumping four points to 55, a record high, on heavy transactions. New 1924 dividends were established by Woodworth at 23 1/2, up 1/2. Further body at 21 1/2, up 1/2. Magnolia Copper at 55 1/2, up 1/2, and New York Dock at 25 1/2, up 1/2. The money available for stock market purposes, as reflected in the general rate of 4 per cent for call funds, was encouraged operations on the four side. Buying a DuPont which advanced 3 1/2 points, followed the reported accumulation of General Motors by banking interests, DuPont's the largest holder of General Motors stock. Strength of Southern Railway helped other rails. St. Louis Southwestern, Missouri Pacific preferred, and Washash preferred, each advancing more than a point.

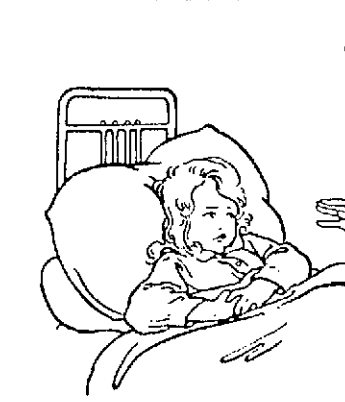

Southern Railway yielded on profit-taking after the dividend announcement. Prices did not yield much and when the market opened, they found stocks rather scarce and bid up several leaders sharply to get a supply, notably Baldwin, U. S. Steel and American Can.

Dependable Laxative for Sick Baby or Child — Harmless!

Hurry, Mother! Even a bilious, constipated, feverish child loves the pleasant taste of "California Fig Syrup" and it never fails to open the bowels. A spoonful today may prevent a sick child tomorrow.

FARM RELIEF BILL

Proposal for \$20,000,000 to Bolster Credit of Banks in Northwest Defeated

WASHINGTON, March 12.—A proposed appropriation of \$20,000,000 to bolster the credit of banks in the northwest was defeated today in the senate, where it was offered by Senator Burton, republican, New Mexico, as an amendment to the Northwest farm relief bill.

BRITAIN SEEKS FACTS ON SHIP SEIZURE

LONDON, March 12.—The British government has asked its embassy at Washington for a report of the facts concerning the seizure at New York of the Royal Mail line steamship Orduna.

It is generally understood that a report is being sought for the information of the foreign office rather than as a basis for protest. There is no disposition on the part of the British government to engage in a dispute of customs and narcotic laws of the United States and offending steamship companies. It is explained, can expect no support from the British government in such practices.

WASHINGTON, March 12.—Prohibition officials here believe the government has a clear cut case against the British liner Orduna, seized at New York, with liquor and narcotics aboard.

Commissioner Hayes said today that while there were many technical questions of law involved, the government was prepared to meet any protests by Great Britain.

Prohibition agents in conjunction with the customs authorities said Mr. Hayes had been working on the Orduna case for six weeks and made three separate "bays" on previous trips by the liner.

No action will be taken by the British embassy here until the report of the British consul in New York has been received.

With its accused subject the sailing of the present price was between different factions of milk producers in New England, a conference of dairymen and agricultural experts called by the New England Homestead Magazine opened here today. The meeting was arranged about three weeks ago when the New England Milk Producers' association cut the price of milk one cent a quart.

The establishment of a New England sales agency, to be conducted by telegraph, was proposed as an essential remedy. The agency should be co-operative, organized and empowered to offer to every milk producer in New England a market for his product, at a price varied only by quality and distance from the farm to the market.

About 200 dairy farmers, state commissioners of agriculture and representatives of farm bureaus and colleges were present at the conference.

"On every ship they steer and pour at the United States and openly defy our government with arrogance," said Colonel Haywood.

SUIT FOR \$1,000,000

NEW YORK, March 12.—Suit for \$1,000,000 damages alleged to have been sustained by members of the investment firm of Richardson, Hull & Co., through alleged misrepresentation which induced them to invest in securities of the International Products Co., a Maryland corporation, came to trial today before Supreme Court Justice Mahoney sitting with a jury.

CHIROPRACTOR FINED \$250

NORTHAMPTON, March 12.—Horace E. Reigenton, a chiropractor of this city who late yesterday was found guilty by a superior court jury of practicing medicine without a license, was fined \$250 this morning by Justice William Burns. He paid the fine.

NORFOLK-BUSINESS BILL BEATERS

WASHINGTON, March 12.—The Norfolk-Business bill, first of the special farm relief measures to be taken up at this session of congress, was defeated in the senate today by a vote of 22 to 11.

Call Mortimer as Witness

Continued

and attorneys general called into the case, as in charge of prohibition prosecutions, and it is understood that some of the evidence previously produced at Chicago related to alleged irregularities in liquor withdrawals. There was even evidence that the department of justice was prepared to ask grand jury action. Attorney General Cummings has refused to disclose to the house the names of men accused and apparently is hastening legal proceedings so that they may not be hampered by a concurrent hearing by the house common on the same evidence.

The special house committee appointed to investigate the charges does not expect to get its inquiry under way before the end of the week. It was decided today to hold public hearings but first the committee in executive session plans to go over the evidence and to determine what witnesses should be called.

Although declared to be committed to examine witnesses in the open, so there could be no charge of "star chamber proceedings," Chairman Burton said today it might be found advisable to question some witnesses in a preliminary way in private, to determine whether they could present any evidence bearing directly on the case, and if the witnesses to be called probably will be Mortimer.

MOVE TO END PRICE WAR AMONG MILK FACTIONS

BELLEVILLE, Ill., March 12.—With its accused subject the sailing of the present price was between different factions of milk producers in New England, a conference of dairymen and agricultural experts called by the New England Homestead Magazine opened here today. The meeting was arranged about three weeks ago when the New England Milk Producers' association cut the price of milk one cent a quart.

The establishment of a New England sales agency, to be conducted by telegraph, was proposed as an essential remedy. The agency should be co-operative, organized and empowered to offer to every milk producer in New England a market for his product, at a price varied only by quality and distance from the farm to the market.

About 200 dairy farmers, state commissioners of agriculture and representatives of farm bureaus and colleges were present at the conference.

CORCORAN NEVER ASKED FOR OR OBTAINED MONEY

CAMBRIDGE, March 12.—William J. Corcoran, former district attorney of Middlesex county, never asked for or obtained money from him, Kenneth Merrill of Newton testified today in the trial of Corcoran, and others for blackmail.

Merrill was called as a witness for the state, but his testimony was in the main to Corcoran's coming to an apartment where he (Merrill) had been entrapped in a compromising situation with whom the prosecuting attorney asked him: "Did Corcoran tell you that you had committed a serious offense which would cost you money?"

"He did not," was the reply.

Merrill then testified that he was sure Corcoran had never demanded money from him, and that he "never saw him a cent."

STEAMER AGROUND

BOSTON, March 12.—Word was received here by radio today that the shipboard board steamer Eastern Crown, which put into the harbor at Woods Hole, on Tuesday for shelter from the storm, had swung about at her moorings and dragged aground. Her position was not considered dangerous. The steamer is bound from Boston for New York.

The schooner Anna Sophie, which dragged aground on the west side of Vineyard Haven harbor on Tuesday, was reported as still held fast today. She is bound from Rockport, Me., for New York.

Call Mortimer as Witness

Continued

and attorneys general called into the case, as in charge of prohibition prosecutions, and it is understood that some of the evidence previously produced at Chicago related to alleged irregularities in liquor withdrawals. There was even evidence that the department of justice was prepared to ask grand jury action. Attorney General Cummings has refused to disclose to the house the names of men accused and apparently is hastening legal proceedings so that they may not be hampered by a concurrent hearing by the house common on the same evidence.

The special house committee appointed to investigate the charges does not expect to get its inquiry under way before the end of the week. It was decided today to hold public hearings but first the committee in executive session plans to go over the evidence and to determine what witnesses should be called.

Although declared to be committed to examine witnesses in the open, so there could be no charge of "star chamber proceedings," Chairman Burton said today it might be found advisable to question some witnesses in a preliminary way in private, to determine whether they could present any evidence bearing directly on the case, and if the witnesses to be called probably will be Mortimer.

New Haven Locomotives to Be Given Individuality

Continued

Officials of the New Haven road great permission for the painting of the names of only those engineers and firemen whose service record is of the best and who make personal pride in the fitness and appearance of their locomotive. And right down the Lowell line and all around and inside the old Lowell roundhouse of the New Haven today, there are a lot of genuine personal-pride, we'll say.

Fred Wright, veteran pilot of engine 341, has been at N. Y. S. H. & H. for 26 years. He has the run from Boston to New York, R. I., and "carries the nice people," he says. It is considered a snappy assignment, and with Fred's name standing next to new in gold letters on the window-cabs, you can bet that Fred has heroic impulses when people walk by and "stand" at the station platforms and read his name in gold in above the big driving wheel.

The new idea in New Haven railroad circles as it has been called, is not a new idea at all. In the early days of railroading it was customary to call each locomotive by a different name or title. There were such names as Aaron, Daniel and William in mid-west small divisions. In New England, old-timers will remember "Gen. Grant," "Sheridan" and "Tyler" among other cognomens. Other titles were often found under the cab windows on either side, such as "Queen" and "Emperor."

A Sun man's ramble today through the south yards showed several New Haven engines dotted up with names on the cab windows. The habit is growing fast, railroad men said.

The first engine came out of the paint shop with simply the name of the engineer driving it emblazoned on the cab windows in gold letters about six inches high. Now it is customary where a pair of "steelies" handle the same locomotive daily throughout the year, to have the engineer's name painted on the side of the machine, and the fireman's name on the frame below the window on the short-swinging side. In this way both gentlemen of the rails are honored and the public can read and digest.

The secret is out, however, and the fact that Lowell's engineers and firemen of long-standing reputation in New Haven railroad circles are climbing to moving beds of fame on the transportation lines of the U. S. A., has only become known this week.

A crowd of Boston commuters waiting this morning in the Middlesex street railroad station for a Boston-bound train that was a little late, from the north had their attention attracted by the noise of arrival of the S. H. "train from Framingham," as it is popularly known. This is a daily commuter over the South-Trunk New Haven line to Framingham, Mansfield and beyond, and with the Pull River-New York line.

The commuters finding nothing to do, usually looked over the locomotive and two or three just arrived. Suddenly one waiting Lowell man spied a golden mass of stripes or something on one of the cab windows just below the sill. Moving closer to the locomotive, he discerned the name of a human being. It read: "Emmett Whittier." On the other side of the cab the curious Lowell man found the name: "H. R. Hall."

The secret is out, however, and the fact that Lowell's engineers and firemen of long-standing reputation in New Haven railroad circles are climbing to moving beds of fame on the transportation lines of the U. S. A., has only become known this week.

NEW HAVEN, N. H. FINANCER
NEW YORK, March 12. Edward G. Buckland, vice president of the New York, New Haven & Hartford railroad, said today that the end of the first quarter would find the road in better condition and with most promising earnings since the war. He estimated net income would be about \$100,000 compared with a loss of \$100,000 a year ago.

LOSS OF LIFE LESS THAN FIRST REPORTED

NORFOLK, Va., March 12.—That the loss of life in the sinking of the Ward line steamship Santago off Cape Hatteras Tuesday night, may be less than indicated in first reports, was thought probable by coast guard headquarters here today on receipt of a wireless message from the cutter Manning.

The cutter reported this:

"The Manning received the following message from the steamship Santago: 'We have picked up 10 men from steamship Santago and expected to pick up the rest.'"

NEW GOLD DISCOUNT BANK IN GERMANY

BERLIN, March 12.—(By the Associated Press.) Before the decree of President Ebert dissolving the Reichstag was read today, the deputies adopted a bill providing for the establishment of a new gold discount bank in Germany.

German Child Relief Drive Gets Underway

Continued

To give the lives of children, it will create a different feeling among the people of that country towards us and it will mean stability in Germany," he said.

In conclusion he said: "We have been asked to give a great deal since the beginning of the war and are rather weary of giving, but how would you like to have been starving since 1912? You would be weary of starving and which is worse, to be weary of giving or to be weary of starving?"

Mr. Sprague was the next speaker and he briefly outlined the methods by which the committee intended to go about collecting funds. He asked that Lowell undertakes to collect \$20,000 by a mail campaign and also by a canvass of the well-to-do men and business men of the city.

Dr. John H. Lambert, a veteran of the World war, spoke in favor of the plan, but objected to setting an amount for his public sentiment in the city was against the idea. His plan seemed to meet with little favor among the members of the committee present and it was decided to go ahead on that plan until another meeting is held. The officers of the Lowell committee are Hon. Perry D. Thompson, chairman, Paul H. Hartford, treasurer, and William Thayer, secretary.

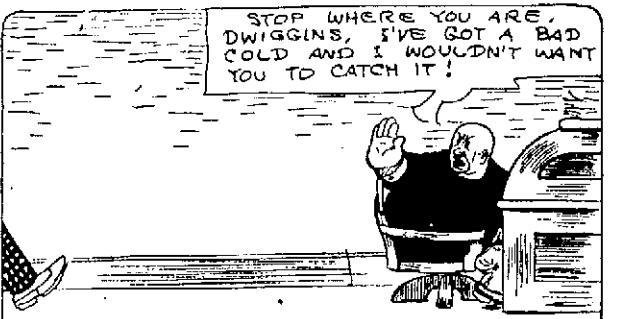

SEE THE POINT?

The Sun has by far the largest circulation of any Lowell paper. Ninety per cent of Sun readers do not read any other Lowell newspaper. See the point Mr. Advertiser?

JUST ONE OF THOSE STUNTS PHOTOGRAPHERS DO
This picture doesn't prove a blooming thing except that the camera man wanted a picture of Hugh McQuillan, of the New York Giants, trading headpieces with one of the Florida natives. We ought to build some sort of legend around the incident, telling how the native is a great follower of big league ball players and yearned for the sensation that comes with wearing a star's cap, but we aren't going to do it. We are one of those truthful sort of reporters, anyway.

Jack Daw's Adventures. Chapter 13

In a very short time the hermit had gathered fishing tackle together and, followed by Flip, the two campers headed for the old fishing spot that the hermit knew so well. Arriving there they crawled into a peculiar shaped boat and paddled out into the stream. "Here's a good place," suddenly said the hermit.

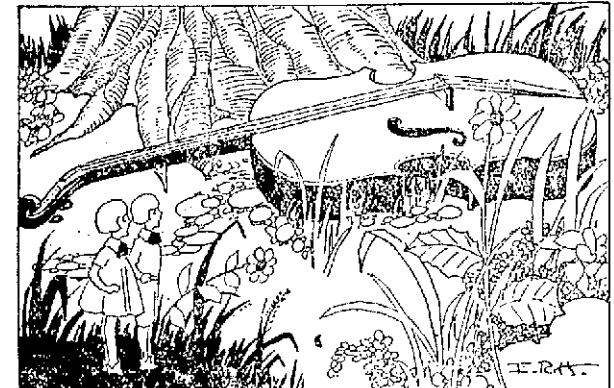

Jack stood up and tossed a rock anchor overboard and the long boat, hewn out of a log, drifted to a stop. Lines were shortly dropped into the stream and almost instantly Jack shouted, "Hush, I've got a bite." The hermit laughed and said, "You don't have to be quiet here. The fish bite anyway."

Jack then jerked his line and felt a strong pull on it. "Yank it in!" shouted the hermit. And Jack gave his line a sudden pull. There was a splash and then a fine fish appeared above the water. "You've got it," said the hermit, and Jack landed the fish in the bottom of the boat. "Isn't it a peach," he said. (Continued.)

ADVENTURES OF THE TWINS

By Olive Roberts Barton

"What's this thing?" said Nancy curiously. A long came a fiddler on his way to the fair. A jolly fiddler was he, but oh, he was as big as a light-house, and his fiddle was as big as a boat.

He played as he went and his big bow scraped the strings at a furious rate. The sun was hot and the road of Beantalk Land was dusty, and the jolly fiddler got very thirsty. "I'll just leave my good fiddle under a tree," he said, "and hunt a spring of nice, clear water. Then I can eat my slice of bread and cheese and take a short nap. I'll play all the better for it when I reach the fair."

So he laid down his fiddle, and went off into the woods to hunt a spring, but no sooner had he gone than along came Nancy and Nick as happy as two little birds just out of a cage.

"What's this thing?" said Nancy curiously, as she spied the fiddle. The two of them walked all around it and finally crawled up on top and looked down the hole.

"I know," declared Nick. "It's a fiddle, and one of the Beantalk Giants has left it here. With that he touched one of the strings. Zzz! It went with a singing noise, but it

thought it was only a little noise for a giant. It was a great big noise for Nancy and Nick.

"Let's play a tune!" cried Nancy. "You pull one string and I'll pull another and see if we can't make some music."

So they began, and although it wasn't much music there was a great deal of sound.

Suddenly the fiddler, who was at that minute taking a drink out of a leaf cup, held up his head and listened. "What was that he heard? It sounded like a fiddle! His fiddle! But some rascal had come along and picked it up!"

Without a word he rushed through the woods to the place where he had left his fiddle.

And what a sight met his astonished eyes! A little boy and girl no bigger than his thumb, pulling away at the strings for dear life!

"Ho, ho, ho! Ha, ha, ha! Ho, ho!" he roared with merriment. "This is a funny world! When I go into the woods, the wood fairies come out, I steal their water and they steal my music. That's fit for me, I call it!"

With that he stooped to pick them up, but the twins had seen him. Quick as a wink they jumped down the hole in the top of the fiddle to the dark place inside and hid.

"Now I've got you!" cried the jolly fiddler, picking up his big fiddle. "And you shall make my fortune. I shall give my fiddle a name. It shall be called 'The Fiddling Fiddle From Fairland,' and I shall charge a penny to get in and hear it. No one can see you if you stay where you are, and you can easily reach the strings. When you play, it will sound as though the fiddle were howling. And folk will flock from far and wide to pay me their money and I shall be rich!"

And so saying, away down the road went the fiddler, pulling his bow across the strings so merrily that the twins inside were almost deafened. But not a bit frightened! My no! They loved an adventure.

(To Be Continued.)

TWO PERISH IN FIRE WITH THE LEGISLATORS

Mrs. Keefe Burned to Death
and Her Son Andrew Suff-
ocated in Malden Home

MALDEN, March 12.—Mrs. Nellie M. Keefe was burned to death and her son, Andrew L. Keefe, was suffocated in a fire which started in the cellar of their home here today and badly damaged the house. Mrs. Keefe was trapped on a staircase, while trying to reach the front door and her son was overcome in a bedroom.

Another escapee by jumping from an upper window into the snow. Mrs. Keefe's husband, Lawrence Keefe, occupied as a night watchman had not returned home when the fire started. Andrew Keefe was well known locally as a Twelfth League baseball player.

HOPE ADDRESS WILL BE HEARD AROUND WORLD

NEW YORK, March 12.—Nine powerful radio stations in Great Britain, each using a 300,000 watt beam, tonight, (Eastern Standard Time) will broadcast the address of the late President Harding, which it is expected will be heard around the world. Arrangements have been made with listeners with special receiving sets in California and Shanghai, China, to enable at once, if they are able to hear the address, it was announced. If they are successful, it will mean that radio has covered the world.

Fight to Annul Oil Leases

Continued
Selling Sinclair, who negotiated the Teapot Dome leases, refused to make known the defense they will make to the government's plan for a temporary injunction and recovery, although Sinclair has announced that the suit for annulment of the lease would be fought to the end.

Government Files Suit

CLEVELAND, Ohio, March 12.—Charging fraud, conspiracy and illegality, the government filed its suit today to cancel the Teapot Dome leases and contracts.

The government's special counsel petitioned the United States district court to do three specific things: 1. Issue a temporary injunction stopping all production of oil from the Teapot Dome and recovery of the property to take charge of the property; 2. Enter a final decree cancelling the leases and contracts, returning the properties to the government and enforcing an accounting.

Ex-Sec. Fall Accused

Former Secretary Fall was charged with making "false representations" to the late President Harding which resulted in the transfer of the lands from the navy to the interior department. The government denies that there was any warrant of law for leasing the lands at all.

The bill further alleges that Fall and Harry F. Sinclair, the latter acting for the Mammoth Oil Co., "conspired, conspired and confederated to defraud the United States."

The result of these alleged acts, the government's bill recites, was to lease the Teapot Dome lands to the Mammoth Oil Co., "an inadequate, improper and fraudulent consideration," proper and fraudulent consideration in connection with the transaction is described in the government's bill "as having exercised no discretion" and his signature is characterized "as merely a colorable attempt to evidence the compliance by him in its terms."

The Sinclair (Teapot Dome) Operating and Refining Co., "a corporation operating under the laws of the United States," made parties to the suit as trespassers, to be ejected, their properties to be taken over by the receiver.

Prepared by former Senator Donnell and Owen J. Roberts, special counsel for the government, the bill goes over much of the ground covered in the senate investigation.

Harding Acted Without Authority

It recites that former President Harding was without authority to transfer the lands, but did so on "false representation from Fall," who desired to deal with the lands "not in the interest of the United States but in the interest of profit and benefit of the Mammoth Oil Co., and in particular, Harry F. Sinclair."

Fall, the bill charges, knew at the time that the whole transaction was illegal.

Evidence of the alleged conspiracy, the government's bill charges, is found in the fact that the proceeds were made in secret by private negotiation, "without advertisement or competitive bidding," and that prospective bidders were discouraged from bidding and the Texas company, the Pioneer Oil Co., Edward L. Foley and Leo A. Stock, the bill says, were among those so excluded.

At the same time, the government charges, Fall secretly refused to take the opinion of law officers of the government on the legality of the proposal.

To Stifle Competition
Fall, furthermore, the government charges, "secretly communicated" to Sinclair that he would not make any leases until Sinclair produced certain things, "knowing well that said clauses were devised to any claims within the were worthless."

"Then, the bill charges, Fall by 'conspiracy' arranged for Sinclair to acquire rack rent claims from the Pioneer Oil Co. with intent to stifle competition."

At the same time, it is noted, Fall agreed with John C. Shaffer, the newspaper publisher, to see that Sinclair got apart certain of the leased lands for "the benefit of the said Shaffer."

"If the act is upheld before the court and other matters," the government's bill concludes, "Albert B. Fall and Harry F. Sinclair did fraudulently and consciously combine, conspire, and confederate, to defraud the United States of America and the result of their alleged acts was to grant the Teapot Dome lands to the Mammoth Oil Co., an inadequate, improper and fraudulent consideration."

MANUFACTURER DROPS DEAD
NEW YORK, March 12.—John F. Alvord, prominent manufacturer, died suddenly at his home today.

International money orders, payable in almost any part of the world, may be obtained from the large post offices and at many of the smaller ones.

Passage of Concord River Bill Predicted—Fight on Annexation Bill

Consideration of Bills for
New Courthouse May Be
Taken Up Tomorrow

STATE HOUSE, Boston, March 12.—The early passage of the bill introduced by Rep. Owen Brennan of Lowell for the investigation of the Concord river sewage and manufacturing waste nuisance is predicted. The bill, reported favorably by the ways and means and public health committees, carries an appropriation of \$2,000 for an investigation and calls for recommendations as to the means of ending the nuisance. The Lowell legislators are lined up solidly in favor of the bill and little difficulty is expected.

The committee on cities and towns is expected tomorrow to report adversely on the Achin annexation bill. This report will mark the beginning of a fight in the house. The Lowell members will fight for substitution of William Stark's bill, which is a fair chance for victory. The Concord house bill in committee may be brought to the floor of day tomorrow. The committee on cities and towns is expected to report favorably on the Stark bill, which has been thoroughly discussed and it would not be surprising to see a new committee bill reported out.

The bill to license real estate brokers and salesmen, on which a public hearing was held Monday, is expected to meet with favor. It is understood that changes will be made in the revised bill before it is reported, however. The bill of Representative Shaver of Lowell, providing for pensions for characters in the employ of the city, is in a doubtful position. An attempt is expected in the senate today to hold up pension bills in the present session and refer them to the special commission on old age pensions which is to report in 1925.

The bill in the movement yesterday on a Boston bill which would increase certain non-contributory pensions. Later in the day the senate will consider an annual revision of the old-age pension bills suggested this year. The Chamberlain bill, raising school ages from 11 to 15 years, was refused substitution in the senate yesterday. The senate postponed action until next Tuesday on all measures relating to jury service. A motion to substitute for the adverse report of the judiciary committee on the bill for compulsory jury service for women will be made at that time.

The election laws committee has rejected the bill of Mayor Curley of Boston to have polls held over the state open for twelve full hours from 8 a. m. on election days, and has voted to report a bill authorizing election officers to permit voting at 3 p. m. to their district. The committee on local affairs has voted against the so-called anti-bribery bill which provides criminal immunity for the confessed bribe-taker or bribe-taker who has been indicted on a charge of bribery without reaching a vote on the bill amending the workmen's compensation law to provide that payments made from day of injury when incapacity lasts 28 days or longer.

Leaders in the medical profession were before the public health committee yesterday urging favorable report on the Hatcher bill, which provides for reorganization in the present state board of registration in medicine.

Dr. Samuel H. Caldwell, chairman of the board, opposed the bill and said it was an attack on the board.

NEW IMMIGRATION BILL

Ex-Sen. Phelan Says Efforts
to Deal With Japanese
Immigration Have Failed

WASHINGTON, March 12.—Efforts to deal adequately with Japanese immigration have failed, former Senator Phelan of California today told the senate immigration committee, because of the "subversive character of American diplomacy." He testified for four minutes in dealing with Japan.

Appearing as spokesman for a California delegation at the committee's hearing on the Johnson immigration bill, Mr. Phelan declared that to give the Japanese the same recognition as it accorded Europeans under the quota provisions "would be to discriminate" not against them but "in favor of them as against the Chinese, the Hindus, the Spaniards and other proud and cultured people."

"Citing that the federal government by law for 100 years has drawn a distinction between those that are eligible to citizenship and those that are ineligible," he asserted that since adoption of the gentleman's agreement in 1905, 25,000 Japanese women have been sent in with Japanese passports as alien brides. He added, "and serve both as wives and laborers in the field. The tide runs and in a few years, the Pacific coast will be 'Japannized' as it is Hawaii."

REPORT KENYON TURNS DOWN CABINET POST

WASHINGTON, March 12.—Judge William S. Kenyon of Iowa conferred with President Coolidge today regarding the president's tender to him of the post of secretary of the navy, and all outward indications were that he declined to accept. Neither he nor White House officials would make any immediate statement but an announcement was promised before the day was over.

TO PERFECT PLANS FOR "IRISH NIGHT"

The committee in charge of the "Irish night" to be held in Liberty hall and the main auditorium of the city Monday night will meet in Y.M.C.A. hall at 8 o'clock this evening for the purpose of perfecting arrangements for the big event. A night of rare enjoyment is promised to young and old. Tickets are now on sale in various stores throughout the city. See ad on Page 5.

OUR BOARDING HOUSE

U. S. Marines Used to Clear Tea Pot Dome

Continued
After a conference with Secretary Fall, to command the detail sent to Teapot.

Four enlisted men were selected to accompany Shuler, who now is treasurer of New York state.

Roosevelt had ordered that men of "tact and discretion" be chosen. General Lejeune said, so as to avoid trouble, in selecting a marine officer for the duty. Col. Roosevelt declared he had "thought to get some man who would not do anything rash, get into a fight or shoot anybody."

"An Awful Mess"
Senator Walsh read into the record a letter sent to George B. Christian Jr., secretary to the president, by H. H. Tamm, of the Denver Post under date of Aug. 1, 1922, characterizing the situation in Teapot Dome as "an awful mess."

Approved By Harding
Tamm called Christian's attention to an article in the Post on the election of the Mutual Oil Co. from Teapot. Christian transmitted the letter to Fall with a request for material on which to base an answer, and Fall responded with a history of the naval reserve, and a discussion of a local controversy raised as to titles upon it.

It was the duty of the navy, the interior secretary's reply insisted, to protect the reserves, and he added, that the marines were the navy's police force for that purpose.

Senator Bursum, republican, New Mexico, asked if there was any precedent for the marine activities and the witness replied that none could be found in the records in the navy department. He added that there was an opinion among naval men that a threat to use the marines in California

On July 29, 1922, Col. Roosevelt said, he found a note from Fall to the effect that "there were trespassers or squatters on the dome, about to take oil" from which the government would not share.

In conversation with him later, the

witness continued, Secretary Fall said and the president wanted some marines sent to put these people off the oil reservation. The secretary added, he said, that he had not expected President Harding to favor the action because one of the men engaged in trespassing was a friend of his. This, however, he declared, made no difference to the president.

In selecting a marine officer for the duty, Col. Roosevelt declared he had "thought to get some man who would not do anything rash, get into a fight or shoot anybody."

On July 29, 1922, Col. Roosevelt said, he found a note from Fall to the effect that "there were trespassers or squatters on the dome, about to take oil" from which the government would not share.

In conversation with him later, the

for a similar purpose had been made some years before.

Roosevelt said he had casually mentioned the sending of marines to Teapot to President Harding who had approved.

"There was nothing in my mind but to protect the naval reserve," Roosevelt said.

Probe Employment of Marines
WASHINGTON, March 12.—The oil committee laid aside its collection of telegrams today, to receive reports on stock market transactions engaged in by government officials and inquire into the employment of marines in clearing Teapot Dome of alleged squatters.

Little time was necessary for examination of the stock dealings reports, which have been assembled by a group of auditors under the direction of Louis D. Bond, expert accountant of the federal trade commission and the committee asked Theodore Roosevelt, assistant secretary of the navy and Major General John A. Lejeune, commandant of the marine corps, to be present at this morning's session for examination with reference to the marine activities.

The auditors' examination of books of brokerage firms here at New York and at Cleveland, Ohio, brought to light no deals in oil stocks by federal officials during the period under investigation, except those of Attorney General Daugherty and Senator Ekins, republican, West Virginia, both of whom already have explained that their transactions had nothing to do with the oil leases.

The committee brought its investigation of the McLean-Fall phase of the inquiry to a climax yesterday with the testimony of Edward B. McLean, publisher of the Washington Post that his involvement in the

DID NOT HOLD MEETING HALT SINCLAIR MEN

Extension Service Bureau
Meeting Called Off Because
of Bad Roads

Attention, school boys!
Interesting announcements came to Lowell today through Draught agricultural channels via personal dispatch from the farm home of Everett Fox, member of the Middlesex county extension bureau service and deeply interested in filling the soil and producing food products in a modern way. Mr. Fox's interest in farm, home and extension service work brings him regularly to agricultural meetings, where discussions hold forth concerning new methods of farming and feeding the soil to keep on farming.

Mr. Fox is today encouraging Draught and Middlesex county farmers to take up courses of training at Massachusetts "Aggie" and has a wealth of literature to help the boys who make the start.

The Draught enthusiast drove up to the "Old Yellow Meeting House" on a top buggy drawn by a stout-himbed, dashing farm horse, early this morning to attend a scheduled meeting of the Middlesex county extension service bureau. He was disappointed when informed that no meeting would be held today because of bad traveling conditions.

Before climbing into that comfortable old-fashioned buggy to hit the snowy trail back to that wonderful farm of many acres spreading all over historic Marsh Hill of Indian fame, Mr. Fox announced that Draught boys are to participate in a novel camping-out party this year—from June 28 to July 28. The "M.A.S." has chosen the camp, which is for recreational, health, training and farming purposes.

The other county towns are planning to send representative boys to the same location, it is said. The camp will be located on the campus of Massachusetts "Aggie" in Amherst, Mass., in the Connecticut valley. The collection on Mt. Toby will be available for overnight hikes.

The camp is designed to meet the demand for a camp where boys from country and city can learn something about agriculture and at the same time enjoy all the recreation that the vacation period should afford.

The hold secretary of the college and the supervisor of extension schools will be in charge of the camp. College men will act as counselors and there will be a leader for every squad of 8 to 10 boys.

Boys of 12 to 15 years of age may attend this camp, although a few older boys may be accepted as junior counselors. No boys under 11 years, 11 months of age will be admitted.

The camp is built to limit to fifty boys each week. It's a chance to become a member of this modern camp, for the charges are small, the main object being to create healthy young Americans and instruct them in the modern methods of keeping healthy, as well as giving them some information about soil-filling—a very attractive proposition which you know how to really fill the soil.

The daily program for this proposed boys' outdoor recreation and instruction camp this coming summer, include nine hours' sleep daily, for one thing; setting-up exercises, idealistic for the first and last part of the day; after dinner, instruction in simple agriculture, recreation, and evening program and simple camp duties. There will also be instruction in not only various branches of agriculture, but in athletics, hiking, scoutcraft and other interesting and useful things.

All boys hoping to make the hardest trip and camp a while under the sky blue sky must remember that the rules covering "what NOT to bring," include firearms and explosives, tobacco in any form, trunk and, last but not least, a grouse.

Japanese Authorities Frustrated Attempt of Americans
to Enter Island of Saghalien

TOKIO, March 12.—(By the Associated Press.)—Japanese military authorities frustrated an attempt by J. P. McCallough and D. E. McLaughlin, American surveyors, representing Sinclair Oil interests to enter the northern section of the island of Saghalien.

DEFEAT FOR MACDONALD LABOR GOVERNMENT

LONDON, March 12.—(By the Associated Press.)—The Macdonald labor government recorded a setback in the house of commons today, when the proposal of J. H. Clynes, deputy leader in the house for the suspension of the eleven o'clock adjournment rule to discuss the army estimates, was defeated, 231 to 267. The government, however, does not consider this a vital defeat.

POLICE ON TRIPS FOR PRISONERS

Police Sergeant Philip Dwyer is in New York with extradition papers for Earlhold Black, wanted on a larceny charge in connection with the last City Trust activities here. Mrs. Clementine Crossley is the complainant. Inquired, Walsh, in Philadelphia, to bring back Ralph Moody, in custody there, wanted here for alleged non-support.

Robert W. Duff, Cranston, filed a voluntary bankruptcy petition in the United States district court, Boston, yesterday, listing liabilities at \$12,925 and assets at \$8,597.

Rev. J. Field Speed presided at the luncheon meeting of the Lowell Ministers' union held yesterday noon at the Y.M.C.A. Mrs. Valentine Wilmet served the dinner. Dr. Edward Balcock, pastor of the First Baptist church, read a paper on "Modern Tendencies in Higher Education."

Members of Lowell lodge, No. 57, B.P.O. Elks, will turn out strong next Monday night for the Irish Night Party, an annual affair among the local members of the anti-herd. The party will be for the exclusive entertainment of Elks.

Fred Allard of 1025 Vermont avenue, is believed to have been a passenger on the Boston-Montreal train which was wrecked in Vermont Tuesday as it is said he boarded that train in Lowell. His parents, Mr. and Mrs. Moses J. Allard, are awaiting news from him, although it is believed he continued on his trip as he was not reported among those injured.

The meeting of the board of public affairs scheduled for 6 o'clock this afternoon, has been postponed until tomorrow at the same hour.

USE SOAP
When making eye-baths in linen, place your material over a cake of white soap and the edges will not travel.

CONFISCATION OF STEAMER DEMANDED

NEW YORK, March 12.—Government confiscation of the Royal Mail Steam Packet Co.'s passenger ship Orduña was demanded today in a libel suit filed in federal court by the United States district attorney's staff as a result of a narcotics and liquor raid on the vessel yesterday.

GERMAN REICHSTAG DISSOLVED

BERLIN, March 13.—(By the Associated Press.) President Ebert dissolved the Reichstag today. His action is in consequence of the determination of the socialists to insist on revision of the special emergency ordinances promulgated by the government, notably law regulations, support secured a continuance of two weeks. In the course of examination of the defendant by Judge Eberhart prior to the granting of the continuance it developed that domestic difficulties are not new to him. Only in a few days ago he said his wife phoned the police station that he was drunk at home and asked that he be arrested. He said two patrolmen arrived at his home, made him walk a crack on the floor, and decided he wasn't drunk and let the matter drop without arresting him.

Theodore A. Lathrop pleaded not to a charge of violating the law regarding the sale of skins and furs. The plea was accepted and the complaint filed.

John J. Stack, fourth offense of drunkenness, was placed on probation for one year, sentence of three months in the house of correction being suspended. A continuance until tomorrow was granted in the case against two juveniles charged with theft of 225 pounds of coal from the yards of the Thimbleville company.

The shipping tonnage under construction in Great Britain at the end of last September was 1,022,000 tons, the low-

TODAY'S DOCKET IN THE DISTRICT COURT

Charles L. Wadsworth paid a \$50 fine in district court this morning for driving a motor car after his license had been revoked. Policeman Patrick O'Leary told Judge Eberhart that Wadsworth was driving a car yesterday at such a high rate of speed that he halted him and demanded to look at his license. When Wadsworth couldn't produce one of the motor vehicle inspectors were notified and that officer, Inspector Louper informed the police that the youth's license was revoked Feb. 4 upon his conviction on a charge of driving while drunk.

Arthur Isabelle, charged with non-
